PIER SIXTY, LLC
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Pier Sixty, LLC 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement or documents for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution 401(k) plan established by Pier Sixty, LLC (Company) covering all eligible employees, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustee is responsible for the oversight of the Plan. Plan management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 75% of their annual compensation not to exceed $17,500 for 2013. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions as permitted under the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans. The Company contributes an amount equal to 100% of each participant's contributions up to the first 5% of the employee's compensation during the plan year, limited to a maximum of $2,000. The Company may also make discretionary contributions. Forfeited balances of unvested participant accounts are used to reduce future contributions from the Company. Participants direct the investments in their account into various investment options offered by the Plan. The Plan currently offers thirty-five options.

Participant Accounts

Each participant's account is credited with (i) the participant's contributions, (ii) the Company's matching contribution, (iii) their share of the Company's additional discretionary contributions, if any, (iv) net earnings (loss) on their account and (v) charged with an allocation of administrative/investment expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service. Upon reaching normal retirement, disability or death, a participant account also becomes fully vested.

Notes Receivable from Participants

Participants may borrow a minimum of $500 and up to a maximum equal to the lesser of 50% of their vested account balance, as adjusted, or $50,000. Loans are payable over no more than five years (except for loans to acquire a principal residence), are secured by the participant's account, and bear the interest rates of 5.25% - 5.50% per annum. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

Upon normal retirement, disability, death or separation from service, participants receive their vested benefit in a lump-sum or installment payments, as defined. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $10. These accounts will be used to reduce future employer contributions. Also, in 2013, employer contributions were reduced by $1,737, from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan were prepared on the modified cash basis of accounting, a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting used by the Plan, contributions and interest and dividends are recognized when received rather than when they are earned and benefits and expenses are recognized when paid rather than when the obligation is incurred; however, investments are presented at fair value.

NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of financial statements in conformity with the basis of accounting described in the preceding paragraph requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income is recorded on the modified cash basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon terms of the Plan. Related fees are recorded as administrative expenses and are expensed when incurred or "when they are paid". No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrator fees. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

Management has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued and concluded that no additional disclosures are required.

	$ 738,693

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

PIER SIXTY, LLC
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at fair value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$3,905,554			$3,905,554
Common Collective Trust	310,413			310,413
	$4,215,967			$4,215,967

	Assets at fair value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$3,495,993			$3,495,993

See independent auditor's report

5. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012, to Form 5500:

	2013	2012
Net assets available for Plan benefits per the financial statements	$4,556,638	$3,784,476
Accumulated loan interest	(4,909)	(4,658)
Net assets available for Plan benefits per Form 5500	$4,551,729	$3,779,818

The following is a reconciliation of the changes in net assets available for plan benefits per the financial statements for the year ended December 31, 2013 to Form 5500:

	2013
Changes in net assets available for Plan benefits per the financial statements	$ 772,162
Net change in accumulated loan interest	(251)
Change in net assets available for Plan benefits per Form 5500	$ 771,911

6. TAX STATUS

The Internal Revenue Service has determined and informed the Plan by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

8. RELATED PARTY TRANSACTIONS AND PARTIES IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for investment management services, direct and indirect fees and commissions are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

Notes receivable from participants also qualify as party-in-interest transactions.

The Company provides certain accounting and administrative services to the plan for which no fees are charged.

9. RISKS AND UNCERTANTIES

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
