LORD & TAYLOR 401(k) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Lord & Taylor 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General – The Plan is a defined contribution plan available to all employees of Lord & Taylor LLC (the "Company") who have met certain eligibility requirements, as discussed below. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company's Retirement & Investment Committee (the "Committee"), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

Eligibility – An employee becomes eligible to make participant contributions after attaining age 21 and completing six months of service. After one year of service (twelve consecutive months paid and 1,000 hours of service) and attainment of age 21, the employee becomes eligible for Company matching and profit sharing contributions.

If a participant does not make an election with respect to Plan participation, he/she will automatically be enrolled ("auto enrollment") after one year of service, as defined by the plan document, at a rate of 3%. Those contributions will be invested in the Plan's retirement strategy funds.

Contributions – Each year, participants may contribute up to 75% of pretax annual compensation, limited to \$17,500 in 2013, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. The Company matching contributions are funded annually and are discretionary based on performance. For the year ended December 31, 2013, the Company contributed 30% of the first 5% of base compensation that a participant contributed to the Plan.

Participant investment account options – Excluding auto enrollment, participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers 17 mutual funds and four common collective trust accounts as investment options for participants.

During the year ended December 31, 2012, Merrill Lynch closed its propriety common collective trust funds. The Committee elected to replace the funds with funds sponsored by State Street Global Advisors.

LORD & TAYLOR 401(k) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

(1) Description of plan (continued)

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of credited service. A year of credited service is defined by a full calendar year in which the participant is paid for at least 1,000 hours of work.

A participant is 100% vested after six years of credited service.

Payment of benefits – Plan participants or beneficiaries are eligible to receive a benefit payment equal to their vested account balance upon termination of employment, retirement, death or permanent disability, as stipulated in the Plan document. Such benefits shall be made in a lump-sum payment, subject to certain restrictions as defined in the Plan. In-service withdrawals are permitted for those active participants who have attained age 59½. In addition, the Plan permits hardship withdrawals.

Notes receivable from participants – Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates (prime rate plus 1%). Principal and interest is paid ratably through payroll deductions.

Forfeited accounts – At December 31, 2013 and 2012 forfeited non-vested accounts totaled \$122,171 and \$52,823, respectively. These accounts will be used to reduce future employer contributions. Also, during the year ended December 31, 2013, employer contributions were reduced by \$122,171 from forfeited nonvested accounts when funded in 2014.

(2) Summary of significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to

initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The Federated Capital Preservation Fund is a fully benefit-responsive investment contract.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Unit values – Individual participant accounts for the common collective trust funds are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in

administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2013	2012
Federated Capital Preservation Fund (ISP)	\$ 48,455,656	\$ 51,832,334
SSGA S&P 500 Index Fund CL D	36,993,023	29,100,222

SSGA International Index CL D	12,678,684	10,762,413
Invesco Equity & Income Fund	10,821,192	7,821,086

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common collective trusts	\$ 15,810,583
Mutual funds	2,235,804
	<u>\$ 18,046,387</u>

(4) Investment contract

The Plan holds investments in the Federated Capital Preservation Fund, which is a common collective trust fund managed by Federated Investors Trust Company ("Federated"). Federated maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at estimated fair value as provided by Federated.

The adjustment from fair value to contract value for the investment contract is based on the contract value as provided by Federated. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTES TO THE FINANCIAL STATEMENTS

(5) **Information prepared and certified by the trustee**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A. ("Bank of America"), the Plan trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value, except for the Federated Capital Preservation Fund (contract value)
- Notes receivable from participants
- Net appreciation in fair value of investments
- Dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(6) **Fair value measurements**

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

LORD & TAYLOR 401(k) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

(6) Fair value measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. See Note 4.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

The common collective trusts listed in the above charts are redeemed on a daily basis. The Federated Capital Preservation Fund allows participants to make withdrawals for various reasons but may require up to twelve months notice. Additionally, there are no unfunded commitments.

(7) Related party and party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by Bank of America. Bank of America is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to

the third party administrator of \$70,154 for the year ended December 31, 2013 which was not covered by revenue sharing. The Company pays directly any other fees related to the plan's operations.

(8) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(9) Excess contributions refundable

Contributions received from participants for 2013 are net of payments of \$140,030 made in February 2014 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. At December 31, 2013 and 2012, \$140,030 and \$106,766 respectively, have been included in the plan's statements of net assets available for benefits as excess contributions refundable.

(10) Reconciliation of financial statements to Schedule H of Form 5500

Net increase per Schedule H of the Form 5500	<u><u>\$ 18,308,217</u></u>

(11) Tax status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated March 10, 2011, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(12) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statements of net assets available for benefits.

(13) Subsequent events

The Plan has evaluated subsequent events through October 3, 2014, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
