CHESAPEAKE PHARMACEUTICAL PACKAGING COMPANY
401(K) SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

Note 1 - Description of the Plan

The following description of the Chesapeake Pharmaceutical Packaging Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. Chesapeake Pharmaceutical Packaging Company, LLC is referred to in the notes as the Company or the Sponsor.

On November 1, 2010, a trust agreement by and between the Company and Bank of America was executed establishing the Chesapeake Pharmaceutical Packaging Company 401(k) Savings Plan Trust to receive and hold contributions and fund benefits under the Plan. The Company intends by this Trust Agreement to create a Trust forming a part of the Plan which shall qualify under Section 401 of the Code and which shall be exempt from tax pursuant to Code Section 501(a).

a. General - The Plan (which is a 401(k) plan) is a defined contribution plan covering all full-time eligible employees of the Company who have three months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions - Each year, participants may contribute up to the maximum percentage allowable under the federal statutory limit of Code Section 401(k), as defined in the Plan. The limits for 2013 and 2012 are $17,500 and $17,000, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. For the years ended December 31, 2013 and 2012 the catch-up contribution amounted to $5,500. The Company contributes an amount equal to the sum of 100 percent of the amount of the participant's elective deferral that does not exceed 3 percent of the participant's compensation, plus 50 percent of the amount of the participant's elective deferral that exceeds 3 percent of the participant's compensation but does not exceed 5 percent of the participant's compensation. All employer contributions are invested in the same proportion to that of the participants. Contributions are subject to certain limitations. Participants may also roll over amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

Note 1 - Description of the Plan (continued)

c. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings or losses. Administrative expenses of the Plan are paid by the Company.

d. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service earned at 20 percent after the first two years and each year thereafter.

e. Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. Participants may only have one loan outstanding at any time. Loan transactions are treated as a transfer to (from) the respective investment funds from (to) the Notes Receivable from Participants' Fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. During 2013 and 2012, interest rates ranged from 4.25 percent to 9.25 percent. Principal and interest are paid ratably through payroll deductions.

f. Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments based upon various factors including the life expectancy of the participant and if elected, their beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution within one year.

g. Forfeited Accounts - Forfeited balances of terminated participants' non-vested amounts are credited to a forfeiture account and become fully vested following the participant's termination of employment. Any amount in the forfeiture account occurring in the plan year just ending is reallocated on a pro rated basis, and credited to the accounts of participants. At December 31, 2013 and 2012, there were no forfeited nonvested accounts.

CHESAPEAKE PHARMACEUTICAL PACKAGING COMPANY
401(K) SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

Note 2 - Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 25, 2014, which is the date the financial statements were available to be issued. On February 14, 2014, the Company entered into a merger agreement with another company. The Company does not believe this merger will impact the Plan until January 2015.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions of participant loans based on the terms of the Plan document. This amounted to $39,125 and $10,044 for the years ended December 31, 2013 and 2012, respectively.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by Reliance Trust Company as of December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Guaranteed investment contracts (GIC) issued by insurance companies and other financial institutions at fixed rates are carried at contract value. The contract value represents contributions made under the contract less any participant-directed withdrawals plus accrued interest which has not been received from the issuer. A Security-backed contract, also known as a synthetic GIC or a separate account GIC, is an investment contract issued by an insurance company or other financial institution that is backed by a portfolio of bonds. Security-backed contracts are carried at contract value in the aggregate, which consists of the fair value of the underlying portfolio, accrued interest on the underlying portfolio, and accrued interest on the underlying portfolio assets.

One of the investment options offered by the Plan, the Wells Fargo Stable Return Fund is fully invested in contracts deemed to be fully benefit-responsive. As a result, in accordance with Accounting Standards Codification ("ASC") 946-210, Reporting of Fully Benefit-Responsive Investment Contracts, the Plan reports its investment in the Stable Return Fund at fair value. However, contract value is the relevant measure to the Plan because it is the amount that is available for Plan benefits. In the Statements of Net Assets Available for Benefits, the Stable Return Fund, along with the Plan's other investments, is stated at fair value with a corresponding adjustment to reflect the investment in the Stable Return Fund at contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. The fair value of a wrapper contract provided by a security-backed contract issuer is the present value of the difference between the current wrapper fee and the contracted wrapper fee.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

All GICs and security-backed contracts held in the fund are fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are the responsibility of the Company.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy under Accounting Standards Codification ("ASC") 820-10 that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access and has the highest priority, Level 2 inputs consist of other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.), and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of investments.

Note 3 – Fair Value Measurements (continued)

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There were Level 1 and 2 inputs included for the years ended December 31, 2013 and 2012.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The fair value of U.S Government securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Guaranteed investment contracts are valued at fair value by the insurance company or other financial institution by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Security-backed contracts are carried at contract value in the aggregate, which consists of the fair value of the underlying portfolio, accrued interest on the underlying portfolio, and accrued interest on the underlying portfolio assets. Since participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. The interest crediting rate of security-backed contracts is based on the contract value, and the fair value, duration, and yield to maturity. These accounts are credited with actual earnings on underlying investments and charged for participant withdrawals. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 3 – Fair Value Measurements (continued)

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption under federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The following tables set forth, by level within the fair value hierarchy, those assets measured at fair value on a recurring basis as of December 31, 2013 and 2012:

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

Note 4 - Investments

The following investments represent 5% or more of total plan's net assets as of December 31.

	2013	%	2012	%
Wells Fargo Stable Return Fund	$1,257,736	9.1	$1,154,033	9.8

Total	$7,369,703	53.3	$6,073,161	51.3

As noted in Note 2 above, the Plan invests in a common collective trust fund managed by Wells Fargo Bank, N.A. The Stable Return Fund, which is deemed to be fully benefit-responsive, is stated at fair value on the Statement of Net Assets Available for Benefits, with a corresponding adjustment to reflect contract value. The fair value of this fund as of December 31, 2013 and 2012 was $1,257,736 and $1,154,033, respectively. The contract values of this fund, which is a component of net assets available for benefits, totaled $1,247,754 and $1,154,033 as of December 31, 2013 and 2012, respectively. The primary investment strategy of this fund is to preserve the principal and maintain adequate liquidity.

The yield earned by the fund at December 31, 2013 and 2012 was 1.36% and 0.94%, respectively. This represents the annualized earnings in the fund divided by the fair value of all investments in this fund at December 31, 2013 and 2012, respectively.

The yield earned by the fund with an adjustment to reflect the actual interest rate credited to participants in the fund at December 31, 2013 and 2012 was 1.52% and 1.95%, respectively. This represents the annualized earnings credited to participants in the fund divided by the fair value of all investments in the fund at December 31, 2013 and 2012, respectively.

Note 4 - Investments (continued)

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,283,391 and 940,201 as follows:

	2013	2012
Mutual Funds	$1,298,647	$ 926,970
Common/Collective Trust Fund	1,338	14,531
U.S. Government Securities	(16,594)	(1,300)
Totals	$1,283,391	$ 940,201

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 6 - Tax Status

The Internal Revenue Service determined and informed the Company by letter during the inception of the Plan, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC as of December 31, 2013 and 2012.

The Plan administrator believes the Plan is no longer subject to income tax examinations for the years prior to 2010.

Note 7 – Risks and Uncertainties

The Plan provides for various investment options in mutual funds, common/collective trust funds, and U.S Government securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Investment contracts are exposed to credit risk of the contract issuer and liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products. Due to the level of risk associated with certain investment securities and investment contracts, it is at least reasonably possible that changes in the values of investment securities and investment contracts will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013, to Form 5500:

Net assets available for benefits per the financial statements	$ 13,788,924
Adjustment from fair value to contract value for underlying fully benefit-responsive investment contracts	9,982
