Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Jervis B. Webb Company and Affiliates Retirement Income Plan
Farmington Hills, Michigan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Jervis B. Webb Company and Affiliates Retirement Income Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits, the statements of accumulated plan benefits and the related statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by SEI Private Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee, as of and for the years then ended December 31, 2013 and 2012, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements as a whole.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents, which are the responsibility of Plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

JERVIS B. WEBB COMPANY AND AFFILIATES RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2013 and 2012

NOTE 1 - Description of the Plan

The following description of the Jervis B. Webb Company and Affiliates Retirement Income Plan (the "Plan") provides only general information relating to Plan provisions that are in effect as of December 31, 2013. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan covers all salaried employees and certain hourly employees of Jervis B. Webb Company (the "Company") who have completed 12 months of service and are age 21 or older.

The Company amended the Plan effective December 31, 2006 to freeze accrued pension benefits for all salaried employees. No additional benefits shall accrue or credited service be earned on and after January 1, 2007 for all salaried employees. Pension benefits for hourly employees of Harbor Springs West, Harbor Springs East, Carlisle and Boyne City were frozen on December 31, 2007, March 31, 2009, December 31, 2009, and December 31, 2010, respectively.

Contributions

Contributions are made by the Company based on actuarially determined amounts. The Company's funding policy is to make contributions necessary to satisfy ERISA funding requirements. Annual contributions meet the minimum funding requirements of ERISA. The company's annual contributions were \$8,171,142 in 2013 and \$6,599,393 in 2012. The "employer contribution receivable" amounts reflected in the accompanying statements of net assets available for benefits at December 31, 2013 and 2012 were \$3,449,257 and \$2,088,398, respectively. These amounts were fully funded in the year following the plan year-end before the extended due date of the Company's tax return.

Benefits and Vesting

In general, participants are fully vested after five years of service. Benefits are based on years of credited service and compensation or benefit rates provided in the Plan document. Detailed information regarding the Plan has been provided in the Plan document and is further explained to participants in a published summary plan description.

Death and Disability Benefits

The Plan provides death benefits to vested participants. Salaried participants are eligible for a death in service benefit, payable to their surviving spouse or beneficiary if they die in active service and meet certain criteria. Otherwise, if either a salaried or hourly participant dies prior to retirement, their surviving spouse is eligible for the Qualified Pre-retirement Joint and Survivor benefit. If either a salaried or hourly participant dies after pension benefit payments begin, survivor benefits will be determined based on the benefit option elected at retirement.

JERVIS B. WEBB COMPANY AND AFFILIATES RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2013 and 2012

NOTE 1 - Description of the Plan (cont.)

Disability benefits are payable under the Plan if the participant has at least 10 Years of Credited Service and is entitled to a disability benefit under the Federal Social Security Act. For salaried participants, Disability Retirement Benefits usually begin after Long Term Disability Benefits are exhausted.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the Plan provisions in effect during the five-year period ending on such date under which such benefit would be the least.
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5)).
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan.
4. Provide all other benefits under the Plan.

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Funding Policy

Contributions are made by the Company in actuarially determined amounts. The Company's funding policy is to make contributions necessary to satisfy ERISA minimum funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Administrative Expenses

Administrative expenses reflected in the statements of changes in net assets available for benefits primarily include investment fees paid to SEI (see Note 6) and required per-participant premiums paid to the Pension Benefit Guaranty Corporation.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Direct investment expenses and certain administrative expenses are paid by the Plan.

Actuarial Assumptions

Accumulated plan benefits are those future periodic payments that are attributable under the provisions of the Plan to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from SEI Investments and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest), changes in benefit rates, and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

JERVIS B. WEBB COMPANY AND AFFILIATES RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2013 and 2012

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Significant actuarial assumptions used in the valuation as of December 31, 2013 and 2012 for purposes of fulfilling plan accounting obligations are as follows:

	2013	2012
Discount rate	8.25%	8.25%
Compensation increase rate	N/A	N/A
Weighted-average retirement age	64	64
Life expectancy of participants	IRS-mandated 2014 tables	IRS-mandated 2013 tables

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan has various investments in any combination of funds whose underlying assets consist of stock, equities, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 19, 2014, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the plan's financial statements.

NOTE 4 - Fair Value Measurements

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trust: The Fund's investment objective is to seek to achieve an attractive risk-adjusted return with moderate volatility and moderate directional market exposure over a full market cycle.

The net asset value of the Fund is determined as of the close of business at the end of each month in accordance with the valuation principles set forth below or as may be determined from time to time pursuant to policies established by the Fund's Board of Directors (the "Board"). Investments in Investment Funds are presented in the accompanying financial statements at fair value. Fair value as of each month-end ordinarily will be the value determined as of such month-end for each Investment Fund in accordance with the Investment Fund's valuation policies, as described in each of their financial statements and offering memoranda, and reported at the time of the Fund's valuation. Usually the fair value is an amount equal to the sum of the capital accounts in the Investment Funds determined in accordance with GAAP or other similar principles, which would be the amount received if sold. Such valuations are net of management and performance incentive fees or allocations payable to the Investment Funds' managers pursuant to the Investment Funds' agreements. In the event that an Investment Fund does not report a month-end value to the Fund on a timely basis or if management of the Fund believes it does not

NOTE 4 - Fair Value Measurements (cont.)

accurately represent the fair value, the Fund would determine the fair value of such Investment Fund in accordance with fair value policies established by the Fund's Board. The Fund's fair value procedures are approved by the Fund's Board and implemented through a fair value committee.

Withdrawals may be made from the Fund as of a valuation date that is also the last business day of a calendar quarter (March 31, June 30, September 30, December 31), at the value of the Plan's investment on such valuation date, provided that any participating plan which desires to withdraw totally or partially from participation in the Fund shall deliver a written request 65 business days prior to the date of withdrawal to the Fund specifying the dollar amount to be withdrawn and the quarterly valuation date with respect to which the withdrawal shall be made. When a participating plan redeems its entire investment in the Fund, ten percent of the value of such investment may be held in escrow until the completion of the Fund's annual audit. Such a withdrawing Plan shall receive from the Fund, in cash or ratably in kind, or partly in cash and partly in kind, as determined in the Trustee's sole discretion. Cash redemptions from the Fund will be subject to any limitations imposed by the Fund on repurchase of their shares.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balance of assets measured at fair value on a recurring basis by level within the hierarchy.

Balances, End of Year	<u>\$ 22,261,961</u>	<u>\$ 21,331,332</u>

NOTE 5 - Income Tax Status

The Plan obtained its latest determination letter on January 6, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator is not aware of any events that have occurred that might adversely affect the Plan's qualified status.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

The Unit Credit Cost Method was used to determine liabilities and Normal Cost for funding and the Projected Unit Credit Method for FAS 87 purposes. Under this method, a projected accrued benefit is calculated as of the beginning of the year and as of the end of the year. This projected accrued benefit is based on the benefit accrual formula and service as of the beginning or end of the year. Under the Projected Method, the final average compensation, social security benefits, etc., are projected to the age at which the employee is assumed to leave active service. For benefits not based on an accrual formula, benefits are assumed to accrue on a straight-line basis over the period during which credited service is earned. The actuarial accrued liability is the present value of these projected accrued benefits as of the beginning of the year. The normal cost is the present value of the difference between the projected accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for each individual participant in the Plan are summed to determine the normal cost and actuarial accrued liability of the Plan in total.

The Asset Valuation Method for funding purposes is the 2 year smoothed value as described in IRS guidance.

The Market Related Value of Assets for purposes of determining the Net Periodic Pension Cost under FAS 87 is to use the Fair Value of Assets.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

The Unit Credit Cost Method was used to determine liabilities and Normal Cost for funding and the Projected Unit Credit Method for FAS 87 purposes. Under this method, a projected accrued benefit is calculated as of the beginning of the year and as of the end of the year. This projected accrued benefit is based on the benefit accrual formula and service as of the beginning or end of the year. Under the Projected Method, the final average compensation, social security benefits, etc., are projected to the age at which the employee is assumed to leave active service. For benefits not based on an accrual formula, benefits are assumed to accrue on a straight-line basis over the period during which credited service is earned. The actuarial accrued liability is the present value of these projected accrued benefits as of the beginning of the year. The normal cost is the present value of the difference between the projected accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for each individual participant in the Plan are summed to determine the normal cost and actuarial accrued liability of the Plan in total.

The Asset Valuation Method for funding purposes is the 2 year smoothed value as described in IRS guidance.

The Market Related Value of Assets for purposes of determining the Net Periodic Pension Cost under FAS 87 is to use the Fair Value of Assets.
