Gaylord Hospital, Inc. 401(k) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 1 - Description of the Plan

General - The Gaylord Hospital, Inc. 401(k) Plan (the Plan) is a defined contribution plan that was established on January 1, 2005 and covers all salaried and hourly employees of the Gaylord Hospital, Inc. (the Hospital). Employees are eligible to participate in the Plan on their hire date. The following is a brief description of the Plan. Participants should refer to the plan documents and the Summary Plan Description for more information.

Contributions - Each year, participants may elect to contribute up to 100% of their compensation as pre-tax deferrals. Newly eligible participants will be automatically enrolled in the Plan with a pre-tax deferral rate of 2%, unless otherwise elected by the participant. Elective deferrals may not exceed the established Internal Revenue Code (IRC) limitations. The elective deferral limit for 2013 and 2012 is \$17,500 and \$17,000, respectively. Participants that are age 50 or older are allowed to defer additional amounts, called catch-up contributions, up to the limits established by the IRC of \$5,500 for both 2013 and 2012. Participants may also contribute amounts representing distributions from other qualified plans.

The Hospital may make a discretionary matching contribution to the Plan. In order to receive a discretionary matching contribution, participants must have completed at least one year of service. For the years ended December 31, 2013 and 2012, the discretionary match was 50% of each participant's contribution, up to 2% of their annual compensation, amounting to \$233,806 and \$199,674, respectively.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a general account and a guaranteed pooled separate account for participants.

Participant Accounts - Each participant's account is credited with the participant's and the Hospital's contributions and an allocation of investment earnings and administrative fees. Allocations are based on participant account balances. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their elective deferral and rollover contributions plus actual earnings thereon. Vesting in contributions made by the Hospital, plus earnings thereon, is based on years of continuous service. A participant is 100% vested in the employer's matching contributions after three years of credited service. Prior to 2010, the Hospital made certain non-matching contributions. A participant is 100% vested in these non-matching contributions after five years of credited service. In the event of a participant's death or total permanent disability, all amounts credited to such participant's account become fully vested.

Benefit Payments and Withdrawals - Upon retirement, death, disability or termination of service, participants may elect to receive benefit payments. Participants can request distributions of vested account balances in the form of lump sum, installment or annuity payments as defined within the Plan.

A participant may request an in-service distribution upon reaching age 59.5. Additionally a participant may request an in-service distribution on account of a financial hardship, which includes certain medical expenses, purchase of a principal residence, payment of tuition and prevention of eviction from principal residence.

Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 1 - Description of the Plan (continued)

Notes Receivable from Participants - Participants may borrow from their participant account a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Loan transactions are treated as a transfer from the investment funds to a loan fund. Loan terms range from one to five years, up to fifteen years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. As of December 31, 2013, there were ninety-three outstanding loans with interest rates ranging from 3.29% to 4.25%. As of December 31, 2012, there were ninety-two outstanding loans, with interest rates ranging from 3.29% to 7.21%.

Forfeitures - If a participant terminates employment with the Hospital, the portion of the Hospital's contributions and interest thereon that were not vested are forfeited. Forfeitures can be used to reduce future matching contributions made by the Hospital or to pay administrative expenses. The forfeited non-vested accounts totaled \$5,472 and \$1,526 as of December 31, 2013 and 2012, respectively. During the years ended December 31, 2013 and 2012, forfeited non-vested amounts totaling \$1,698 and \$0 were used to pay administrative expenses.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

As described in FASB ASC 946-210, "*Financial Services - Investment Company*", investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by FASB ASC 946-210, the statements of net assets available for plan benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for plan benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are valued at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies, utilizing information provided by State Street Bank and Trust Company (SSBT) and Transamerica Financial Life Insurance Company Inc. (TFLIC), the Trustees of the Plan. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits - Benefits to participants are recorded when paid.

Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by the Hospital. However, certain fees are charged to the participants by the Trustees in connection with investment and certain participant directed transactions.

Reclassifications - Certain 2012 amounts have been reclassified to conform with the 2013 financial statement presentation. Such reclassifications did not have a material effect on the financial statements.

Subsequent Events - Subsequent events were evaluated through September 25, 2014, which is the date the financial statements were available to be issued. Management believes there are no subsequent events, which would have a material impact on the financial statements.

Note 3 - Summary of Financial Data Certified by the Trustees (Unaudited)

Information presented in the accompanying statements and schedule as of and for the years ended December 31, 2013 and 2012, for investments, notes receivable from participants, investment income and interest income on notes receivable from participants was derived, without audit, from information certified to be complete and accurate by SSBT and TFLIC, the Trustees, as permitted by the election made by the Plan Administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA).

Note 4 - Investments

The Plan's investments, relating to its mutual funds, (including investments bought, sold, as well as held during the period) appreciated in value for the years ended December 31, 2013 and 2012 by \$2,351,837 and \$1,109,631, respectively.

Individual investments that represent five percent or more of net assets are as follows, as of December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
TFLIC Guaranteed Pooled Fund	\$ 3,811,651	\$ 4,066,301

Note 5 - Fair Value Measurements

FASB ASC 820, “*Fair Value Measurements and Disclosures*”, provides a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has specified (contractual) terms, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable.

The following is a description of the valuation methodologies used for assets measured at fair value.

General Account: Valued at the fair value of the assets and liabilities held in TFLIC’s general account.

Guaranteed Pooled Separate Account: Valued at the Net Asset Value (NAV) of units of a guaranteed pooled separate account held by TFLIC. The NAV, as provided by TFLIC, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the guaranteed pooled separate account, the investment adviser reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

Gaylord Hospital, Inc. 401(k) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 5 - Fair Value Measurements (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

2013	Level 1	Level 2	Level 3	Total
Mutual funds:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for plan benefits. For the years ended December 31, 2013 and 2012, there were no transfers in or out of Levels 2 or 3.

Note 6 - Investment in Guaranteed Pooled Separate Account

The Plan entered into a fully benefit-responsive investment contract in the guaranteed pooled separate account with TFLIC. The portfolio is maintained separately from TFLIC's general assets.

As described in Note 2, because the guaranteed pooled separate account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by TFLIC, represents the accumulation of contributions, plus interest, less funds used to pay benefits and expenses.

Participants can withdraw their balances at contract value without restriction or charge on account of any of the following events: death, disability, retirement, terminations of employment, hardship, loans, attainment of age 59 ½, or the purchase of an annuity from TFLIC. Participants may also transfer their funds out of this investment subject to a ninety day equity wash. However, other withdrawals and withdrawals due to employer initiated events that exceed a certain percentage may be subject to restriction and / or a 5% withdrawal charge.

Note 6 - Investment in Guaranteed Pooled Separate Account (continued)

The repayment of principal and interest credited to participants is a financial obligation of TFLIC. Guarantees are based on the claims-paying ability of the issuer. As of December 31, 2013 and 2012, there are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the guaranteed pooled separate account as of December 31, 2013 and 2012 was \$3,786,283 and \$3,921,216, respectively. The fair value as of December 31, 2013 and 2012 was \$3,811,651 and \$4,066,301, respectively.

The contract contains a minimum guaranteed interest rate. At the beginning of each calendar year, TFLIC determines the declared interest rate which will be credited to all monies invested in the guaranteed pooled separate account during such calendar year. In no event will the declared rate of interest be less than the contracts minimum guaranteed interest rates. As of December 31, 2013 and 2012, the declared interest rate is 1.14% and 1.20%, respectively. The yield earned as of December 31, 2013 and 2012 is 1.87% and 1.21%, respectively.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right to terminate the Plan, in whole or in part, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Plan has adopted a prototype plan that received a favorable opinion letter from the Internal Revenue Service (IRS) that it was in compliance with the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 - Party-in-Interest Transactions

SSBT and TFLIC are parties-in interest as defined by ERISA as a result of being Trustees of the Plan. As of December 31, 2013 and 2012, all Plan assets are managed by the Trustees and therefore transactions involving these instruments are considered party-in interest transactions. During the years ended December 31, 2013 and 2012, \$104,570 and \$74,667, respectively, of administrative expenses was paid to the Trustees.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Note 11 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for plan benefits per the financial statements to Schedule H of the Form 5500 at December 31, 2013:

Net assets available for plan benefits per the financial statements	\$ 18,120,264
Adjustment from contract value to fair value for fully benefit responsive investment contracts	<u>25,368</u>
Net assets available for plan benefits per Form 5500	<u><u>\$ 18,145,632</u></u>
