Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2013 and 2012, and for the years then

ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

First segment rate	4.94%	1.75%
Second segment rate	6.15%	4.62%
Third segment rate	6.76%	5.72%
Effective interest rate	6.26%	4.85%

Assumed cost of living adjustments

None

Inclusion date

The January 1 or July 1 coincident with or next following the date on which the employee completes 1,000 Hours of Service in the one-year period starting from date of hire or any plan year after.

Administrative expenses

The amount included this year for administrative expenses is \$110,000. Expenses include PBGC flat and variable rate premiums.

Mortality

For all participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Age	Percentage retiring during the year
55	3.25
56	3.25
57	3.25
58	3.25
59	3.25
60	3.25
61	5.00
62	15.00
63	15.00
64	15.00
65	50.00
66	40.00
67	40.00
68	100.00

The weighted average retirement age is 64.22, determined by weighting each potential retirement age by the number of current active employees expected to retire at such age, as determined by the above retirement rates.

Participants with deferred benefits are assumed to retire at age 62.

Disability Rates (per 100 employees)

None.

Compensation Increases

No further increases are assumed after January 1, 2010 due to the plan freeze at that date.

Future Increases in Social Security

Not applicable.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Representative Termination Rates (per 100 employees) not Due to Disability, Retirement or Mortality

Attained Age	Percentage leaving during the year
20	5.44
25	5.29
30	5.07
35	4.70
40	3.50
45	1.80
50	0.41

Form of Payment

Participants are assumed to elect the normal form of payment.

At-Risk Form of Payment

The at-risk assumption for assumed form of payment is the same as the not-at-risk assumptions, since that meets the at-risk requirement.

The assumed form of payment for a married participant is the 50% Joint and Survivor Annuity. Single participants are assumed to elect the Life Only Annuity.

Marriage

80% of males and 70% of females are married. The male spouse is assumed 3 years older than the female spouse.

Employees

It was assumed there will be no new or rehired employees.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 7.25%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.25%, and the applicable limitation for the plan year, equal to 7.52%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.57%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.25%, and the applicable limitation for the plan year, equal to 6.57%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Participant data was supplied electronically by Masco Corporation as of the valuation date.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2013 is used to determine the maximum deductible contribution for the tax year ending December 31, 2013.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Plan

Arrow Fastener Co., Inc. Employees' Pension Trust

Effective Date and Most Recent Amendment

The plan was originally effective October 1, 1981. The last amendment was effective January 1, 2010.

Plan Year

The twelve-month period ending December 31, 2013.

Coverage and Participation

Participation in the plan commences on the January 1 or July 1 on which the employee completes 1,000 Hours of Service in the one-year period starting from date of hire or any plan year after.

No participants will be able to enter than plan after January 1, 2010.

Credited Service

A participant earns one year of Credited Service for each Plan year in which at least 1,000 Hours of Service is completed. There is no credit for fractional years of service except for the short plan year (October 1, 2007 – December 31, 2007) where 0.25 years of Credited service was credited if at least 250 hours of service was completed.

Credited Service will be frozen as of the date of the plan freeze at January 1, 2010. No additional Credit Service will be accrued after this date.

Vesting Service

An employee earns one year of Vesting Service for each calendar year of 1,000 or more Hours of Service. There is no credit for fractional years of service.

Vesting Service will continue to accrue after the plan freeze at January 1, 2010.

Final Average Compensation/Salary

This term refers to the Employee's total compensation for 3 consecutive calendar years during which the employee received the greatest amount of compensation divided by 3. Compensation is total pay received in a calendar year, including bonuses.

Final Average Compensation/Salary will be frozen as of January 1, 2010.

Normal Retirement Benefit

Normal Retirement Date: Age 65

Benefit Formula: The monthly benefit is equal to the following, payable one-twelfth monthly:

1. Accrued benefit as of September 30, 2004

Plus

2. 1.2% of Final Average Compensation times Years of Credited Service completed after September 30, 2004.

The normal retirement benefit is equal to the greater of the benefit amount calculated above and a minimum benefit of \$20 per month.

Normal Form of Benefit: Single life annuity payable monthly.

Late Retirement Benefit

Participants who remain in active service past Normal Retirement Date are entitled to benefit accrual through termination of service (or January 1, 2010, if earlier). Additionally, the benefit amount will be actuarially increased to reflect the shorter payment period.

Disability Benefit

Eligibility: A participant who becomes permanently disabled will become fully vested in their accrued benefit. The disability benefit will be paid out at normal retirement date.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Arrow Fastener Company, Inc. ("Company") Employees' Pension Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

2. *Pension Benefits.* Generally, employees with six or more years of service at the time the Plan was frozen or who have attained normal retirement age (65) are fully vested in a pension benefit beginning at normal retirement date. This benefit is equal to the participant's years of credited service multiplied by the benefit level at termination. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity or period certain annuity. If employees terminate before becoming fully vested (vesting begins after two years of credited service in 20% increments for every year thereon), they forfeit their right to receive their nonvested accumulated plan benefits.

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is to be paid to the employee's beneficiary. This survivor annuity is payable on the earliest date on which the participant could have elected to receive retirement benefits if the participant had survived. Active employees who become totally and permanently disabled become fully vested for disability benefits that are equal to their normal retirement benefit accumulated as of the date they become disabled.

4. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code ("IRC"). The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's contributions for 2013 and 2012 met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

B. Summary of Significant Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan's invested assets consist of a short-term cash investment fund and a corporate bond mutual fund. Investment securities are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The investment in a mutual fund is presented at fair value as determined by the Plan trustee, The Northern Trust Company, at December 31, 2013 and 2012. The common collective trust fund is stated at net asset value at December 31, 2013 and 2012.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are based on average cost.

B. Summary of Significant Accounting Policies, concluded:

The Plan presents in the statements of changes in net assets available for benefits, the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation of the investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Certain administrative expenses incurred by the Plan are paid by the Plan. Other Plan expenses are paid by the Company.

Subsequent Event

Effective January 1, 2014, the Plan assets of Arrow Fastener Company, Inc. merged into the Masco Corporation Master Trust.

The Company has evaluated subsequent events through September 19, 2014, the date the Arrow Fastener Company Employees' Pension Trust financial statements were available to be issued.

C. Investments:

The following investments represent five percent or more of the Plan's net assets at:

	<u>December 31,</u> <u>2013</u>	<u>December 31,</u> <u>2012</u>

D. Fair Value Measurements:

On January 1, 2008, the Plan adopted accounting guidance regarding fair value for its financial assets and liabilities. Accounting guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Accounting guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Accounting guidance further defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

The Trust has a target asset allocation of the investment portfolio that was developed with the objective of achieving an expected rate of return and reducing the volatility of asset returns. Our investments seek to minimize the volatility of the value of the Plan assets relative to pension liabilities and ensure Plan assets are sufficient to pay Plan benefits. We use a portfolio mix of equity investments and fixed-income securities to obtain these objectives. Equity securities are invested in individual securities or funds that are expected to mirror broad market returns for equity securities. Over time, these equity investments are expected to earn higher returns with more volatility than fixed-income investments. Risks in these investments are broadly diversified by geography, market capitalization, manager mandate size, investment style and process. To minimize asset volatility relative to liabilities, a portion of Plan assets are allocated to fixed-income investments that are exposed to interest rate risk. Rate increases and decreases generally will result in a corresponding increase or decrease in fixed-income assets, with offsetting increases or decreases in the present value of liabilities. The fixed-income portfolio invests in corporate bonds, bond index funds or U.S. Treasury securities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Fund and Collective Trust Fund: Valued on a unit value basis, which approximates fair value as of December 31, 2013 and 2012, respectively. Such basis is determined by reference to the respective fund's underlying assets, which are primarily marketable equity and fixed income securities. There are no unfunded commitments or other restrictions associated with these funds.

D. Fair Value Measurements, concluded:

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Mutual fund	\$ --	\$ 5,093,400	\$ --	\$ 5,093,400
Collective trust fund	--	1,600	--	1,600
Total assets at fair Value	\$ --	\$ 5,095,000	\$ --	\$ 5,095,000
Assets at Fair Value as of December 31, 2012				
	Level 1	Level 2	Level 3	Total
Mutual fund	\$ --	\$ 5,341,900	\$ --	\$ 5,341,900
Collective trust fund	--	4,400	--	4,400
Total assets at fair Value	\$ --	\$ 5,346,300	\$ --	\$ 5,346,300

E. Plan Termination:

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. To the extent unfunded vested benefits exist, such benefits will be paid by the Pension Benefit Guaranty Corporation, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

F. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited years of service. The accumulated benefits for active employees are based on their accumulated credited years of service. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee credited service pursuant to plan provisions. The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2012 were (a) life expectancy of participants (the prescribed mortality assumption using the prescribed mortality assumptions under the Internal Revenue Code static tables with separate rates for annuitants and non-annuitants was used), (b) retirement age assumptions (the average retirement age was 64.0), (c) investment return (the valuation included an assumed rate of return of 7.25 percent for 2012) and (d) withdrawal assumptions. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2013. Had the valuations been performed as of December 31, there would be no material differences.

G. Income Tax Status:

The Internal Revenue Service ("IRS") determined and informed the Company by letter dated June 20, 2011 that the Plan and the related trust are designed in accordance with applicable sections of the IRC. The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

H. Related Parties:

Certain Plan investments are managed by the Plan's Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions.

I. Summary of Financial Data Provided by the Trustee:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee as complete and accurate and was not subjected to any auditing procedures performed by the independent auditors.
