Smithfield Foods, Inc. Bargaining 401(k) Plan
Smithfield, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of Smithfield Foods, Inc. Bargaining 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) Description of Plan

The following description of the Smithfield Foods, Inc. Bargaining 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Smithfield Foods, Inc. (Smithfield). The Plan is for the benefit of eligible bargained employees of Smithfield and affiliated employers that have adopted the Plan (collectively, the Company). Eligibility requirements for 401(k) and matching contributions are 90 days of service and attainment of age 18. Eligibility for discretionary profit sharing contributions varies based on the related bargaining agreement of the adopting affiliated employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Smithfield Foods, Inc. Investment Committee (Investment Committee) is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance and controls and manages the operation and administration of the Plan. J.P. Morgan Asset Management (JPMorgan) serves as trustee of the Plan. Wells Fargo Bank, N.A. served as trustee of the Plan as of December 31, 2012 and for the period January 1, 2013 through December 2, 2013.

Contributions

Each year, participants may contribute up to 50% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company matching contribution varies based on the related bargaining agreement of the adopting affiliated employers. The Company may make a profit sharing contribution at the discretion of the Company's board of directors. Contributions are subject to certain limitations.

During 2013 the Plan was amended to include automatic compensation reduction contributions for certain bargaining groups. Under this amendment, 2% of compensation of eligible employees will be deferred unless a contrary election is made.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers registered investment companies and common collective trust funds.

(1) Description of Plan, Continued

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings (losses), and charged with benefit payments, transaction fees related to a participant's note receivable, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts is based on years of service, as defined, and may vary based on the collective bargaining agreement.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms extend to five years for general purpose loans and to ten years for the purchase of a primary residence. Participants are limited to one outstanding loan at any point in time. The loans are secured by the balance in the participant's account and bear interest at 2% above the prime rate at the preceding month in which the loan was taken. As of December 31, 2013, interest rates ranged from 4.25% to 10.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Amounts contributed on a pre-tax basis may only be withdrawn upon demonstration of financial hardship, disability, or after the participant reaches the age of 59.5 years.

Forfeitures

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $131,949 and $190,941, respectively. These accounts will be used to reduce future Company contributions and pay administrative expenses of the Plan. During 2013, forfeitures of $291,959 were used to reduce Company contributions.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, a stable value fund held by a defined contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the stable value fund as well as the adjustment to the fully benefit-responsive stable value fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Continued...

(2) Summary of Significant Accounting Policies, Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefits are recorded when paid.

Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through August 22, 2014, the date the financial statements were available to be issued.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets.

	2013	2012
Wells Fargo Stable Return Fund E	$ 36,790,907	$ 35,156,912

Wells Fargo Advantage Dow Jones Target 2040 (I) Fund	*	$ 6,583,946
Wells Fargo BGI S&P 500 Index High Balance Fund	*	$ 6,049,683

* Investment does not represent 5% or more of net assets available for benefits at end of year.

During 2013, the Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value as follows:

Registered investment companies	$ 2,726,957
Common stock	1,300,824
Common collective trusts	10,793,998
	$ 14,821,779

(4) Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that is either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

Continued...

(4) Fair Value Measurements, Continued

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

When quoted prices are available in active markets for identical instruments, investment securities are classified within level 1 of the fair value hierarchy. Level 1 investments includes registered investment companies and common stock.

Level 2 investment securities include common collective trust funds and a group variable annuity for which quoted prices are not available in active markets for identical instruments. The Plan utilizes a third party pricing service to determine the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics. Common collective trust funds and the group variable annuity are valued at the closing net asset value (NAV) of the units held by the Plan at year end. The common collective trust fund NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

(a) Represents investment in a common collective trust meant to align with an expected retirement date. The funds are invested in domestic and international equity, fixed-income, real estate and money market strategies. The allocation to different asset classes will change over time and become increasingly conservative as retirement approaches. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

(4) Fair Value Measurements, Continued

(b) Represents investment in a common collective trust which seeks a moderate level of stable income without principal volatility by investing in investment contracts issued by selected high quality insurance companies and financial institutions. There are no unfunded commitments. See Note 5 for further discussion.

(c) Represents investment in a common collective trust which seeks to provide investors with a 4% annualized excess return relative to the Russell 2500 Index over a full market cycle by investing in a diversified portfolio of domestic equities. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

(d) Represents investment in a common collective trust which seeks to approximate as closely as practicable the total return of the Standard & Poor's 500 Index ("S&P Index") through investment of at least 80% of its assets in equity securities of companies similar to those that comprise the S&P Index. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

(e) Represents investment in a common collective trust which seeks a return which exceeds that of a benchmark consisting of a 1/3 weighting in the Barclays Capital U.S.TIPS Index, a 1/3 weighting in the Dow Jones - UBS Commodity Index SM, and a 1/3 weighting in the Dow Jones U.S. Real Estate Investment Trust Index. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

(f) Represents investment in a common collective trust which seeks to approximate as closely as practicable the total return of the S&P Index through investment in equity securities of companies that comprise the S&P Index. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

(g) Represents investment in a common collective trust which seeks to provide investors with a competitive rate of return and a high level of stability of principal and liquidity by investing in a diversified portfolio of money market instruments with an average maturity of 90 days or less. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

(h) Represents investment in a group variable annuity whose underlying mutual fund seeks long-term capital growth consistent with preservation of capital and balanced by current income. There are no unfunded commitments, redemption frequency restrictions or other redemption restrictions.

There were no significant transfers among investment levels during the years ended December 31, 2013 and 2012.

(5) Wells Fargo Stable Return Fund (E)

The Wells Fargo Stable Return Fund (E) (the Fund) is a collective trust fund sponsored by Wells Fargo Bank, N.A. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's NAV per unit, which is based on the assets held by the Fund less any liabilities, divided by the total number of units outstanding. Distribution to the Fund's unit holders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Restrictions on the Plan

Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the plan sponsor. The following events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund.
- Any transfer of assets from the Fund directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Complete or partial termination of the Plan or its merger with another plan.
- The redemption of all or a portion of the interests in the Fund held by the Plan at the direction of the plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of the plan sponsor, or the merger of the Plan with another plan.

(5) Wells Fargo Stable Return Fund, (E), Continued

Circumstances that Impact the Fund

The Fund invests in assets, typically fixed income securities or bond funds, and enters into "wrapper" contracts issued by third parties. A wrapper contract is an agreement by another party, such as a bank or insurance company, to make payments to the Fund in certain circumstances. Wrapper contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrapper contract, the wrapper issuer agrees to pay the difference between the contract value and the market value of the underlying assets if the market value falls below the contract value.

The wrapper contracts generally contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modifications of the Fund or the administration of the Fund that is not consented to by the wrapper issuer.
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Fund's cash flow.
- Employer-initiated transactions by participant plans as described above.

In the event that wrapper contracts fail to perform as intended, the Fund's NAV may decline if the market value of its assets decline. The Fund's ability to receive amounts due pursuant to these wrapper contracts is dependent on the third-party issuer's ability to meet its financial obligations. The wrapper issuer's ability to meet its contractual obligations under the wrapper contracts may be affected by future economic and regulatory developments.

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrapper contracts covering all of its underlying assets. This could result from the Fund's inability to promptly find a replacement wrapper contract following termination of a wrapper contract. Wrapper contracts are not transferable and have no trading market. There are a limited number of wrapper issuers. The Fund may lose the benefit of a wrapper contract on any portion of its assets in default in excess of a certain percentage of portfolio assets.

(6) Related Party Transactions and Party-In-Interest Transactions

The Plan invests in certain funds managed by JPMorgan or its affiliates. JPMorgan is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan invested in certain funds managed by Wells Fargo Bank, N.A. or its affiliate and participant-directed brokerage accounts held by Wells Fargo Bank, N.A. Wells Fargo, N.A. was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. During 2013, fees paid to JPMorgan and Wells Fargo, N.A. by the Plan amounted to $4,400 and $507,889, respectively, for investment management and administrative services. The Plan also invested in Smithfield Foods, Inc. common stock. At December 31, 2012, the Plan held 113,934 shares of Smithfield Foods, Inc. common stock and all such holdings were liquidated during 2013. During the year ended December 31, 2013, no dividend income related to the stock was recorded by the Plan.

(7) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 12, 2013 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The determination letter is subject to the adoption of amendments included in the January 25, 2013 and February 14, 2013 application for determination. The plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(8) Transfers of Assets

Transfers of assets among plans occur when a change in the employment status of an employee, who participates in a Smithfield-sponsored retirement plan, causes the employee to change plans due to eligibility requirements. Transfer activity for the year ended December 31, 2013 was as follows:

Transfers to the Plan from Smithfield Foods, Inc. 401(k) Plan, net	$ 1,151,373
Transfers from the Plan to John Morrell & Co. 401(k) Savings Plan, net	(511,728)
	$ 639,645

(9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(10) Nonexempt Transactions

During 2013, employee contributions and loan repayments of $794,128 were withheld from participants' pay during November but were not remitted to the Plan's trust within the time frame required by the Department of Labor under the plan asset rules.

Delinquent contributions resulted from the change in plan trustee during 2013. J.P. Morgan Retirement Plan Services' application of IRS Treasury Regulation 1.401(k)-1(a) prohibited the Company from depositing amounts withheld to the trust until the asset transfer was reconciled and amounts could be allocated to the individual participant accounts. During this period, the prior trustee was not able to receive additional funds as the trustee relationship had been terminated.

The delinquent employee contributions and loan repayments were remitted to the Plan prior to December 31, 2013 and the Company computed the lost earnings and late remittances and deposited those amounts to the trust on February 14, 2014. The Company is in the process of correcting the earnings on the delinquent loan repayments and expects to make the correction during 2014.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
