BRANNAN SAND AND GRAVEL COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Brannan Sand and Gravel Company Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Brannan Sand and Gravel Company, LLC and affiliated companies who have ninety-days of service and are age twenty-one or older unless they are a union employee covered by a collective bargaining agreement, a leased employee or a non-resident alien with no U.S. source income. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees oversee governance of the plan. This plan is a 401(k) profit sharing type plan.

Contributions. Each year, participants may contribute up to the maximum amount allowed by law of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company at its discretion may make matching contributions. This contribution can match elective participant deferrals up to 6% of eligible compensation. The Company contributed 25% of the first 6% of eligible compensation that a participant contributes to the Plan. During the year ended December 31, 2013 the Company made an additional $100,000 in matching contributions. Contributions are subject to certain statutory limitations.

Participant accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching contribution, (b) Plan earnings (losses), and charged with an allocation of administrative expenses that are paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits. On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount, substantially equal installments or partial withdrawals of a minimum of $1,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account using the same payment methods. If a participant's non-forfeitable accrued benefit is less than $5,000, the balance will be distributed in a lump sum.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the participant's account balance and bear interest at rates ranging from 3.25% to 8.25%. The maximum loan term is sixty months. Principal and interest is paid ratably through payroll deductions at least quarterly.

Forfeited Accounts. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $6,921 and $2,940 respectively. These amounts will be used to offset future plan administrative expenses and employer contributions. In 2013, $4,815 of forfeited non-vested accounts was used to pay administrative expenses. Effective January 1, 2009 forfeitures are to be disposed of in the year the forfeiture occurs.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

The Plan has evaluated subsequent events through October 3, 2014 the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the modified cash basis of accounting. That basis differs from generally accepted accounting principles primarily because the Plan has not recognized accounts receivable from participants or the Company and accounts payable to participants or administrators and their related effects on earnings. Interest income on participant loans is recognized when received. Accordingly, the financial statements are not intended to present the net assets available for benefits and changes in net assets available for benefits of the Plan in conformity with the accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2013 and 2012, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note #3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the cash basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Operating Expenses.

The Employer absorbs the cost of legal and accounting services necessary to administer the Plan. However, the contract administrator fee is paid by the Plan.

NOTE 3 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liability in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued using a formula which includes the quoted net asset value (NAV) of shares held by the plan at year end using NAV's from the Custodian and from National exchanges, as well as other factors.

Guaranteed Investment Contract: Valued at contract value which approximates fair value as determined by The Standard for 2013. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer for 2012

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

NOTE 4 - INVESTMENTS

Unaudited Information Certified by the Plan Trustee

The December 31, 2013 and 2012 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Assets Available for Benefits, the Supplemental Schedule and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $7,899,567 and $6,455,481 at December 31, 2013 and 2012, respectively, and related income of $1,296,196 for the twelve month period ended December 31, 2013.

The following presents investments at December 31, 2013 and 2012 that represent 5 percent or more of the Plan's net assets:

	2013	2012
Standard Insurance Pooled Separate Accounts, at fair value		
Vanguard Wellington Admiral	$ 718,769	$ 579,607
Vanguard Windsor II Admiral	430,903	*
Vanguard PrimeCap	546,599	385,271
Columbia Acorn Z	463,882	328,065
T. Rowe Price Growth Stock	743,308	485,792
Standard Insurance Guaranteed Investment Contract, at fair value	2,187,194	2,207,001

* - Represents less than 5 percent.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,209,258 as follows:

Mutual funds	$ 1,209,258

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2001 the Plan entered into a benefit-responsive investment contract with The Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face value of the statement of net assets available for benefits at fair value which approximates contract value. Contract value, as reported to the Plan by The Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $2,187,194 and $2,207,001, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with The Standard. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	3.66%	3.66%
Based on interest rate credited to participants	3.66%	3.66%

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions to ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however there are no currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated by certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amount reported in the statement of net assets available for benefits.
