401(k) Retirement Plan
Notes to Financial Statements
December 31, 2013**

1. Description of the Plan

The following description of the Diversified Employee Solutions 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a multiemployer defined contribution retirement plan with a discretionary employer matching contribution that covers all employees who have completed the earlier of 500 hours of service in the first six months of employment (1/2 year) or one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Diversified Employee Solutions provides payroll, workers' compensation, human resources and employee benefit services to employers participating in the Plan. Each employer participating in the Plan is required to use the same Trustee as provided in the Plan.

The Plan was amended on November 30, 2009 to comply with the Pension Protection Act and Heroes Earnings Assistance and Relief Tax Act of 2008.

Contributions:

Participants may elect to defer a portion of their compensation to the Plan subject to an annual maximum amount pursuant to the applicable code section of the Internal Revenue Code limited to the maximum amount allowed by the law, which is \$17,500 for 2013. During 2013, participants over the age of 50 were able to contribute an additional \$5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may elect annually to match the elective deferrals 3% or greater but not more than 6% of the employee's compensation.

The Company may also elect to make a profit sharing contribution without regard to accumulated net profits of the employer. The contribution is allocated in the same ratio of compensation of each eligible participant to total eligible compensation. The Company did not make any profit sharing contributions in 2013.

Funding Policy:

The Company's funding policy is to make the contributions to the Plan as soon as administratively feasible.

Participant Accounts:

Each employee participating in the Plan is given a separate investment account for his or her elective salary deferral, rollovers and for the employer's matching contribution. The accounts are credited for the participant's contributions and the actual earnings thereon and are charged with any applicable expenses.

Vesting:

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the employer matching and profit sharing contribution is based on a six-year graded vesting schedule. A participant is fully vested after six years of service.

**Diversified Employee Solutions
401(k) Retirement Plan
Notes to Financial Statements
December 31, 2013**

Notes Receivable from Participants:

Participants may apply to the Committee to borrow from their fund accounts up to the lesser of \$50,000 or one-half (1/2) of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate. Principal and interest is paid ratably through scheduled payroll deductions.

Payment of Benefits:

On termination of service due to death, disability, or retirement, a participant will receive installment payments or a lump-sum distribution amount equal to the value of the participant's vested interest in his or her account.

Investments:

The Lincoln National Life Insurance Company ("Lincoln"), custodian of the Plan, manages all funds and has been granted non-discretionary authority concerning purchases and sales of investments in the funds.

Forfeitures:

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$1,808 and \$5,437 respectively. These accounts will be used to reduce future discretionary employer contributions and administrative expenses of the Plan. Forfeitures used to reduce employer contributions were \$3,984 in 2013.

2. Summary of Accounting Policies

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Accordingly, actual results may differ from those estimates.

Basis of Accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition:

The investments, investment income, and net appreciation in fair value of investments of these funds (as disclosed in the accompanying financial statements) and the assets held at end of year (as disclosed in the accompanying supplemental schedule) have been reported to the Plan by the custodian as having been determined at their fair values as of the close of business on December 31, 2013. The Plan's investments in pooled separate accounts are stated at estimated fair value based on the fair value of the underlying investments as determined by Lincoln. The Plan's investment in the guaranteed accounts is stated at estimated fair value as determined by Lincoln. Gains and losses are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Loans to Participants:

In accordance with Accounting Standards Update No. 2010-25, Plan Accounting, Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans, participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized during the period in which it is earned.

**Diversified Employee Solutions

Notes to Financial Statements

Payment of Benefits:

Benefits are recorded when paid.

Administrative Expenses:

The Plan uses a Third Party Administrator (TPA), Francis P. Gallagher and Associates, Inc. Fees for TPA services amounted to \$24,554 for the year ended December 31, 2013.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Unaudited Information

The Plan's investments are held by Lincoln National Life Insurance Company, the Custodian, as of December 31, 2013 and 2012. All investment information disclosed in the accompanying financial statements and supplemental schedule was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Lincoln.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A three-level fair value hierarchy has been established that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three levels of inputs used to measure fair value under this accounting standard are described as follows:

Level 1	Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
Level 2	Observable inputs other than quoted prices included within Level 1. Inputs that are principally derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value measurement of the assets or liabilities. These include certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies (mutual funds): Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Common collective trust (stable value fund): Valued at market values of the underlying investments based on information reported by the investment advisor of the common/collective trust at year-end. Contract value approximates fair value at December 31, 2013.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid by the Company or the Plan at the option of the Company.

8. Related Party Transactions and Party In-Interest Transactions

Certain plan investments are pooled separate accounts or guaranteed accounts of Lincoln National Life Insurance Company, which is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services amounted to \$85,987 for the year ended December 31, 2013, included in administrative expenses. The Plan Sponsor pays directly any other fees related to the plan's operations.

9. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

Subsequent events have been evaluated through September 30, 2014, the date which the financial statements were available to be issued.
