Note 1 – Description of the Plan

The following description of the TYMCO, Inc. Employees Profit Sharing Plan and Trust provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan. The profit sharing portion of the Plan covers all full-time employees of the Company who have one year of service and are age eighteen (18) or older. Participation in the 401(k) portion of the Plan requires the full-time employee to complete three (3) months service and attain 18 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions – Participants may elect a salary reduction arrangement to contribute to the Plan, not to exceed a specific dollar amount determined by the Internal Revenue Service, known as eligible contributions. Participants age 50 or over by the end of the plan year are allowed to make additional contributions (called "catch-up contributions") to the Plan, in excess of the standard limits. Such additional contributions are limited to the lesser of a specific dollar amount determined by the Internal Revenue Service or the participant's compensation for the year reduced by the participant's other elective deferrals.

Participants may also contribute distributions from other qualified defined benefit or contribution plans.

Employer Contributions – For each Plan year, the employer may contribute to the Plan an amount of matching contributions determined by the employer at its discretion. The employer will allocate the matching contribution on the basis of the participant's eligible contributions, not to exceed 10% of annual compensation paid.

The employer may also make a non-elective contribution of an additional amount determined in its sole judgment. This additional contribution, if any, will be allocated to only non-highly compensated participants, in proportion to each eligible employee's compensation as a ratio of all eligible employees' compensation. These contributions will be non-forfeitable and subject to withdrawal restrictions.

The employer may also contribute an additional discretionary amount determined in its sole judgment. Such additional contribution, if any, shall be allocated to each participant in proportion to his or her compensation for the Plan year earned while a participant. A participant will also receive an allocation with respect to his or her compensation in excess of the taxable wage base.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of the Plan (continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment Options – Upon enrollment in the Plan, a participant may direct employee contributions in any of fifteen investment options.

3) Wells Fargo Adv Core Bond (I) Fund

Participant Notes Receivable – Participant loans are permitted under the Plan. The maximum loan amount available is fifty percent of the participant's vested account balance, but not more than $50,000. Additional restrictions apply if participants have additional loans from this or other plans. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Note 1 – Description of the Plan (continued)

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments, or a combination of both. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – The Plan allocates participant forfeitures as if the forfeitures were additional employer non-elective contributions for the Plan year in which the forfeitures occur. There were $534 in forfeitures for the year ended December 31, 2013.

Expenses – Plan administrative expenses for 2013 were paid by the employer, except for loan fees paid by participants in the amount of $1,875.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – Assets and liabilities are recorded and revenues and expenses are recognized on the cash basis, modified for investments which are maintained at market value. Consequently, certain revenues are recognized when received rather than when earned and certain expenses are recognized when paid rather than when the obligation is incurred.

Plan Administration – The Company is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

Estimates – The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan had $622,382 in participant loans receivable at year ended December 31, 2013.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of registered mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant notes receivable are valued at cost which approximates fair value. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date.

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits – Benefits are recorded when paid.

Date of Management's Review – Subsequent events have been evaluated as of September 30, 2014, which is the date the financial statements were available to be issued.

Note 3 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4 – Tax Status

On December 19, 2002, TYMCO, Inc. adopted the prototype plan sponsored by Wells Fargo Bank, N.A. In an opinion letter dated August 30, 2001, the Internal Revenue Service determined the Plan to be acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The Plan has been amended and restated to comply with legislative actions since adopting the prototype. However, the Plan administrator believes that the plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7- Fair Value Measurements

Investment Valuation- The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1- Quoted market prices in active markets for identical assets or liabilities
Level 2- Observable market-based inputs or unobservable inputs corroborated by market data
Level 3- Unobservable inputs reflecting the reporting entity's own assumptions

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques followed need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Note 7- Fair Value Measurements (continued)

Pooled, common and collective funds: Shares of common and collective trust funds are valued at quoted prices for similar assets in active markets.

Mutual funds: Valued at the published net asset value per share as of the reporting date

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair values of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Pooled , Common and Collective Funds	$ 4,958,226	$ -	$ 4,958,226

Total Investments at Fair Value	$ 29,722,440	$ 24,764,214	$ 4,958,226

Note 7- Fair Value Measurements (continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)

Total Investments at Fair Value	$ 24,922,493	$ 20,121,418	$ 4,801,075

Note 8 – Benefit Obligations

Net assets available for benefits at December 31, 2013 and 2012 include $152,378 and $173,202, respectively, allocated to the accounts of persons who as of, or prior to, that date had withdrawn from participating in the operations of the Plan. The affected participants have elected to defer distribution as allowed by the Plan.

Note 9 – Subsequent Events

In January 2014 the Company contributed $430,500 to the Plan.

In February 2014 the Plan refunded $9,941 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Note 10 –Party-in-Interest Transactions

Certain plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party in-interest transactions which are exempt from the prohibited transaction rules. Loans receivable from plan participants and the related interest income are also considered party-in-interest transactions.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
