Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Description of Plan

The following description of OCH International, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan, covering all employees of OCH International, Inc. (the Company) who are 21 or older and have completed six consecutive months of service or 1 year, if earlier. One year of service requires at least 1,000 hours of service within a 12-month period. To receive employer contributions, a participant must be 21 or older and have completed 1 year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each participant may elect to contribute a portion of their compensation to the Plan (up to the maximum allowed under the Internal Revenue Code (the Code), which is \$17,500 for 2013, each year instead of receiving that amount in cash). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 before the beginning of the plan year are eligible to make catch up contributions of \$5,500 in 2013. Participants may also contribute amounts representing distributions from other qualified plans. The amount deferred will not be subject to income tax until it is actually distributed to the participant. The amount deferred is, however, subject to Social Security tax at the time of deferral. The Company may, at its discretion, match a percentage of the participant contributions. Additional amounts may also be contributed at the option of the Company.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contributions (if elected by the Company), and Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Asset management fees are deducted from the earnings of the various funds.

Investment Elections

The participants may choose from several combinations of investments offered by Standard Insurance Company (Standard). The accounts of employees who do not choose among these options are automatically invested in a default investment as outlined in a notice sent directly to participants. Employees have the opportunity to change their investments daily.

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the remainder of their account is based on years of service and occurs gradually. A participant becomes partially vested at the end of 1 year of credited service, with the vested amount increasing gradually until the participant is 100% vested after 5 years of credited service. Participants shall become 100% vested upon attainment of normal retirement age (65 years), death, or permanent disablement.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator, based on similar types of loans by other lenders. Payments on principal and interest are to be made not less frequently than quarterly. In general, loan terms may not exceed five years.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installments over a period of no more than assumed life expectancy, in partial withdrawals of at least \$1,000, or rollover to another account.

Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Description of Plan, continued

Forfeited Accounts

At December 31, 2013, forfeited non-vested accounts totaled \$7,704 (\$17,189 at December 31, 2012). Forfeitures may be used first to pay Plan expenses and then to reduce employer contributions (if any). During 2013, \$11,038 of Plan forfeitures were used to pay Plan expenses.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts which approximate contract value. At December 31, 2012 there was an adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

OCH INTERNATIONAL, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Note 2 - Summary of Accounting Policies, continued

Excess Contributions Payable

Amounts payable to participants for contribution in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment accounts will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent Events

Subsequent events have been evaluated through October 2, 2014, which is the date the financial statements were available to be issued.

Note 3 - Information Certified by the Custodian

The Plan's investments are held by Standard Insurance Company, the Custodian of the Plan. Investment decisions are made at the direction of the participants. The investments are credited for earnings thereon and charged for withdrawals and expenses charged by the Custodian.

The Plan Administrator has obtained a certification from the Custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the following information provided to the Plan Administrator by the Custodian is complete and accurate:

- Investments, at fair value
- Interest and dividends
- Net appreciation in fair value of investments

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

OCH INTERNATIONAL, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Note 4 - Fair Value Measurements, continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts (PSA): PSA's invest in a variety of domestic stock, international stocks, mutual funds, bonds and other securities. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publically quoted prices, the net asset value (NAV) of each separate PSA is not valued using publically quoted prices. PSA's can be redeemed on a daily basis and each PSA has its own investment strategy. Participants should refer to the individual PSA's prospectus for a more complete description of the PSA and its investment strategy.

Group Annuity Contract: For the year ended December 31, 2013 the Group Annuity Contract was valued at contract value which approximated fair value. For the year ended December 31, 2012, there was an adjustment from fair value to contract value. The contract value, impacted by the creditworthiness of the issuer, is valued by discounting the related cash flows based on current yields of similar instruments with comparable durations. (See Note 6).

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Note 6 - Group Annuity Contract with Insurance Company

The Plan has an investment in the Guaranteed Interest Fund, which is a group annuity account managed by Standard. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract.

OCH INTERNATIONAL, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Note 6 - Group Annuity Contract with Insurance Company, continued

Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$314,801 and \$270,816, with an adjustment of - \$26,529 to contract value in 2012. Fair value approximated contract value in 2013. The crediting interest rate is based on a formula agreed upon with the issuer, and may not be less than 3.00%. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Standard. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination), (b) termination of the contract (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Sponsor does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

In September 2013, the Standard was recognized for maintaining an "A" rating or higher from A.M. Best Company.

Average yields for the stable value fund for the years ended December 31:

	2013	2012
Based on actual earnings	3.03%	3.01%
Based on interest rate credited to participants	3.03%	3.00%

Note 7 - Related Party Transactions

Certain Plan investments are shares of investment funds managed by Standard. Standard is the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of Plan investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to Standard of \$3,047 for Plan administration. The Plan also made direct payment to AKT LLP of \$8,750 for the audit of the Plan financial statements.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes to Financial Statements

December 31, 2013 and 2012

Note 9 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan's volume submitter sponsor by an opinion letter dated March 31, 2008, that the Volume Submitter Profit Sharing Plan with CODA sponsored by Sungard Corbel LLC, which was adopted by the Plan, is acceptable pursuant to Section 401 of the Code and in compliance with the applicable requirements of the Code. The Plan has not requested its own determination letter from the IRS. The Plan has been amended since its adoption of the prototype sponsor plan. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are not uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
