INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Jamestown Companies Retirement Plan & Trust

Report on the Financial Statements

We have audited the accompanying financial statements of the Jamestown Companies Retirement Plan & Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Member of Kreston International – a global network of independent accounting firms

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) Description of plan

The following description of the Jamestown Companies Retirement Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, both of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Jamestown Metal Marine Sales, Inc. (the "Company") for the benefit of its full-time employees who have at least one year of service and are not excluded by certain provisions in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions - Participants may contribute any amount of their eligible compensation, as defined in the plan document, without exceeding limitations prescribed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined in the plan document. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Company may also contribute to the Plan in the form of a matching or profit sharing contribution. These contributions are determined annually and are made at the discretion of the Company's management. Discretionary profit sharing contributions are allocated to each eligible participant's account in the same proportion that compensation plus compensation in excess of social security taxable wage base ("Excess Compensation") bears to the total compensation plus Excess Compensation of all eligible participants, provided the total to be allocated for the year does not exceed 5.7% of total eligible compensation plus Excess Compensation. Any remaining Company contribution is then allocated in the proportion that the total compensation paid to the participant for that plan year bears to the total compensation paid to all eligible participants for the same year.

On the anniversary date of the plan year in which they occur (or such time as shall be determined by the plan administrator), forfeitures of profit sharing contributions shall be credited to the Company's contribution accounts of the same participants who are entitled to share in the Company's contribution for the plan year and allocated in the same manner as the Company's contribution, as noted above. For purposes of determining eligibility for discretionary profit sharing contributions, participants must be employed on the last day of the plan year and have completed at least 1,000 hours of service during the plan year.

The Company made discretionary profit sharing contributions aggregating $305,000 and $250,000, applicable to the years ended December 31, 2013 and 2012, respectively. The Company did not make any discretionary matching contributions during 2013 or 2012. All contributions made by the Company are subject to certain Internal Revenue Code ("IRC") limitations.

(1) Description of plan (continued)

Participant investment account options - The Plan currently offers various common collective trust funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their own contributions plus actual earnings thereon. The Company's contributions are subject to the following vesting schedule:

Years of Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. All notes must be repaid to the Plan within five years, unless the funds are used for the purchase of the participant's primary residence in which case the repayment period may be longer. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or other reasons, or qualifying under certain hardship rules as prescribed by the Internal Revenue Service (the "IRS"), a participant is eligible to receive distributions from the Plan. Participants are also eligible for in-service distributions upon attaining 59 ½ years of age. Distributions greater than $5,000 may be in the form of one lump-sum payment, installment payments, an annuity, or a rollover into another qualified defined contribution or benefit plan or individual retirement account. Distributions less than $5,000 are made only in the form of a lump-sum payment.

Forfeited accounts - At December 31, 2013 and 2012, forfeited nonvested accounts totaled $15,879 and $13,482, respectively. These amounts were subsequently allocated to participant accounts in the same manner as the Company's discretionary profit sharing contributions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on the contract value basis.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. Related fees are expensed as incurred and are included within investment expenses on the statements of changes in net assets available for benefits. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the remaining note balance is reduced and a benefit payment is recorded.

Unit values - Individual participant accounts for the common collective trust funds are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

(2) Summary of significant accounting policies (continued)

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain administrative expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Investment related expenses are deducted from net appreciation in fair value of investments to derive the Plan's net investment income on the statements of changes in net assets available for benefits. Expenses paid to the Plan's third party administrator have been recorded as administrative expenses.

Reclassifications - Certain items from the 2012 financial statements have been reclassified to conform to the 2013 presentation.

(3) Investments

The following investments represent 5% or more of the Plan's net assets:

	December 31, 2013	December 31, 2012
Galliard Retirement Income Fund	$ 4,500,379	$ 6,067,052
WTFSC Large Company Value Portfolio	1,533,876	1,044,365
WTFSC S & P 500 Index Portfolio	1,074,240	*
WTFSC Total Return Reit Portfolio	956,272	838,215
WTFSC Strategic Bond Portfolio	952,440	911,914
WTFSC Overseas Equity Portfolio	921,891	*
WTFSC Strategic Growth Portfolio	744,204	*

* Not applicable, investment amount is below 5%.

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	Years Ended December 31, 2013	Years Ended December 31, 2012
Common collective trusts	$ 1,598,403	$ 678,799

(3) Investments (continued)

Galliard Retirement Income Fund - The Galliard Retirement Income Fund ("Galliard") is a common/collective trust fund that is considered to be a stable value fund with underlying investments in investment contracts and is valued at fair value and then adjusted by the issuer to contract value. Fair value of the stable value fund is the net asset value ("NAV") of its underlying investments and contract value is principal plus accrued interest. Galliard is a stable value fund that is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. Galliard's investment objective is to seek preservation of capital and a competitive level of income over time. To achieve its investment objective, Galliard invests in underlying assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third party. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

However, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the plan document (including complete or partial termination or merger with another plan.), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the Plan's participants are probable of occurring. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

(4) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

(4) Fair value measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Common collective trust funds: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Common collective trust funds*:				
Stable value fund	$ -	$ 4,500,379	$ -	$ 4,500,379

Income fund	-	467,789	-	467,789
Total investments at fair value	$ -	$ 13,469,676	$ -	$ 13,469,676

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Investments at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Common collective trust funds*:				
Stable value fund	$ -	$ 6,067,052	$ -	$ 6,067,052

Income fund	-	280,308	-	280,308
Index fund	-	31,211	-	31,211
Total investments at fair value	$ -	$ 11,583,733	$ -	$ 11,583,733

* The fair value of the investments in the common collective trust funds has been estimated using the NAV of the investments. The common collective trust funds included in the above charts are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

(5) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan’s termination, participants would become 100% vested in the Company’s contributions.

(6) Party-in-interest transactions

Certain of the Plan's investments are managed by Wilmington Trust Fiduciary Services, a trustee for the Plan and the custodian of the Plan's assets. The Plan also utilizes Merrill Lynch as an investment consultant, and Retirement Strategies, Inc. ("RSI") as a third party administrator. Aggregate fees paid by the Plan to these parties-in-interest during the years ended December 31, 2013 and 2012 amounted to $115,709 and $99,307, respectively.

(7) Tax status

The Company has adopted a volume submitter profit sharing plan provided by RSI. The IRS has issued an opinion letter to RSI dated March 31, 2008 stating that the volume submitter document adopted by the Company is designed in accordance with applicable sections of the IRC. Although the Plan has not applied for or received its own determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits in progress for any tax periods. The plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Subsequent events

The Plan's management has evaluated subsequent events through September 22, 2014, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
