Independent Auditor's Report

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the 401(k) Savings Plan for Employees of The Dispatch Printing Company and Associated Employers, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in the notes to the financial statements, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Plan Description

The following description of the 401(k) Savings Plan for Employees of The Dispatch Printing Company and Associated Employers (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Plan participants include all non-union employees of the employer members who have attained age 21 and completed the Plan's eligibility service requirements. Participants meet the eligibility service requirements on the first date they have completed either (i) 250 hours of service or (ii) one year of eligibility service, defined as working a minimum of 1,000 hours. Newly eligible employees may enroll in the Plan on the first day of each quarter upon meeting the Plan's eligibility requirements. A listing of the present employer members (collectively, the Companies) follows:

Consumers News Services, Inc.
Dispatch Productions, Inc.
Dispatch Consumer Services, Inc.
Dispatch Interactive Television, Inc.
The Dispatch Printing Company
RadiOhio Incorporated
VideoIndiana, Inc.
VideOhio, Inc.
WBNS-TV, Inc.
Wolfe Enterprises, Inc.
Central Ohio Community Newspapers, LLC

The Companies pay all administrative and professional fees related to the Plan.

Contributions

Plan participants may authorize payroll deductions of 2% to 50% or any fixed dollar amount up to 50% of the participant's compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers one collective investment trust fund and thirteen mutual funds as investment options for participants.

Plan Description (continued)

Contributions (continued)

The Companies make an Automated Employer Contribution to the Plan equal to 3% of each participant's compensation each pay period. Participants are eligible to receive Automated Employer Contributions once 250 or more hours have been completed. The companies may elect to make an Employer Discretionary Contribution. Participants are eligible to receive the Employer Discretionary Contribution once 250 or more hours have been completed. The companies did not elect a discretionary contribution in 2013. During 2012, the discretionary contribution was \$1,000 per eligible employee. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (i) employer contributions and (ii) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions are immediately 100% vested and non-forfeitable. As of January 1, 2010, all participants are at all times fully vested in the portion of their Employer Contributions made to the Plan for plan years beginning on and after January 1, 2010. For Automated Employer Contributions made to the Plan for plan years prior to January 1, 2010, participants become 100% vested in their allocation once three years of vesting service has been completed, as defined in the Plan agreement, upon reaching the age of 65 while still employed by the Companies or if the participant's employment with the Companies ends due to death or disability. Effective January 1, 2012, participants are fully vested in any Employer Discretionary Contributions made.

Payment of Benefits

Under the Plan, a participant receives the full value of his or her vested account balance upon retirement, termination of employment or disability. Beneficiaries are entitled to the participant's account upon the participant's death. The Plan also provides for employees to make in-service withdrawals from their account under certain "hardship" circumstances. Benefits are paid in a lump-sum.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$884 and \$409, respectively. These accounts will be used to reinstate previously forfeited accounts of reemployed participants who meet the conditions for reinstatement, as defined in the Plan agreement. Any remaining forfeitures at year-end will be used to reduce future Automated Employer Contributions. No forfeitures were used by the Plan to reduce Automated Employer Contributions in 2013 or 2012.

Plan Description (continued)

Plan Amendment

Effective January 1, 2012, the plan was amended and restated. The Plan was amended to allow discretionary employer contributions each year for all eligible employees.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2013 and 2012, contract value of the collective investment trust approximated fair value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recognized on the ex-dividend date, and interest is recognized on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Collective Investment Trust

The Plan holds a collective investment trust fund, the Stable Pooled Fund (the Fund), in the Diversified Investment Advisors (DIA) Collective Trust (DIACT). DIACT is a trust formed under an Agreement and Declaration of Trust between State Street Bank and Trust Company (State Street) and Diversified Investment Advisors, Inc. The Fund invests primarily in the Wells Fargo Stable Return Fund G (Wells Fargo), a bank collective trust sponsored by Wells Fargo & Company. Wells Fargo primarily invests in investment contracts, including traditional guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions. GICs are backed by the general account of the contract issuer. Wells Fargo deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period. Interest is accrued on either a simple or fully compounded basis and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest). A security-backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds, and is either owned directly by Wells Fargo or owned by the contract issuer and segregated in a separate account for the benefit of Wells Fargo. The interest crediting rate of a security-backed contract is based on the contract value, fair value, duration and yield to maturity of the underlying portfolio, and the contract typically allows for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest credit rate, rather than reflected immediately in the net assets of Wells Fargo.

Because the collective trust is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the collective investment trust contract. Contract value, as reported by the trustees, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The collective investment trust contract does not permit the trustees to terminate the agreement prior to the scheduled maturity date.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets.• Quoted prices for identical or similar assets or liabilities in inactive markets.• Inputs other than quoted prices that are observable for the asset or liability.• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

<i>Mutual Funds:</i>	Valued at the net asset value of shares held by the Plan at year-end.
<i>Collective Investment Trust:</i>	Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Tax Status

The Internal Revenue Service (IRS) has determined and informed the employer members by letter dated January 29, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

**Notes to Financial Statements
December 31, 2013 and 2012**

Party-in-Interest Transactions

Certain Plan investments are shares of a collective investment trust managed by State Street and DIA. State Street and DIA are the trustee and recordkeeper, respectively, as defined by the Plan agreement and, therefore, these transactions qualify as party-in-interest.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2013 statement of net assets available for benefits.

Subsequent Events – Date of Management's Evaluation

The plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued.
