VAN WERT COUNTY HOSPITAL TAX DEFERRED 403(B) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

General

The Van Wert County Hospital Tax Deferred 403(b) Plan (the Plan), is a defined contribution plan covering eligible employees of The Van Wert County Hospital Association (the Hospital). Employees are eligible to participate in the Plan following 975 hours of employment and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants should refer to the Plan Document for more complete information regarding the provisions of the Plan, a copy of which is available from the Hospital.

Contributions

Participants may make contributions to the Plan, subject to certain limitations. The Hospital makes a matching contribution of 25% of the first 1% contributed by the participants.

Vesting

Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Hospital contributions portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is vested at 20% after two years of credited service, 40% after three years of credited service, 60% after four years of credited service, 80% after five years of credited service, and 100% after six years of credited service. A participant or his or her beneficiary is immediately vested in his or her account upon death, retirement or termination of employment due to total permanent disability. Forfeitures of account balances by participants not fully vested are applied against Hospital contributions.

Participant Accounts

Participants direct the investment of their accounts among the investment funds offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Benefit Payments

On termination, a participant will receive a lump sum amount or joint and survivor annuity, equal to the value of the participant's vested interest in his or her account.

**VAN WERT COUNTY HOSPITAL
TAX DEFERRED 403(B) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Participant Loans

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Loan terms range from 1 to 5 years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Interest is calculated at a rate commensurate with loans from the trustee/recordkeeper and at local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Forfeitures

Forfeitures represent the non-vested portion of Hospital contributions plus earnings thereon related to terminated participants. At December 31, 2013 and 2012, there were no forfeited non-vested accounts available to reduce future employer contributions. During 2013, there were no forfeitures used to reduce employer contributions to the Plan.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment for the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. No adjustment is necessary to adjust the contract from contract value to fair value as fair value approximates contract value as reported by the custodians.

TAX DEFERRED 403(B) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and schedule. Actual results could differ from those estimates.

Valuation of Assets

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of assets includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Expenses of maintaining the Plan may be paid by the Hospital or the Plan at the Hospital's discretion.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated events or transactions occurring subsequent to the statement of net assets available for benefits date for recognition and disclosure in the accompanying financial statements through the date the financial statements are available to be issued which is September 30, 2014.

3. FAIR VALUE MEASUREMENTS

The frame work for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there was one transfer into Level 3. There were no such transfers for the year ended December 31, 2012. Transfers into Level 3 from Level 2 were made due to the absence of observable market data. No other transfers between Levels occurred in 2013 and 2012.

VAN WERT COUNTY HOSPITAL TAX DEFERRED 403(B) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2013 and 2012:

Insurance contracts: Guaranteed investment contracts are value at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Board of Directors evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Pooled separate accounts (mutual funds): Values are based on net asset values ("NAV") of shares based on quoted market prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Assets at Fair Value as of December 31, 2013

The fair value of the Guaranteed Investment Contract is based on significant unobservable inputs, including the credit worthiness of the issuer, Massachusetts Mutual Life Insurance Company and the terms of the investment contract. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

Insurance Contracts

In 1983, the Plan entered into a benefit-responsive investment contract with Hartford Life Insurance Company, acquired by Massachusetts Mutual Life Insurance Company (MassMutual) in 2013. MassMutual maintains the investments in the general account. This account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value which is equal to fair market value as reported to the Plan by MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**VAN WERT COUNTY HOSPITAL
TAX DEFERRED 403(B) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

The MassMutual general account is a fixed income account that provides a guaranteed rate of return for a certain period of time. All amounts in the general account are credited with the current interest rate in effect at the time. The average yield and crediting interest rate in effect at December 31, 2013 and 2012 was 4.00%.

Crediting interest rates are determined by dividing earned income for the day by the new contract value. On December 31, 2013 and 2012, fair value approximates contract value and there are no valuation reserves.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. INVESTMENTS

Plan investments consist of pooled separate accounts and a general account, maintained by MassMutual and American United Life Insurance Company (AUL). The pooled separate accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals. All investment information included in the accompanying financial statements and supplemental schedule, including investments, net appreciation in fair value of investments and interest and dividend income were obtained or derived from information supplied by MassMutual and AUL. The Plan administrator has obtained a certification from MassMutual and AUL that the information provided to the Plan administrator by MassMutual and AUL as of and for the fiscal years ended December 31, 2013 and 2012, is complete and accurate.

Investments that represent 5% or more of the Plan's net assets are as follows:

	2013	2012
Investments in MassMutual pooled separate accounts:		
General account	\$ 1,837,305	\$ 1,838,978

**VAN WERT COUNTY HOSPITAL
TAX DEFERRED 403(B) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their account balances.

6. INCOME TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedures 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan is subject to routine audits by taxing jurisdictions. However, as of the date the financial statements were available to be issued, there were no audits for any tax periods in progress. Management believes it is no longer subject to income tax examinations for years prior to 2010.

7. RISK AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. TRANSACTIONS WITH PARTIES-IN-INTEREST

All Plan investments are maintained by MassMutual and AUL, trustees of the Plan and parties-in-interest. Certain administrative expenses, including costs to prepare the annual IRS Form 5500 and the audit of the annual financial statements, are paid by the Hospital. Blue & Co., LLC is the Plan auditor.
