NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013**

DESCRIPTION OF PLAN

The following description of the MPI Research, Inc. 401(K) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The MPI Research, Inc. 401(K) Plan is a defined profit sharing plan with 401(K) features and covers substantially all employees of MPI Research, Inc. who are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(K) feature provides employees with the option to make elective contributions up to the maximum allowed under ERISA guidelines. Such contributions are 100% vested. Employer 401(K) match contributions are vested at a rate of 33% per year beginning after one year in the Plan. After three years the match contributions are 100% vested. Employees can choose how to invest their account among the investment funds offered.

DISTRIBUTION OF BENEFITS

A participant's vested account balance will be distributed to them or their beneficiary in the event of death, disability, and retirement. Benefits shall be paid in a lump sum or at the election of the participant in installments over a period not to exceed their assumed life expectancy. Employees whose employment is terminated for a reason other than those discussed above are entitled to receive only their vested percentage of their account balance and the remainder will be forfeited.

EMPLOYER CONTRIBUTIONS

Each year the employer can make discretionary matching contributions equal to a percent of the salary reduction elected by the employee subject to a maximum percentage. The percent is determined by the employer. The employer matching contribution for 2013 was \$1,032,962. Forfeitures of \$36,741 were used towards this match.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 7%. Principal and interest is paid ratably through monthly payroll deductions.

FORFEITED ACCOUNTS

For the year ended December 31, 2013, forfeitures were \$36,647. Total forfeitures held at December 31, 2013, were \$36,741. These forfeitures were used to reduce employer contributions due to the Plan for 2013.

**MPI RESEARCH, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013**

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan are prepared under the accrual basis of accounting. Benefit payments are recorded when paid.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Notes receivable from participants are valued at their unpaid principal balance.

The Company absorbs significant costs associated with the Plan.

Benefits are recorded when paid.

Subsequent events were evaluated through August 19, 2014, which is the date the financial statements were available to be issued.

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

REPORTABLE TRANSACTIONS

There were no investment assets reportable as acquired and disposed of during the year. Additionally, there were no reportable transactions under categories i), ii), iii), or iv) as set forth in the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**MPI RESEARCH, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013**

FAIR VALUE MEASUREMENTS (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of common stocks, certain corporate bonds, and U.S. government securities are based on the closing price reported in the active market where the individual securities are traded, when available.

Level 3 Fair Value Measurements

Notes receivable from participants are valued at their unpaid principle balance.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at:

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
