Independent Auditor's Report

To the Trustees
Electric Supply Employee Stock Ownership Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of Electric Supply Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion in the financial statements as a whole. The supplemental schedules of Assets (Held at End of Year) and Reportable Transactions, together referred to as "supplemental information" are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**ELECTRIC SUPPLY
EMPLOYEE STOCK OWNERSHIP PLAN**

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Electric Supply Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Adoption Agreement for a more complete description of the Plan's provisions.

(a) General

Electric Supply Company of Tampa, Inc. (Company) established the Electric Supply Employee Stock Ownership Plan (Plan) effective January 1, 2011. The Plan is designed and intended to qualify as an Employee Stock Ownership Plan as defined in Section 4975(e)(7) of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). In addition, in accordance with Section 54.4975-11(a)(5) of the Treasury Regulations, this plan also forms a portion of a plan which is a stock bonus plan, which is intended to qualify under Section 401(a) of the Code. This Plan reflects the applicable provisions of the Economic Growth and Tax Reconciliation Act of 2001 (EGTRRA), the applicable provisions of the Pension Protection Act of 2006 (PPA 06'), as well as the applicable provisions of the final regulations under Code Section 415 (the Final § 415 Regulations) and the applicable provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART 08).

(b) Administration of Plan Assets

The Plan's assets, which consist primarily of Company common shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and distribution income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

(c) Eligibility

Employees are eligible to participate in the Plan after reaching the entry date (January 1 or July 1) coinciding with or next following the date on which the employee has completed one year of service, with at least 1,000 hours of service.

(d) Payment of Benefits

Distributions on account of death, disability, or retirement with an account balance exceeding \$5,000 are made in equal annual installments over a five year period. The distribution period may be increased an additional year, up to 5 years, for each \$195,000 by which the total balance of the participant's account exceeds \$985,000. In the event of separation of employment due to death, disability or normal retirement age, and the account balance is less than \$5,000, one lump sum distribution shall be made. In the event of separation of employment due to termination, and the account balance is greater than \$5,000, distribution shall occur once the participant incurs a four year break in service. Distribution will be made in equal annual installments over a five year period, with the same additional clauses for other distributions for participants with a balance greater than \$5,000. In the event of separation of employment due to termination and the account balance is less than \$5,000, the distribution shall be made in a lump sum as soon as possible after the close of the plan year in which termination occurs. Distributions are made in cash, or if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

(e) Voting Rights

All Company Stock held by the Plan shall be voted for by the trustee in accordance with instructions from the Plan Committee. Each participant shall be entitled to direct the voting of any voting shares of Company stock allocated to his/her account with respect to voting required for a corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the Company's assets, or other similar transactions.

(f) Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the Code. Upon termination of the Plan, the Plan Committee is to direct the trustee to pay all liabilities and expenses of the Plan.

(g) Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Company contributions are allocated to participant accounts based on a participant's eligible compensation, relative to total eligible compensation for the plan year.

(h) Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company, as follows:

<u>Years of Service</u>	<u>Percentage of Accounts Vested</u>
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years	100%

(i) Put Options

Under Federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

(j) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account within ninety days after the close of each plan year. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

(k) Forfeitures

Forfeitures are allocated to participant accounts based upon a participant's eligible compensation, relative to total eligible compensation for the plan year. There was approximately \$5,700 in forfeitures during the year ended December 31, 2013.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

The most significant estimate impacting the Plan's financial statements relates to the estimated fair market value of its investment in Company common stock.

(c) Operating Expenses

Normal brokerage charges, which are included in the cost of securities purchases (or charged to proceeds in the case of sales), shall be paid by the Plan. The Plan shall pay all costs of administering the Plan, unless such expenses are paid by the Company. For the year ended December 31, 2013, all expenses were paid by the Company.

(d) Investment Valuation and Income Recognition

Shares of Company common stock are valued at estimated fair value. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Distributions are recorded as declared by the Company. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(e) Payment of Benefits

Benefits are recorded when paid.

(3) Investments at Fair Value

The Plan's investments at December 31, 2013 and 2012 are presented in the following table:

	2013		2012	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>

(4) Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Company Stock: valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities.

The method described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

EMPLOYEE STOCK OWNERSHIP PLAN**

(4) Fair Value Measurements - Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Investments at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	-	805,880	805,880

Investments at Fair Value as of December 31, 2012				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	-	523,314	523,314

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Company common stock, beginning of year	\$ 523,314
Shares acquired	212,528
Net appreciation in fair value of investment	82,603
Benefits paid	(12,565)
Company common stock, end of year	\$ 805,880

(5) Party-in-Interest Transactions

Plan investments are shares of common stock of the Company. The Company is the plan sponsor as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

**ELECTRIC SUPPLY
EMPLOYEE STOCK OWNERSHIP PLAN**

Notes to Financial Statements - Continued

(6) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 3, 2014, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's 2013, 2012 and 2011 tax returns remain open to examination.

(7) Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

(8) Subsequent Events

The Plan has evaluated subsequent events through September 25, 2014, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
