FIRTH RIXSON, INC. EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of the Firth Rixson, Inc. Employee Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Firth Rixson, Inc. (the Company). The Plan covers substantially all of the employees of the following entities: Firth Rixson, Inc.; Schlosser Forge Company; Firth Rixson Forgings, LLC.; Viking Metallurgical, Inc.; Forged Metals, Inc. and JBF Firth Rixson, Inc. (collectively the Companies) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

Principal Life Insurance Company (Principal Life) is the trustee of the Plan and Principal Life and Principal Trust Company (Principal Trust) are the custodians of the Plan's assets. Firth Rixson, Inc. is the plan administrator and plan sponsor. The Companies pay certain administrative expenses of the Plan.

Eligibility

The Plan covers substantially all full-time employees who have attained eighteen years of age and completed ninety days of service who are not party to a collective bargaining agreement. Employees are eligible to participate as of the first monthly plan entrance date following satisfaction of the Plan's eligibility requirements.

Contributions

Participants may make tax-deferred contributions of up to 100% of their compensation, subject to the limitations of the Internal Revenue Code. The Companies may make matching and profit-sharing contributions on behalf of participants on a discretionary basis.

Participant Accounts

Participants direct the investment of their contributions and the Companies' contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contributions, employer contributions and actual earnings thereon. Benefit payments are deducted directly from participant accounts.

Vesting

Participants are immediately vested in their contributions and actual earnings thereon. Discretionary matching and profit-sharing contributions vest 50% after one year of service and are fully vested after two years of service.

Benefit Payments

Upon termination due to retirement, death, resignation or permanent and total disability, the value of the participant's account may be paid in a lump sum, rolled over to another qualified investment, or used to purchase an annuity, subject to limitations as specified in the Plan. The normal retirement date for participants is age 65, although the Plan allows early retirement for participants who have attained age 59 1/2.

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

Participants may borrow up to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from one to five years, but the Plan administrator may permit a longer term if the loan is for the purchase of a principal residence. The loans are secured by the participant's account and bear interest at a reasonable rate of interest as determined by the plan administrator.

Hardship Withdrawals

Hardship withdrawals from the Plan are permitted from a participant's vested account balance under certain circumstances.

Forfeitures

Forfeitures of non-vested accounts are used for the payment of Plan expenses and/or to reduce future employer contributions. There were no unallocated forfeitures at December 31, 2013 or 2012.

Administrative Expenses

The plan sponsor pays certain administrative expenses of the Plan.

Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as reported by Principal Life and Principal Trust. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. The net appreciation (depreciation) in fair value of investments consists of both realized and unrealized gains and losses on the Plan's investments.

As described in FASB Accounting Standards Code (ASC) 962-325-35, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a common/collective trust that itself invests in fully benefit-responsive investment contracts. As required by ASC 962-325-35, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the common/collective trust and an adjustment to net assets available for benefits for the difference between fair value and contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Fair Value Measurements

ASC 820 establishes a hierarchy for information and valuations used in measuring fair value that is broken down into three levels based on reliability. Level 1 valuations are based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 valuations are based on inputs, other than quoted prices included within Level 1 that are observable, either directly or indirectly. Level 3 valuations are based on information that is unobservable and significant to the overall fair value measurement. A description of where the Plan's assets fall within the ASC 820 hierarchy is provided in Note 5.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the accompanying financial statements.

Benefit Payments

Benefit payments are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INVESTMENT CONTRACT

At December 31, 2013, the Plan investments include a common/collective trust, which is a fully benefit-responsive investment contract. The fund is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the common collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common collective trust. Contract value, as reported to the Plan by Principal, represents the invested principal plus accrued interest on investment contracts and balances invested overnight, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The average yield was 1.25% and 0.87% at December 31, 2013 and 2012, respectively. The crediting interest rate was 1.17% and 1.42% at December 2013 and 2012, respectively.

3. INVESTMENT CONTRACT (Continued)

The Plan's ability to transact at contract value with Principal Life could be limited if the plan administrator terminates the contract. The plan administrator does not believe that the occurrence of this event is probable.

4. CERTIFIED INVESTMENT INFORMATION

The following information was certified as complete and accurate by Principal Life, and Principal Trust.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common/Collective Trust: The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are valued at representative quoted market prices. Short-term securities, if any, held by the fund are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the Trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders.

The fund strategy provides for collective investment in contracts issued by insurance companies, or other institutions that are designed for the stability of principal.

Mutual Funds: valued at fair value based on quoted market prices.

Pooled Separate Accounts: valued at fair value based on the value of the underlying investments.

The Plan's investments in pooled separate accounts are invested in global and domestic equity and fixed income based investments. The net asset value of these investments is derived from the market value of the underlying investments. The net asset value of the funds are then calculated and reported by Principal each day.

The investment strategies of these accounts is to invest in global and domestic equity and fixed income investments with the goal of producing favorable long-term returns primarily through appreciation of assets, dividends, and interest over a diversified portfolio group.

There are no restrictions on the number of transactions a participant can conduct related to the investment contract or pooled separate accounts. These accounts do not have any unfunded commitments.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions could result in different fair value measurements at the reporting date.

6. INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Principal Life. Principal Life received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, which stated that the prototype document satisfied the applicable provisions of the Internal Revenue Code. The Plan itself has not received a determination letter from the IRS. However, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the accompanying financial statements.

As of December 31, 2013 and 2012, the Plan does not have a liability for unrecognized tax benefits. The Plan files Form 5500 with the Internal Revenue Service. The Plan is generally no longer subject to IRS examinations for years before 2010.

7. PARTY-IN-INTEREST TRANSACTIONS

Plan investments include pooled separate accounts managed by Principal Life Insurance Company, a custodian of Plan assets. Therefore, transactions involving these securities qualify as party-in-interest transactions. Transactions involving notes receivable from participants also qualify as party-in-interest transactions.

8. RECONCILIATION TO FORM 5500

Certain items are classified differently between the financial statements and Form 5500. The following is a reconciliation of net assets available for benefits per the financial statements to net assets available for benefits per Form 5500 at December 31:
