Note 1 – Plan Description

The following description of the Bristol Farms, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan was established effective as of July 3, 1995, and is intended to qualify as a profit sharing plan under sections 401(a) and 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – The Plan is sponsored by Bristol Farms, Inc. (the "Company" or "Sponsor"), which also serves as the plan administrator. State Street Bank and Trust Company ("State Street" or "Trustee") maintains the Plan's assets and is the Plan's trustee, and ADP Retirement Services ("ADP") is the Plan's record keeper. Effective January 1, 2009, the Company adopted a prototype plan of an affiliate of ADP, thereby amending and restating the Plan.

Eligibility – Full-time employees of the Company are generally eligible to participate in the Plan after three months of service. However, non-resident aliens, union and leased employees are excluded from participating in the Plan.

Contributions – Participants may make pretax contributions of up to 60% of their annual eligible compensation, which shall not exceed the maximum allowed under the IRC limitations, which was $17,500 for the 2013 Plan year. However, highly compensated employees (as defined by the Plan) may be subject to further limitations. Participants that are 50 years of age or older who have met the annual IRC deferral limit or the specified Plan limits for deferral, may contribute a catch-up contribution of up to $5,500 for 2013. Participants may also rollover amounts representing distributions from other qualified plans. All participant contributions are participant-directed by the participant in one or more of the investment options offered under the Plan.

The Plan also provides for employer discretionary matching contributions based upon a discretionary percentage of each participant's deferral contributions as determined by the Sponsor. Participants who have at least one year of service are eligible for the employer discretionary matching contributions. In addition, the Plan also provides for non-elective profit sharing contributions.

For the year ended December 31, 2013, there was $180,445 in employer discretionary matching contributions made to the Plan.

Note 1 – Plan Description (continued)

Participants' accounts – Participants' contributions are invested in various funds according to participant elections and must be allocated among the available funds in whole percentages. Individual accounts are maintained for each of the Plan's participants to reflect each participant's contributions and related employer contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of the Plan income and expenses are based on the proportion that each participant's account balance bears to the total of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are 100% vested at all times in their deferral contributions, plus actual earnings or losses thereon. In addition, participants are also 100% vested at all times in any safe harbor matching contributions that were made prior to the Plan being amended and restated to discontinue the safe harbor contributions.

Vesting in employer contributions other than safe harbor matching contributions is based on years of continuous service. Participants vest in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeited accounts – If a participant's employment is terminated before full vesting of employer contributions and related earnings are attained, the amount not vested is allocated to pay any administrative expenses of the Plan or to reduce any employer contributions. During the year ended December 31, 2013, forfeitures of $842 were used to reduce employer contributions. At December 31, 2013, non-vested forfeited balances in the Plan totaled $34.

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. These payments may be paid in a lump sum payment or paid in installments over time. Any withdrawal made by a participant prior to attaining age 59½, that is not rolled over into another retirement account, for reasons other than death or disability is subject to a 10% federal excise tax.

Hardship withdrawals – A withdrawal from a participant's account may be permitted if the participant has a financial hardship for certain specific reasons as defined in the Plan document.

Note 1 – Plan Description (continued)

Participant loans – Participants may borrow from their accounts a minimum of $500 up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance of the participant's account and must be repaid at a fixed rate which is commensurate with local prevailing rates.

Loans must be repaid within five years, unless the loan is for the purchase of a principal residence, in which case, the repayment period may be extended.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could materially differ from those estimates.

Investment valuation – Investments are stated at fair value (see Note 3).

In accordance with the policy of stating Plan assets at fair value, the Plan presents the net appreciation (depreciation) in the fair value of its investments in the statement of changes in net assets, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 2 – Summary of Significant Accounting Policies (continued)

The Invesco Stable Value Fund, which is an investment fund held in a common and collective trust, is managed to seek preservation of principal and to provide interest income reasonably obtained under prevailing market conditions. The Invesco Stable Value Fund invests principally in investment contracts and synthetic and traditional GICs issued by insurance companies, banks, and other issuers. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, which represents contributions made to the fund, plus earnings, less participant withdrawals. For financial reporting purposes, the Invesco Stable Value Fund is accounted for under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962, Plan Accounting – Defined Contribution Pension Plans ("ASC 962"). Under the guidance of ASC 962, Plan management had determined that the Invesco Stable Value Fund is fully benefit-responsive. As described in ASC 962, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, for investment contracts that are considered to be fully benefit-responsive, ASC 962 requires the presentation of the adjustment from fair value to contract value in the statement of net assets available for benefits. As of December 31, 2013 and 2012, the contract value of the Invesco Stable Value Fund approximated its fair value, and therefore, there is no adjustment from fair value to contract value presented in the accompanying statement of net assets available for benefits.

Payment of benefits – Benefit payments are recorded when paid.

Promissory notes from participants – Promissory notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loans to be in default, the participant loan is reduced and a benefit is recorded.

Administrative expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of promissory notes from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 3 – Fair Value Measurements

FASB ASC Topic 820, Fair Value Measurements and Disclosures ("ASC 820"), defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal, or in the absence of a principal market, the most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs in priority that may be used to measure fair value:

Note 3 – Fair Value Measurements (continued)

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (such as interest rates and yield curves, credit risks, and default rates) or other inputs that are principally derived from or corroborated by observable market data by correlation or by other means.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – The fair value of mutual funds is determined based on quoted market prices in active markets, which represent the net asset value of shares of the mutual fund held by the Plan at year end. Mutual funds are classified in Level 1 of the valuation hierarchy.

Common and Collective Trusts

Invesco Stable Value Fund – The Plan invests in a fully benefit-responsive investment contract through the Invesco Stable Value Fund which is a common and collective trust that holds synthetic guaranteed investment contracts and short-term securities. Units of the common and collective trust are stated at net asset value ("NAV") which is based on the aggregate fair value of the underlying assets of the trust in relation to the total number of units outstanding. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure securities liquidations will be carried out in an orderly business manner. Contract value of the units approximates fair value. The Invesco Stable Value Fund is classified in Level 2 of the valuation hierarchy.

Note 3 – Fair Value Measurements (continued)

The average crediting interest rate for the year ended December 31, 2013 was 1.31%.

Index funds – The fair values of participation units held in common collective trusts – index funds are based on the NAV reported by the fund managers as of the financial statement dates and recent transaction prices. These securities are classified as Level 2 investments.

As of December 31, 2013, the Plan's investments measured at fair value on a recurring basis are as follows:

	Investment Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total

Note 4 – Investments

The following summary of the Plan's investments as of December 31, 2013 and 2012, which exceeded 5% of net assets available for benefits was derived from information prepared by the Trustee of the Plan and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustee that such information is complete and accurate (see Note 5).

	December 31,	
	2013	2012
T. Rowe Price Retirement 2020 Fund	$ 2,229,092	$ 1,996,214
T. Rowe Price Retirement 2030 Fund	5,565,669	4,355,930
T. Rowe Price Retirement 2040 Fund	2,493,002	2,001,495
Invesco Stable Value Fund	NA	1,074,696

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value, as determined by quoted market prices, as follows:

	Net Appreciation in Fair Value of Investments
Mutual funds	$ 2,424,946
Common collective trusts	281,715
	$ 2,706,661

Note 5 – Information Certified by the Trustee

The plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012;
- The fair value of the Plan's investments as of December 31, 2013 and 2012, included in Note 3;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013;
- Investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012, as reflected in Note 4; and

Note 5 – Information Certified by the Trustee (continued)

- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013, except for participant loans receivable of $988,797.

Note 6 – Income Tax Status

The Internal Revenue Service issued a determination letter dated March 31, 2008, stating that the prototype plan adopted by the Plan was designed in accordance with the applicable IRC requirements as of that date. Although the Plan has been amended since the date of the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes is reflected in the accompanying financial statements. Continued qualification is dependent on the Plan's future operations.

In accordance with U.S. GAAP, the plan administrator is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain income tax position that is more-likely-than not to be sustained upon audit by the Internal Revenue Service ("IRS"). An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require the recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by the IRS, however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 – Related Party Transactions

Certain Plan investments are funds held in common collective trusts in which the Trustee manages the investments. Also, the Plan's assets include loans with Plan participants, which totaled $988,797 and $918,949 as of December 31, 2013 and 2012, respectively. The Trustee, Company, and Plan participants are considered parties-in-interest under ERISA. However, all of these transactions are considered exempt party-in-interest transactions under ERISA.

Note 8 – Risks and Uncertainties

The Plan provides for various investment options in any combination of mutual funds and common collective trusts. Such investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Plan Termination

Although the Company has not expressed any such intention, the Plan may be discontinued at any time by the Company. In the event of termination, participants' rights to Company contributions become fully vested and the net assets of the Plan would continue to be held for normal withdrawal by participants assuming the Company's operations continue, or would be distributed to participants immediately if the Company's operations cease.

Note 10 – Subsequent Events

Plan management has evaluated and determined that no events have occurred subsequent to December 31, 2013, the date of the accompanying net assets available for benefits, through October 3, 2014, the date of issuance of these financial statements, which would require recording or disclosure in its financial statements.
