NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1 – DESCRIPTION OF PLAN

GENERAL

The Sun Well Service, Inc. 401(k) Profit Sharing Plan (the “Plan”) is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan was established on October 1, 2012. The Plan is sponsored by Sun Well Service, Inc. (the “Company” or “Plan Sponsor”). State Street Bank and Trust Company is the Trustee (the “Trustee”) of the Plan, and Automatic Data Processing, Inc. Retirement Services is the record-keeper for the Plan. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

ELIGIBILITY AND PARTICIPANT ACCOUNTS

Employees become eligible for participation at the age of twenty on the first day of the month following one month of consecutive employment, as defined by the Plan document. Subject to certain limitations on annual additions, each participant’s account is credited with employee elective deferrals, Company matching and discretionary profit sharing contributions, and an allocation of Plan earnings and charged with certain administrative expenses.

CONTRIBUTIONS

Each year, a participant may elect to contribute a portion of his or her pretax compensation from 1% to 20%, subject to certain maximum limitations imposed by the Internal Revenue Code (“IRC”) (\$17,500 for 2013). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC (\$5,500 for 2013). Rollover contributions representing distributions from other qualified defined benefit or defined contribution plans are permitted and may be made prior to meeting the eligibility requirements for participation in the Plan.

The Plan requires an employer matching contribution and allows for a discretionary profit sharing contributions in an amount to be determined by the Company. The Company matching contribution is calculated in the amount of 100% of participant elective deferrals up to 3% of a participant’s eligible wages. No discretionary profit sharing contributions were made during the year ended December 31, 2013.

DISTRIBUTIONS TO PARTICIPANTS

Participants may withdraw amounts from their account during the year for reasons of disability, retirement, death, or terminations are entitled to their vested account balance. Participants may also make hardship withdrawals on the balance of their account related to their elective deferral contributions. For vested account balances greater than \$5,000, participants may elect a distribution in the form of a single lump sum payment. Upon termination, vested account balances less than \$5,000 may be distributed to the applicable terminated participant within a reasonable time after terminating employment or rolled over to an individual retirement account selected by the Plan Administrator.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1 – DESCRIPTION OF PLAN

INVESTMENT OPTIONS

The Plan provides for participants to direct both employee and employer contributions into a variety of mutual funds of registered investment companies and common collective trusts in accordance with participant investment elections and the provisions of the Trust agreement. Participants should refer to the Plan website for additional fund information.

VESTING

Participants are immediately vested in elective deferrals, rollover contributions, and qualified non-elective contributions plus actual earnings, thereon. Vesting in the Company's matching and discretionary profit sharing contributions, plus actual earnings thereon, is based on years of continuous service. Participants vest 100% after completing one year of qualified service.

FORFEITURES

Forfeitures of terminated participants' non-vested accounts are first used to pay administrative expenses and remaining amounts will be allocated to participants in the same proportion as the participant's compensation bears to the total compensation of all participants. Participants must be eligible to receive profit sharing contributions to receive the reallocation. These amounts are reported as a component of net assets available for benefits. At December 31, 2013 and 2012, there were forfeitures of \$4,313 and \$908 available, respectively. No forfeitures were used during 2013 to pay administrative expenses or were allocated to participants.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to 50% of their vested account balance, not to exceed \$50,000. The \$50,000 maximum is reduced, however, by the amount of the participant's highest outstanding loan balance for the previous 12 month period. Note terms range from one to five years but may be extended, in the case of a loan to acquire or construct the primary residence of a participant. The notes receivable from participants are secured by the balance in the participant's account and bear interest based on the prime rate published in the *Wall Street Journal* plus 1% on the day the loan is initiated. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. At December 31, 2013, maturity dates on existing notes receivable from participants ranged from May 2014 through September 2043 and had interest rates from 4.25% to 5.5%. At December 31, 2012, maturity dates on existing notes receivable from participants ranged from July 2013 through January 2018 and had interest rates from 4.25% to 5.5%.

ADMINISTRATIVE EXPENSES

Administrative expenses are paid by the Company except for transaction based fees, which are paid for directly by participants.

1 – DESCRIPTION OF PLAN

PLAN TERMINATION

Although the Company expects to continue the Plan, the Company may terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, each of the participants will have a non-forfeitable 100% vested interest in his or her account balance, including all Company contributions, subject to payment of liquidation costs and expenses.

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under accrual basis in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with U.S. GAAP requires the Plan’s management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income earned on participant accounts is allocated on a daily basis using the previous day’s ending account balance. Net appreciation includes realized gain and losses on the investments bought and sold, during the year, as well as, appreciation of the investments held at the end of the year.

Stable value common collective trusts with underlying interests in guaranteed investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to fully benefit responsive stable value common collective trusts with interests in guaranteed investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the stable value common collective trusts, as well as the adjustment from fair value to contract value, if any. The statement of changes in net assets available for benefits is prepared on a contract value basis.

BENEFITS

Benefits are recorded when paid.

SUN WELL SERVICE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest, which approximates fair value. Delinquent notes receivable from participants are reclassified as distributions based upon terms of the Plan document.

3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In establishing a fair value hierarchy for the Plan’s investments in accordance with ASC 820, the following value methodologies were used for each type of investment:

Mutual funds of registered investment companies: Valued at the net asset value (“NAV”) or quoted market prices of shares held by the plan at year end.

SUN WELL SERVICE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

3 – FAIR VALUE MEASUREMENTS

Common collective trust: Valued at the NAV of shares held by the Plan at year end, as determined by the Trustee. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded capital commitments as of December 31, 2013 and 2012.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; even so, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

4 – FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by State Street Bank and Trust Company, the Trustee and party-in-interest as defined by ERISA, as of December 31, 2013 and 2012, and for the year ended December 31, 2013, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule. At December 31, 2013 and 2012, the Plan invests in the Invesco Stable Asset Fund, a stable value common collective trust which is a fully benefit responsive investment. The investment in the stable value fund earns interest at a crediting rate reflected by the amortization of realized and unrealized gains and losses in the underlying portfolio of the fund. From time to time, the crediting rates earned by the Plan for this fund may differ from current market interest rates. Factors that might influence future crediting rates include, but are not limited to, portfolio cash flows and performance, current market interest rates for reinvestment, duration posture, credit downgrades, the unexpected receipt of principal and interest payments and extraordinary withdrawals. At December 31, 2013 and 2012, the Plan Sponsor evaluated the fair market value of the Invesco Stable Asset Fund and determined that contract value approximated fair value. As such, no adjustment from fair value to contract value was recorded in the accompanying financial statements.

At December 31, 2013 and 2012, the average yield earned by the Plan for the Invesco Stable Asset Fund was 1.22% and 1.68%, which approximated the actual interest rate credited to Plan participants invested in this fund.

SUN WELL SERVICE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

5 – INVESTMENTS

In certain circumstances, the amount withdrawn from the Invesco Stable Asset Fund would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, the Company elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

6 – PARTY-IN-INTEREST TRANSACTIONS

The Plan investments include shares of common collective trusts, managed by State Street Bank and Trust Company. State Street Bank and Trust Company acted in capacity as a Trustee to the Plan during the year; therefore, these investments qualify as party-in-interest investments.

7 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds of registered investment companies and common collective trusts. Investment securities are exposed to various risks, such as interest rate, market risk, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8 – TAX STATUS OF THE PLAN

The Plan, developed by Automatic Data Processing, Inc. Retirement Services as a prototype plan, received a favorable opinion letter dated March 31, 2008, from the IRS stating that the plan constitutes a qualified plan under Section 401 of the IRC. The Company believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

9 – EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

The Plan initially failed the discrimination test for the year ended December 31, 2013. As a result, excess contributions payable amounting to \$7,207 are recorded as liabilities in the accompanying statements of net assets available for benefits and as a reduction to contributions in the related statement of changes in net assets available for benefits.

11 – SUBSEQUENT EVENTS

In accordance with FASB ASC 855, “Subsequent Events”, the Company has evaluated events or transactions occurring after December 31, 2013, the Statements of Net Assets Available for Benefits date, through October 2, 2014 the date the financial statements were ready to be issued, and determined there were no events or transactions that would impact our financial statements for the year ended December 31, 2013.
