Jay Industries, Inc. Profit Sharing & 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Jay Industries, Inc. Profit Sharing & 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Jay Industries, Inc. (JII) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Each full-time employee, with the exception of collective bargaining employees, of JII and its subsidiaries, Longview Steel Corporation (LVS), JTR Resins, Ltd (JTR), and Jay Mid-South, LLC (JMS), is eligible to participate in the Plan following the completion of six months of service and attainment of age 21. In addition, in order to participate in any employer discretionary matching or profit sharing contributions, the employee must be employed on the last day of the Plan year and have completed 1,000 hours of service during the Plan year. The Plan entry dates are January 1, April 1, July 1, and October 1. Participants direct the investments of contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds (registered investment companies) and a money market fund as investment options.

Contributions: Plan participants may authorize payroll deductions up to 100% of their compensation as a pretax contribution. The amount of a participant's contributions for any Plan year may not exceed certain limits set by the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowed under the IRC. In addition, participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. JII, at its discretion, will match participant contributions (excluding catch-up contributions) not to exceed 2% of the participant's eligible compensation. JII may also make a discretionary profit sharing contribution to the Plan; no such contribution was made for the year ended December 31, 2013.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) JII's matching contributions, (b) JII's profit sharing contributions, and (c) Plan earnings and losses. Allocations are based on participant compensation or account balances, in accordance with the method described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contributions along with the earnings thereon is based on years of continuous service; where a year is defined as one where an employee works 1,000 or more hours.

Vesting in the employer's contributions along with earnings thereon, except for certain JMS participants discussed below, is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 year	10%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more	100%

Jay Industries, Inc. Profit Sharing & 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

The following vesting schedule applies to JMS participants that (a) were participants in the Jay Mid-South, LLC Profit Sharing and 401(k) Plan prior to its merger into this Plan effective November 1, 2010 and (b) terminated employment prior to November 1, 2010:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more	100%

Payment of benefits: A participant may receive the value of his or her vested account upon retirement, disability or termination in a lump sum distribution. Upon death or disability of a participant, the beneficiary shall be entitled to the full value of the account.

Forfeitures: Forfeited non-vested accounts are used to pay Plan expenses or reduce future employer contributions. Forfeited non-vested accounts totaled \$22,164 and \$18,764 at December 31, 2013 and 2012, respectively. No forfeitures were used during 2013.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participant contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the employer.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: The Plan is responsible for certain administrative expenses, which are recognized when incurred. A portion of the administrative expenses are paid by JII at their discretion.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recently issued accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to the financial statements. The impact of adopting the ASU 2012-04 amendments not immediately effective are not expected to have a material impact on subsequent periods.

Subsequent events: The Plan Sponsor has evaluated subsequent events for potential recognition and/or disclosure through September 25, 2014, the date the financial statements were available to be issued.

Note 3. Tax Status

Effective November 1, 2010, the Plan adopted a standardized form of a prototype plan sponsored by Fidelity Management & Research Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC and is, therefore, not subject to federal income taxes under present income tax laws.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2013 and 2012, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statement of changes in net assets available for benefits.

Note 4. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012 and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules that were prepared by or derived from information provided by Fidelity Management Trust Company (Fidelity) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 4. Information Certified and Provided by Fidelity Management Trust Company (Continued)

The following table presents the fair value of the Plan's assets as certified and provided by the trustee as of December 31. Assets representing 5% or more of the Plan's net assets are separately identified.

	2013	2012
Investments, at fair value		
Registered investment companies		
Columbia Global Dividend Opportunity Fund	\$ 831,237	\$ 691,280
Fidelity Advisor Inflation Protected Bond Fund	1,214,618	1,462,626
Fidelity Advisor Dividend Growth Fund	730,892	-
Other registered investment companies	8,090,897	7,225,515
	<u>\$ 10,867,644</u>	<u>\$ 9,379,421</u>
Money market fund		
Fidelity Prime Fund	<u>\$ 2,750,336</u>	<u>\$ 2,788,907</u>

The trustee also certified to the completeness and accuracy of the net appreciation in the fair value of investments and interest and dividend income for the year ended December 31, 2013 as follows:

Net appreciation in fair value of investments	
Registered investment companies	<u>\$ 913,987</u>
Interest and dividend income	<u>\$ 489,147</u>

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Money market fund: Valued at the closing price reported on the active market on which the fund is traded, generally at \$1 per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2013

Note 6. Plan Termination

Although it has not expressed any intent to do so, JII has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Related Party Transactions

Certain Plan investments held during the year are shares of registered investment companies managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2013, the Plan paid administrative fees in the amount of \$404 to the trustee.
