Freeman Companies' 401(k) Retirement Savings Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Freeman Companies' 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible United States employees of the Freeman Decorating Co. and various participating employers (collectively, "Freeman" or "Company" or "Employer") who have completed three months of service. Some employees may not be eligible due to organized labor agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration

Several employees of the Company are the Plan Administrators responsible for the administration and operation of the Plan although such employees receive no compensation from the Plan. Mercer Trust Company, (the "Trustee") is responsible for the custody and transaction processing of the Plan's assets.

Contributions

Each year, participants may voluntarily contribute up to 50% of their eligible pretax annual compensation, as defined by the Plan. A participant is automatically deemed and considered to have made a pretax election in an amount equal to 3% of eligible compensation unless he or she elects otherwise. A participant who does not want the automatic pretax deferral equal to 3% of eligible compensation must make an active deferral election with Freeman either specifying some other amount as the pretax election or specifying that the participant does not wish to make any pretax contribution amount. Amounts contributed for which no investment decision is made will be invested in the Retirement Choice Portfolio that most clearly matches the participant's target retirement year, based on the Plan's normal retirement age of 65. Participants may also make voluntary after-tax contributions. Freeman may make discretionary matching contributions, as determined each year by the Board of Directors of Freeman. For the Plan year ended December 31, 2013, Freeman elected to match 50% of an employee's pretax contribution up to 3% of pay.

The Plan also offers catch-up contributions to participants who attained age 50 or older before the close of the Plan year. Participants may also make contributions (rollovers) which represent distributions from other qualified defined contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) Freeman's contributions (if any) and (b) plan earnings. Allocations are based on participant contributions, participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Freeman Companies' 401(k) Retirement Savings Plan

Notes to Financial Statements

Investment Options

Each participant may direct their contributions in any of the investment options available under the Plan.

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or disability regardless of years of services.

Vesting

Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the remainder of the account plus earnings thereon is based on years of service. A participant is 100% vested after three years of credited service.

Forfeitures

The Plan provides that forfeitures of terminated participants' non-vested account balances may be used first to pay administrative expenses then used to reduce Freeman's contributions. At December 31, 2013 and 2012, \$122,913 and \$32,840, respectively, was available to pay administrative expenses or reduce Freeman's contributions. During 2013, Freeman used forfeitures to pay administrative expenses in the amount of \$119,715.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at the prime rate in effect at the first of the month during which the loan was issued. A participant may have no more than two loans outstanding from the Plan at any time. Loan principal and interest are paid ratably through weekly or semi-monthly payroll deductions.

Payment of Benefits

On termination of service, disability, retirement, or death, a participant (or beneficiary) may elect to receive a lump sum amount equal to the value of his or her vested interest in the account.

Transfer into the Plan

In May 2013, the Company transferred assets into the Plan from the accounts of inactive participants of the Freeman Employee Stock Ownership Plan ("ESOP") who had not requested payment of their benefits. Total assets transferred into the Plan were \$30,874,125 based on the fair value of such assets on the date of transfer.

2. Summary of Accounting Policies

The policies and principles that significantly affect the determination of net assets and changes in the net assets are summarized below.

Freeman Companies' 401(k) Retirement Savings Plan

Notes to Financial Statements

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain report amounts and disclosures, and actual results may differ from these estimates

Risks and Uncertainties

The Plan provides for various investment options including any combination of mutual funds, collective trust funds, and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to change in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Administrative Expenses

Certain administrative expenses are paid by the Plan and thus are a component of the statement of changes in net assets available for benefits. For the year ended December 31, 2013, administrative expenses paid by the Plan totaled \$802,480, which includes consulting and recordkeeping fees.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Loans to participants are carried at their unpaid principal balance plus any accrued but unpaid interest. There was no allowance at December 31, 2013 or 2012 as the loans are fully collateralized by the participant's accounts.

Notes to Financial Statements

Fully Benefit-Responsive Investment Contracts

While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund.

3. Fair Value Measurements

The accounting standards establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 inputs such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of its investments.

Mutual funds: The fair value of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value Fund: The fair value of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 2 inputs). The fund invests primarily in guaranteed investment contracts or funding agreements, security backed investment contracts, separate accounts issued or wrapped by insurance companies, banks or other financial institutions, with the objective of providing a fixed income yield with minimal market-related risk. The fund may also invest in high quality money market instruments or other similar short term investment. The fund provides for daily redemptions by the Plan at reported net asset value per share.

Notes to Financial Statements

The methods described above may produce a fair value calculation that may not be indicative of net realizable value reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis at December 31, 2013 and 2012 are summarized below:

6. Party-In-Interest Transactions

Party-in-interest is defined under the Department of Labor regulations as any fiduciary of the plan, any party rendering service to the Plan, the employer, and certain others. Participant loans totaling \$12,607,418 and \$11,461,833 at December 31, 2013 and 2012, respectively, constitute party-in-interest transactions.

Notes to Financial Statements

7. Tax Status

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype plan adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has not been amended from the original prototype document, the Adoption Agreement has been amended. Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
