REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees
ABB Inc. Pension Plan (UE 625 and 626):

Report on the financial statements

We were engaged to audit the accompanying financial statements of **ABB Inc. Pension Plan (UE 625 and 626)** (the Plan), which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years ended December 31, 2013 and 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of and for the years ended December 31, 2013 and 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental Schedule G, Part III – Schedule of nonexempt transactions for the year ended December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Annual rates of increase

• Compensation	4.75%
• Statutory limits on compensation	2.75%

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee became a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy: For non-disabled participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.
- Disabled: The mortality tables published in IRS Revenue Ruling 96-7 for disabilities occurring before January 1, 1995 and after December 31, 1994.

SCHEDULE SB ATTACHMENTS

Termination

Rates varying by age.

Representative Termination Rates not Due to Disability, Retirement or Mortality

Attained Age	Rate
20	14.7%
30	6.8%
40	2.6%
50	0.0%

Disability

One-half of the disability rates in the twelfth valuation of the Railroad Retirement Board (set forward 1 year for males and set back 4 years for females).

Retirement

Age 62 for terminated vested participants. For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Age	Rate
55	10%
56 - 61	5%
62	20%
63 - 64	5%
65 - 69	50%
70	100%

Form of payment

Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.

SCHEDULE SB ATTACHMENTS

Benefit Commencement Date

• Preretirement death benefit	The later of the date of death of the active participant or the date the participant would have attained age 55.
• Deferred vested benefit	Age 62.
• Disability benefit	Upon disablement.
• Retirement benefit	Upon termination of employment.

Percent married

For purposes of valuing the preretirement surviving spouse's benefit, 85% of eligible participants are assumed to be married.

Spouse age

Wife three years younger than husband.

Covered pay

Compensation assumed paid in the plan year beginning on the valuation date is the actual pensionable pay earned during the prior plan year, adjusted by one full year of salary scale or the base pay rate adjusted by one-half year of salary scale, if greater.

Administrative expenses

The amount included this year for plan-related expenses is $70,000.

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the Plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the Plan. Note, the plan is not at-risk in the current plan year.

Participant data

Employee data was supplied electronically as of the valuation date by Fidelity on behalf of ABB Inc.

Future Increases in Maximum Benefits and Plan Compensation Limits

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

SCHEDULE SB ATTACHMENTS

Tax policy

The actuarial valuation performed for the plan year ending December 31, 2013 is used to determine the maximum deductible contribution for the tax year ending December 31, 2013.

SCHEDULE SB ATTACHMENTS

Methods	
Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2012 plan year.)
Benefits not valued	Generally, benefit changes which are adopted after the first day of the plan year are not recognized for such plan year. To the best of our knowledge, all benefits were included in this valuation.
Change in assumptions and methods since prior valuation	In addition to the prescribed changes in the mortality table, the following change in assumptions and methods was made as part of this valuation: ● The plan's effective interest rate decreased 72 basis points compared to the prior year (6.42% vs. 7.14%), which increased the funding shortfall. ● The assumed plan-related expenses added to the target normal cost were changed from $170,000 for 2012 to $70,000 for 2013. ● Compensation increases were changed from 4.50% to 4.75%

Plan Sponsor

ABB Inc.

Plan

ABB Inc. Pension Plan (UE 625 and 626)

Effective Date and Most Recent Amendment

The plan was adopted on September 15, 1984 and amendments through January 1, 2013 are reflected in the plan provisions.

Plan Year

The twelve-month period ending December 31, 2013.

Coverage and Participation

Any person hired by a participating Company who is covered by a collective bargaining agreement between the Company and the Union and who is employed at the Company's plant at Greensburg, Pennsylvania and who is assigned to the Office and Technical Unit or the SF6 Unit. Any Employee who is hired or rehired by the Company, or who is assigned by the Company to a unit otherwise covered by the Plan, on or after January 1, 2006, will not be eligible to participate in the Plan.

Credited Service

Service used to determine eligibility for early retirement, disability, and minimum normal retirement income.

Vesting Service

Service used to determine eligibility for a benefit upon termination if ineligible for normal or early retirement.

Final Average Compensation/Salary

Compensation as reported on the Federal W-2 form plus elective deferrals.

SCHEDULE SB ATTACHMENTS

Normal Retirement Benefit

A monthly benefit payable upon retirement at age 65 and equal to 2.6% of Earnings for each year of participation service on and after the Original Effective Date (September 15, 1984 for Local 625, January 1, 1985 for Local 626). However, if Local 626 and more than 10 but less than 25 years of credited service, benefits are based on the highest 5 year average of Earnings within the last 10 years prior to retirement. If more than 25 years of credited service, the benefit is based on the larger of career average earnings in the first sentence above and final average earnings in the second sentence above. For all participants, the benefit is subject to a minimum of $180 per year for each year of Credited Service.

Normal Form of Benefit

Single life annuity for unmarried participants. A 50% Joint and Survivor annuity (reduced by approximately 88% if the participant and spouse are the same age and ±0.5% further reduction for each year of age difference) for married participants.

Early Retirement Benefit

A monthly benefit payable upon retirement at age 55 with 5 years of Credited Service, calculated as for normal retirement but based on service to early retirement date. The benefit is payable unreduced as early as age 62 (or for Local 625, if a participant retires with at least 35 years of credited service) or is payable in a reduced amount before age 62. The percentage of the Accrued Benefit payable prior to age 65 is as follows:

Age at Retirement	Local 625 and 626 Reduction Factor
62 - 65	100.0%
61	94.0%
60	87.4%
59	81.3%
58	75.5%
57	69.9%
56	63.5%
55	57.9%

SCHEDULE SB ATTACHMENTS

Special Temporary Early Retirement Supplement

Participants who retire between the ages of 58 and 62 with at least 30 years of credited service are eligible for a special temporary early retirement supplement. This supplement is equal to $460 per month for Local 625 and $525 per month for Local 626, if the participant begins receiving their pension benefit within 24 months of their last day of active employment. The supplement will be paid until the participant becomes eligible for Social Security benefits or reaches age 62, whichever is first. If the participant dies before age 62, the temporary supplement payments stop.

The supplement is reduced if the sum of the participant's monthly pension and the supplement exceeds 70% of the participant's annual pre-retirement pay..

Late Retirement Benefit

The benefit is based on the participant's credited service at their actual retirement date.

Disability Benefit

A monthly benefit equal to the employee's accrued benefit based on years of Credited Service at the date of disablement, payable without reduction after 6 months of total and permanent disability following 5 years of Credited Service. Participants represented by Local 626 must also have age plus Credited Service to 50 or more at the time of disability to be eligible.

Vested Benefits upon Termination of Service

Upon termination after 5 years of Vesting Service, an employee will be entitled to a benefit as described above for service to termination. The benefit is payable at age 65, or payable after age 55 in a reduced amount, provided the employee had completed at least 5 years of Credited Service at the time of termination. The reduction for early retirement is the same as described under Early Retirement Benefits, above.

Death Benefits for Participants in Active Service

In the event of the death of an active employee after the completion of 5 years of Vesting Service, his surviving spouse will be entitled to 50% of the accrued benefit, reduced for the 50% joint and survivor option and early retirement, as of the date of death, payable upon the later of (1) the date of employee's death and (2) the 55th anniversary of the employee's birth (a 55% joint and survivor benefit and commencment at date of death if death occurred after attaining age 50 for Local 626).

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees
ABB Inc. Pension Plan (UE 625 and 626):

Report on the financial statements

We were engaged to audit the accompanying financial statements of **ABB Inc. Pension Plan (UE 625 and 626)** (the Plan), which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years ended December 31, 2013 and 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of and for the years ended December 31, 2013 and 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental Schedule G, Part III – Schedule of nonexempt transactions for the year ended December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of Plan

General

The following brief description of the ABB Inc. Pension Plan (UE 625 and 626) (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information. The Plan was closed to new participants as of January 1, 2006 and participants became fully vested as of that date.

The Plan is a non-contributory defined benefit pension plan covering certain employees of ABB Inc. (the Company or Employer) who are members of a collective bargaining unit represented by Locals 625 and 626 of the Union Employees (UE) (Covered Employees). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

Covered Employees having completed five or more years of vesting service as defined in the Plan are entitled to annual pension benefits beginning at the normal retirement age (65) in an amount equal to the sum of all annual accruals of retirement income determined under the Plan for each year of participation.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Cash

The Plan places cash deposits with federally insured financial institutions; however, at times, deposits have exceeded the amount insured by the Federal Deposit Insurance Corporation.

Payment of Benefits

Benefit payments are recorded when paid to participants. Active participants may elect to defer annuity payments after age 70 ½.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Funding Policy

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the minimum funding requirements of ERISA.

Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year, and (b) an amount necessary to amortize the unfunded accrued liability.

It is the Company's intention to only make contributions that are tax-deductible. For each of the years ended December 31, 2013 and 2012, the Plan has satisfied the minimum funding requirements of ERISA.

Valuation of Investments and Income Recognition

The assets of the Plan are held in the ABB Inc. Master Trust (Master Trust) along with the assets of other plans of the Company. BNY Mellon (the Trustee) is the trustee of the Master Trust.

Income, including realized and unrealized gains/losses of the Master Trust, is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value as reported by the Master Trust's Trustee. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income/loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment related expenses are included in net investment gain of the Master Trust presented in the accompanying statements of changes in net assets available for benefits.

New Accounting Pronouncements

In December 2011, the FASB issued ASU No. 2011-11, *"Balance Sheet (Topic 201): Disclosures about Offsetting Assets and Liabilities" ("ASU 2011-11")*. ASU 2011-11 requires disclosure of information about offsetting and related arrangements to enable users of financial statements to understand the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain financial instruments and derivative instruments. The required disclosures are effective for the Plan for the year ending December 31, 2013. The adoption of this guidance did not have a material impact to the Plan.

Securities Lending

As of December 31, 2013 and 2012, the Master Trust participated in the Trustee's securities lending program for securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund that is managed by BNY Mellon, and the fund consists of high quality short-term investments. The value of loaned securities in the Master Trust amounted to $75,852,269 and $80,029,835 at December 31, 2013 and 2012, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements. Income from securitites lending is included in other investment income in Note 4.

Derivatives

The Plan (through the Master Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a forward currency contract, the Master Trust agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Master Trust's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's net investment gain (loss). These instruments involve market risk, credit risk, or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The values of such derivative contracts are included within the respective investment category in Note 4.

At December 31, 2013 and 2012, the Master Trust had the following foreign currency forward exchange contracts:

The fair value of the foreign currency forward exchange contracts, none of which are accounted for as hedge instruments under FASB ASC 815, Derivatives and Hedging, are included in the Master Trust's net assets under unrealized gain on foreign currency contract.

Realized and unrealized gains and losses were $904,156 and $(2,009,445), respectively, on derivatives contracts entered into during the year ended December 31, 2012 by the Master Trust and realized and unrealized gains were $253,143 and $148,152, respectively, on derivatives contracts entered into during the year ended December 31, 2013 by the Master Trust.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Master Trust fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

Master Netting Agreements

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust's net exposure to derivative assets and liabilities, by financial instrument type, available for offset and net of collateral under a netting agreement at December 31, 2013 and 2012:

Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near-term and that changes could materially affect the amounts reported in the statements of net assets available for benefits.

Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Corrections

In 2014 the Company determined that certain benefit payments were incorrectly made out of the wrong plan (including ABB Cash Balance Pension Plan, The Pension Plan for Hourly Employees of ABB Inc., Kuhlman Electric Corporation Salaried Employees' Pension Plan, Crystal Springs Plant of Kuhlman Electric Corporation Retirement Income Plan, ABB Inc. Fischer & Porter Company Pension Plan and ABB Inc. Pension Plan –UE 625 and 626) and that a correction was made in the 2013 financials to correct for benefits payments of $38,464 for 2007 to 2012 and associated earnings of $3,606 for 2007 to 2012 incorrectly recorded. The total decrease in 2013 related to this matter on the statement of changes in net assets available for benefits (including associated earnings of $1,883.47 related to 2013) was $43,954.

Subsequent Events

Management evaluated subsequent events for the Plan through October 2, 2014, the date the financial statements were available to be issued, and has determined that there are no material subsequent events.

3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2013 and 2012 were determined by the Plan's actuary, Towers Watson & Company, using employee data supplied by the Company as of January 1, 2013 and 2012, respectively, projected to the valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the unit credit method. A summary of the significant actuarial assumptions underlying the actuarial valuations as of December 31, 2013 and 2012 are as follows:

Mortality – 2013: Based on the Retirement Plans – PPA 2014 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Mortality – 2012: Based on the Retirement Plans – PPA 2013 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Interest – The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2013 and 2012 were 4.95% and 4.10%, respectively. The change in interest rate is reflected in the "Changes in actuarial assumptions" in the accompanying Statements of Changes in Accumulated Plan Benefits.

Retirement age – 2013 and 2012: Age 62 for terminated vested employees and the following chart of rates applies for active employees:

Age	Percentage of Employees Expected to Retire Within One Year
55	10
56–61	5
62	20
63–64	5
65–69	50
70	100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4 ABB Inc. Master Trust

The Plan's investments are held in the Master Trust which is a master trust established for the investment of the assets of the Plan and other Company sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At December 31, 2013 and 2012, the Plan had a 2.01% and 1.92% interest in the net assets of the Master Trust, respectively.

The following tables present the net assets for the Master Trust and the net investment gain for the Master Trust:

5 Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity at December 31, 2013 and the year then ended) recorded by the Master Trust as of and for the years ended December 31, 2013 and 2012 (the "Master Trust certification"). Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2013 and 2012 (the "Plan certification"). Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2013 and December 31, 2012 and for the years then ended are detailed below:

December 31	2013	2012
	$	$
Private equity investments	97,190,284	92,369,977
Distressed debt	5,967,713	9,858,273
Fund of funds	23,439,145	26,368,929
Total alternative investments	126,597,142	128,597,179

At the Master Trust level, net realized and unrealized appreciation for these alternative investments is as follows:

For the years ended December 31	2013	2012
	$	$
Net realized and unrealized appreciation in fair value of alternative investments	17,912,862	14,156,461

At the Plan level, the Plan's "Interest in the ABB, Inc. Master Trust" as reflected in the accompanying statement of net assets available for benefits and the Plan's "Interest in net investment gain of the ABB Inc. Master Trust" has also been certified by the Trustee. While the plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and net realized and unrealized appreciation of alternative investment noted above. These amounts represent 11.21 % and 19.47% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2013 and for the year then ended and 11.44% and 12.29% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2012 and for the year then ended.

6 Fair Value Measurements

Investments held by the Master Trust are stated at fair value. ASC 820, Fair Value Measurements and Disclosures, (ASC 820) requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full-term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2013 and 2012, there were transfers in and out of Levels 2 and 3.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- U.S. fixed income securities consisting primarily of U.S. corporate bonds, U.S. government securities, and short-term investments, are valued at the closing price reported on the active market on which the individual securities are traded.
- International fixed income securities consisting primarily of international corporate bonds and international government securities are valued at the net asset value, based on quoted market prices in international markets.

- U.S. equities consisting primarily of U.S. corporate stocks are valued at the closing price reported on the active market on which the individual securities are traded.
- International equities and foreign exchange contracts are valued at the net asset value, based on quoted market prices in international markets.
- The various asset classes listed above may be in either pooled or separate accounts. Pooled account investors receive their prorated share of gains and losses, as well as any interest earned. Separate accounts receive all gains and losses as well as interest earned within the portfolio.
- Mutual funds and registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Master Trust at year end.
- Collective trusts are valued at net asset value as determined by the Trustee.
- Alternative investments are valued at net asset value as reported by the respective fund manager.

The ASC 820 tables above exclude securities lending losses of $21,506 at December 31, 2013 and $275,766 at December 31, 2012, which are in the Master Trust table in Note 4.

a. This category consists of cash in an interest bearing checking account.

b. This collateral consists of cash provided by the borrower that is 102% of the value of the securities borrowed; subsequently this cash is invested in an overnight fund consisting of repurchase agreements and time deposits and a liquidating trust invested in repurchase agreements and asset-backed floating rate securities.

c. This category includes investments in mutual funds and highly diversified pooled and separate accounts that invest in U.S. and internationally issued bonds. For the level 3 fixed income investments, the Master Trust receives monthly statements from the investments manager. There are currently no redemption restrictions on the Level 1 and Level 2 investments; however, the Level 3 fixed income investment will not have liquidity until the U.K. bankruptcy courts releases the assets.

d. This category includes investments in mutual funds and highly diversified pooled and separate accounts that invest in U.S. common stocks via direct purchases. There are currently no redemption restrictions on these investments.

e. This category includes investments in mutual funds and diversified pooled, collective trusts and separate accounts that invest in international common stocks. A currency overlay strategy is also employed to add value and reduce currency risk.

f. This category includes investments in private equity, distressed debt and fund of funds. By nature, these investments are illiquid and capital calls and distributions are determined by the investment manager. At December 31, 2013, the Master Trust has unfunded commitments of $9.8 million to be called in future years. The alternative investments include varying redemption restrictions that are dependent upon related market conditions which may dictate timing and redemption amount.

g. This category includes equities and fixed income securities out on loan supported by cash collateral with value in excess of the value of the securities loaned out.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 financial instruments for the years ended December 31, 2013 and December 31, 2012:

The Master Trust has elected to use a practical expedient to estimate the fair value of the investments in fixed income securities and alternative investments. The net asset value (NAV), including member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, is used for each investment as of the reporting date.

In determining the reasonableness of the valuation methodology for the investments in fixed income securities and alternative investments, the Company obtains audited financial statements at the respective year end for each investment manager to support the reported NAV. In addition, the Company, upon consultation with an external investment advisor, regularly evaluates a variety of factors to determine the reasonableness of the valuation methodology, including review of the underlying investments of each fund, comparison of expected performance to actual results, review of the fund manager's investment strategy, and the current economic and capital market environment.

7 Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the Plan or discontinue contributions, subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, equally among benefits of participants in the following two subcategories:

- In the case of benefits in any pay status three years prior to termination, at the lowest benefit level under the Plan during the five years prior to termination, and
- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Second, among all other benefits, if any, under the Plan guaranteed under the termination insurance provisions of ERISA;

- In the case of benefits in any pay status three years prior to termination (at the lowest pay level in that period and at the lowest benefit level under the Plan during the five years prior to termination); and
- In the case of benefits which would have been in pay status three years prior to termination had the Participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Third, among all other benefits (if any) of participants under the Plan guaranteed under the termination insurance provisions of ERISA;

Fourth, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fifth, among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2013 and 2012, that ceiling, which is adjusted annually, is $4,943 and $4,792 per month, respectively. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty.

8 Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated January 31, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9 Related-party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10 Prohibited Transaction

The ABB Inc. Master Trust had an $84,319 receivable at year end 2012 that reflects a prohibited transaction. This prohibited transaction is comprised of external legal fees that occurred as a result of a 2012 Department of Labor exemption request to allow the plan sponsor to make Treasury-bill contributions in lieu of cash contributions. The plan sponsor reimbursed the Master Trust for this amount plus interest during 2013 and took all necessary corrective actions to ensure the Plan and the trust maintain its income tax status as described in Note 8 above. As of December 31, 2013 there are no remaining receivables in the trust attributable to these expenses. There were no additional non-exempt transactions which occurred during the year ended December 31, 2013.

11 Differences Between the Financial Statements and Form 5500

The following table is a reconciliation of net asset available for benefits per the financial statements to the Form 5500:

	December 31	
	2013	**2012**
	$	**$**
Net assets available for benefits per the financial statements	22,547,888	21,633,508
Less amounts allocated to withdrawing participants	(3,244)	(2,917)
Net assets available for benefits per Form 5500	22,544,644	21,630,591

The following table is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the years ended December 31, 2013 and 2012:

Year Ended December 31	2013	2012
	$	$
Benefits paid to participants per financial statements	827,456	697,614
Less benefits payable at beginning of year	(2,917)	-
Plus benefits payable at end of year	3,244	2,917
Benefits paid to participants per Form 5500	827,783	700,531

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year end, but not yet paid.
