CENTRIA BARGAINING EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the CENTRIA Bargaining Employees 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a contributory defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) which effective January 1, 2001 covers employees of CENTRIA (the "Company") and its subsidiaries represented for collective bargaining purposes by Local 1825, Local 1211 and Local 385.

Effective January 1, 2001, the CENTRIA Cambridge Ohio Plant Bargaining Employees 401(k) Plan, whose participants are represented for collective bargaining purposes by International Union, United Automobile, Aerospace and Architectural Implement Workers of America and its Local Union No. 1825 ("Local 1825") was renamed the CENTRIA Bargaining Employees 401(k) Plan. Also effective January 1, 2001, the Plan assets of the CENTRIA Ambridge Hourly Employees 401(k) Plan, whose participants are represented for collective bargaining purposes by the United Steel Workers of America and its Local Union No. 1211 ("Local 1211") and the CENTRIA ESD 401(k) Plan, whose participants are represented by International Brotherhood of Electrical Workers and its Local Union No. 385 ("Local 385"), were transferred into the Plan. The Plan was also amended January 1, 2001 to comply with the GUST tax laws.

The Plan was amended December 21, 2001 to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

Eligibility - Members of Local 1825 who were hired prior to June 11, 2005 are required to work 45 days to fulfill service requirements.

Members of Local 1825 who were hired after June, 11 2005 are eligible to be active participants once they have become an employee.

Members of Local 1211 are eligible to participate after one year of eligibility service. One year of eligibility services is defined as a consecutive 12 month period in which the employee is credited with 1,000 hours of service.

Members of Local 385 must be at least 18 years of age and fulfill three months of eligibility service to become active participants.

Contributions - Participants may contribute the lesser of the annual limitation ($17,500 and $17,000 for 2013 and 2012, respectively), or 100% of their pretax compensation as defined in the Plan document in accordance with provisions of EGTRRA. Effective January 1, 2008, all eligible employees, as outlined in the Plan document, who were hired in 2008 or were not participating in the Plan prior to January 1, 2008 will be automatically enrolled in the Plan. The automatic elective deferral contribution is 3% and increases by 1% each year thereafter up to a maximum of 6%. Those employees that were participating in the Plan prior to January 1, 2008 will retain their current contribution percentage.

The Company matches the participants' contributions to a maximum of 25% of the first 6% of the employees' eligible compensation for Local 1211 participants. Local 1825 and Local 385 participants receive Company matching contributions to a maximum of 100% up to 1% of elective deferral as well as 50% of elective deferral over 1% but not over 6% of compensation.

The Company may make qualified nonelective contributions or various discretionary contributions as defined in the Plan document. The Company made discretionary contributions of $149,631 and $133,774 during Plan years 2013 and 2012, respectively.

The Plan provides for additional elective deferrals for eligible participants subject to certain limitations. Eligible participants are those participants who will attain at least age 50 before the close of the Plan year who would otherwise be eligible to make elective deferrals under the Plan. The maximum additional elective deferral for 2013 and 2012 is limited to $5,500.

Participant Accounts - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) plan earnings and losses. Earnings or losses are allocated to the participant's account at the end of each day, based on the participant's account balance at the beginning of that day.

Vesting - Participants from Local 1211 have an immediate 100% vested and nonforfeitable right to the funds they contributed to the Plan. Vesting service begins on the employee's hire date. Participants have a vested right to matching contributions made by the Company in accordance with the following vesting schedule:

Period of Service	Percent Vested
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 or more years	100%

Participants from Local 1825 who were hired on or after June 11, 2005 as well as participants from Local 385 have an immediate 100% vested and nonforfeitable right to the funds they contribute and matching contributions made by the Company. Discretionary contributions made by the Company to both participant groups are vested according to the following schedule:

Period of Service	Percent Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Participants from Local 1825 who were hired prior to June 11, 2005 have an immediate 100% vested and nonforfeitable right to funds they have contributed as well as Company matching contributions.

A participant's interest in the employer's contribution becomes 100% vested and distributable upon retirement, permanent disability or death. Upon termination of employment, unvested benefits will first be applied to pay administrative expenses, then revert back to the participants of the Plan.

Investment Options - Participants may invest their voluntary contributions, rollover contributions and the Company's contributions, plus actual earnings thereon into any of the twenty-four investment options maintained by Principal Trust Company (the "Custodian"). The participant may change their investment election for new contributions and existing balances daily.

Payment of Benefits - The normal retirement age for Plan participants is 65, at which point the accumulated value of a participant's vested account becomes payable without penalty. Participants may opt to keep their funds in the Plan after this date, but must begin withdrawing their funds once they reach the age of 70½. Also, participants may elect to have distributions paid to them on their early retirement date, which is the later of (a) the date a participant stops working for the Company or (b) the date a participant reaches the age of 59½.

Additionally, a participant's vested account balance will be distributable upon the occurrence of any one of the following events: (a) death or disability, (b) plan termination or (c) any other termination of employment. Upon termination of employment, if the participant's account balance is $1,000 or less, the Plan Administrator will pay the distribution directly to the participant into a direct rollover to an individual retirement plan designated by the Plan Administrator. If the participant's account balance is greater than $1,000 and is less than $5,000, a participant will automatically receive a lump-sum payment, less applicable withholding taxes. If the participant's account balance is greater than $5,000, the participant may elect to either (a) receive an immediate lump-sum amount equal to the value of their account or (b) leave the account balance in the Plan until such time as the participant decides to withdraw the account balance. The Plan Administrator will pay distributions into a direct rollover to an individual retirement plan designated by the Plan Administrator for mandatory distributions greater than $1,000 that the Participant does not elect to have the distribution paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution in accordance with the Plan document.

Notes Receivable from Participants - The Plan document allows participants to take loans, subject to certain restrictions, against their vested account balance at the request of the participant. The total of such loans from the Plan to a participant will not exceed the lesser of the following amounts (a) or (b):

(a) $50,000, reduced by the highest outstanding loan balance of loans during the one-year period ending on the day before the new loan is made.

(b) The greater of the following:

1. an amount equal to 50% of any participant's current vested interest in their account.

2. $10,000.

The period of payment for any loan will be arrived at by mutual agreement between the plan administrator and the participant, but in no event will its term exceed five years. Each loan will bear interest at a reasonable rate determined annually by the Plan Administrator. The minimum loan amount is $1,000 as defined in the Plan document. The maximum number of loans to be approved during any 12-month period is one. The maximum number of outstanding loans is one.

Effective for plan loans after December 31, 2001, plan provisions prohibit loans to any shareholder-employee or owner-employee.

Plan Administrative Expenses - Expenses incurred by the Plan Administrator, custodian and trustees for their services and costs in administering the Plan are paid directly by the Company, except for certain fees related primarily to participant loan administration which are paid directly by the Plan.

Forfeited Accounts - Forfeitures are used to reduce future employer contributions, expenses incurred in the operation of the Plan and to restore a participant's account after a break in service, in accordance with the Plan's provisions. As of December 31, 2013 and 2012, the Plan had outstanding forfeiture balances of $821 and $526, respectively. Forfeitures were used to reduce employer contributions by $548 and $0 for the years ended December 31, 2013 and 2012, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Net Appreciation (Depreciation) in Fair Value of Investments - The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains and losses from sales of investments and unrealized appreciation (depreciation) on investments. The net change in unrealized appreciation (depreciation) in the fair value of investments is determined by the change in fair value from the beginning of the year if held for the entire year or from date of purchase to the end of the year.

New Accounting Pronouncements - During 2013 and 2012, various new Accounting Standards Updates (ASUs) were issued by the Financial Accounting Standards Board (FASB). The plan administrator of the Plan has determined based on their review that none of the new accounting pronouncements, except for the above, that were issued are applicable to the Plan. As new accounting pronouncements are released, management will assess if they are applicable and if they are applicable, their affect will be included in the notes to the financial statements.

3. INVESTMENTS (UNAUDITED) AND NOTES RECEIVABLE FROM PARTICIPANTS (UNAUDITED)

At December 31, 2013 and 2012, the Plan's investments and notes receivable from participants and executed transactions therein were held by the Custodian. 4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The Plan invests in a variety of pooled separate accounts. Pooled separate accounts are stated at net asset value and the fair value of the separate accounts is not publicly quoted market inputs. The fair value of pooled separate accounts is based on the underlying value of each account's investment portfolio. Investments held by these pooled separate accounts include domestic stocks, international stocks, mutual funds, collective trust funds, and other separate accounts. Pooled separate accounts can be redeemed on a daily basis. Unfunded commitments typically are found in private equity funds and therefore are not applicable to pooled separate accounts.

The Plan entered into an investment contract with the Custodian. The Custodian maintains the guaranteed interest contributions in a pooled account. The account is credited with actual earnings on the underlying investments (principally in federal and other government bonds, corporate bonds and commercial mortgages) and charged for plan withdrawals and administrative expenses charged by the Custodian. The contract is included in the financial statements at contract value, which approximates fair value, because it is not fully benefit responsive, as defined by ASC Topic 962. The crediting interest rates ranged from 4.30% to 4.81% for 2013 and 4.19% to 4.78% for 2012. The crediting interest rate is based on an agreed-upon formula.

The valuation of investments in mutual funds at December 31, 2013 and 2012 were presented at fair value based on quoted market prices.

The fair values of participation units in stable value collective trusts are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in a stable value fund managed by Union Bond & Trust Company ("Union"). The fund consists primarily of fully benefit-responsive investment contracts. Union maintains the contributions in a collective fund. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 4, because the guaranteed investment contracts in the stable value fund are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund.

Contract value, as reported to the Plan by Union, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the stable value fund at December 31, 2013 and 2012 was $3,226,850 and $3,718,540, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Union. Such events include, but are not limited to, the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	1.50%	1.91%
Based on interest rate credited to participants	1.26%	1.88%

6. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 23, 2009, that the Plan is designed in accordance with applicable sections in the Internal Revenue Code (RC). Therefore, no provision for income taxes has been included in the Plan’s financial statements. The Plan has been amended since receiving its determination letter. Plan management and Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator believes as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it in no longer subject to income tax examinations for years prior to 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants will become fully vested and non-forfeitable, and assets will be allocated to each participant based on their respective account balances after payment of all final liquidation or termination expenses, pursuant to the directions of the Plan Administrator.
