401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note A - Description of Plan:

The following description of the Half Price Books 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Half Price Books, Records, Magazines, Incorporated ("Company") who have six months of service and have attained the age of eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 75% of annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The employer safe harbor matching contribution is equal to 100% of each participant's contribution to the extent that the participant's contribution does not exceed 5% of the compensation, as determined each plan year. Participants direct the investment of the employer safe harbor matching contribution into various investment options offered by the Plan.

Each year the employer discretionary contribution, if any, is an amount determined and authorized by the Company's board of directors. Participants direct the investment of their allocated Company contribution into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses not paid by the Company, if any. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and in the employer safe harbor matching contributions, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The interest rate on the loans is the prime rate plus 1%. The loans provide for periodic repayment over a reasonable period of time.

Payment of benefits

On termination of service, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in their account.

Forfeited accounts

At December 31, 2013 and 2012, forfeited nonvested accounts approximated $112,000 and $38,000, respectively. These accounts may be used to reduce future employer contributions. During calendar year 2013 and 2012, employer contributions were reduced by approximately $40,000 and $92,000, respectively, from forfeited nonvested accounts.

401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note B - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using contract value for the fully benefit-responsive investment contract.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2013 and 2012, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Although not obligated to, the Company pays substantially all administrative expenses of the Plan, excluding in-service withdrawal, distribution and loan fees, and charges to accounts of terminated participants.

Date of management's review

Subsequent events were evaluated through September 24, 2014, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note C - Information prepared and certified by trustee (continued):

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2013	2012
Common/collective trusts	$ 47,825	$ 71,937
Mutual funds	8,067,105	3,732,904
	$ 8,114,930	$ 3,804,841

Note D - Fair value measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad level: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common/collective: A portion is valued using a discounted cash flow methodology. Certain assets are valued at representative quoted market prices and others at amortized cost, approximating market value. Remainder is valued based on market transactions for comparable securities.

Mutual funds: Valued at the publicly-quoted net asset value of shares held by the Plan at year end.

HALF PRICE BOOKS
401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note E - Related party transactions:

Plan investments are managed by Charles Schwab Trust Company ("CSTC"). CSTC is the trustee, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments. Fees paid by the Plan to Milliman, Inc. for record keeper services amounted to $82,928 and $40,170 for the years ended December 31, 2013 and 2012, respectively. Milliman, Inc. is the Plan's record keeper, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note F - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note G - Tax status:

The Internal Revenue Service has determined and informed the Company by a letter dated February 27, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, and it has been selected by the IRS for examination of the 2009 plan year. The plan administrator believes the Plan is no longer subject to income tax examination for years prior to 2009.

Note H - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
