Northwoods Consulting Partners, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Northwoods Consulting Partners, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Northwoods Consulting Partners, Inc. (the "Company") who are eligible upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. The Plan has an automatic deferral provision whereby the Company will automatically withhold a portion of compensation for each payroll period and contribute that amount to the Plan as a pre-tax deferral unless a contrary election is made. The automatic deferral percentage shall be 3 percent in plan years one and two, and increase 1 percent per year thereafter to reach a maximum automatic deferral percentage of 6 percent beginning in plan year five.

The Plan provides for employer matching contributions of 100 percent of the participant's first 1 percent of contributions and 50 percent of the participant's next 5 percent of contributions not to exceed 3.5 percent of the employee's eligible compensation. The Plan also provides for discretionary nonelective contributions as determined on an annual basis by the Company. There were no discretionary nonelective contributions in 2013 and 2012.

During 2013 and 2012, the Company remitted certain employee deferrals to the Plan after the timeframe required by the Department of Labor (DOL). Furthermore, the Plan underwent an examination by the DOL in 2014. Through the examination and in a letter to the plan administrator dated May 12, 2014, the DOL identified additional delinquent contributions for the period from January 1, 2012 through March 15, 2014. Accordingly, total delinquent contributions for 2013 and 2012 are reflected in the schedule of delinquent participant contributions. A contribution of lost earnings was made to the Plan subsequent to year end.

Effective June 13, 2014, the Company amended the plan to remove the employer matching contributions.

Northwoods Consulting Partners, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participant accounts are immediately vested and nonforfeitable at all times.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. Principal and interest are paid ratably through payroll deductions. Participants may borrow funds for a term of no more than five years, unless the note is used to purchase a primary residence.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Installment payments may be made to those participants who receive distribution on or after attaining the normal retirement age of 62 and vested account balance exceeds \$5,000. The Plan also allows for in-service distributions as described in the plan document.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Principal Life Insurance Company (Principal Life), Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust), and Union Bond and Trust and their affiliates. Principal Life, Principal Trust, and Union Bond and Trust are the custodians of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Northwoods Consulting Partners, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the stable value common collective trust fund which is stated at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs are paid by the Company.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 23, 2014, which is the date the financial statements were issued.

Note 3 - Unaudited Information

Principal Life, Principal Trust, and Union Bond and Trust (collectively, the "Custodians") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by Principal Life, Principal Trust, and Principal Life, on behalf of Union Bond and Trust.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan of Clayton L. Scroggins Associates, Inc., which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2008. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level I - Fair values determined by Level I inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Northwoods Consulting Partners, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Common Collective Trust Funds - The stable value common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the stable value common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The stable value common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer.

The remaining common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

Pooled Separate Accounts - The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

Northwoods Consulting Partners, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of fair value hierarchy during 2013 or 2012.

Note 6 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than Form 5500 by \$1,123 and \$4,118 at December 31, 2013 and 2012, respectively. Additionally, the net income on Form 5500 for the year ended December 31, 2013 is lower than the financial statements by \$2,995.
