KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following brief description of the Knox Community Hospital Tax Deferred Annuity Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more information.

General

The Plan was established by Knox Community Hospital (the "Plan Sponsor") to cover eligible employees. Employees are eligible to participate upon employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

A participant may elect to contribute a portion of their earnings, as defined, each Plan year in a specified percentage or in even dollar increments. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute eligible rollover amounts from other plans. Effective June 1, 2010, a participant may elect to contribute Roth elective deferrals to the Plan. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds and insurance investment contracts as investment options for participants.

Vesting

Participants are immediately vested in their accounts.

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to lesser of \$50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Sponsor, as is reasonable in the prevailing market.

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Payment of Benefits

Participants at retirement will receive a joint and survivor annuity, equal to the value of the participant's vested interest in his or her account. Optionally, a lump sum may be elected within the 90-day period ending on the date payment of benefits is to begin. Other options include life annuity, certain and life annuity, installment and fixed period payment.

Valuation of Investments

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment for the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. No adjustment is necessary to adjust the contract from the contract value to fair value as fair value approximates contract value as reported by the trustees.

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Operating Expenses

Expenses of maintaining the Plan are paid by either the Plan Sponsor or allocated to participant's account based on the participant's account balance.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated events or transactions occurring subsequent to the statement of net assets available for benefits date for recognition and disclosure in the accompanying financial statements through the date of the financial statement are available to be issued which is September 30, 2014.

3. FAIR VALUE MEASUREMENTS

The frame work for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value *measurement*.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There were no transfers between hierarchy levels during 2013 or 2012. The Plan's policy is to recognize transfers, if any, between levels as of the actual date of the event or change in circumstances.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2013 and 2012:

Pooled separate accounts: Represents accumulation units and the value is based on the underlying share values adjusted for dividends, distributions and the daily equivalent of any fee charged by the trustee. The value of each accumulation unit is published each day. Each investment account is exclusively invested in shares of a specific mutual fund as directed by the participant (Level 2).

Insurance contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Insurance Contracts

The Plan has entered into benefit-responsive investment contracts with American United Life Insurance Company (AUL) and Massachusetts Mutual Life Insurance Company (MassMutual). AUL and MassMutual maintain the investments in fixed accounts. These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value, which is an appropriate determination of fair value for the contract as reported to the Plan by AUL and MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

American United Life Insurance Contracts – This is a common/collective trust which invests primarily in a diversified portfolio of insurance company contracts. The contracts are as follows:

- For insurance contract #G62142 and #G62220 fixed account, the average yield was 4.00% for both 2013 and 2012 and the crediting interest rate as of December 31, 2013 and 2012 was 4.00%.
- For insurance contract #B01414 fixed account, the average yield was 3.75% for 2013 and 2012, respectively, and the crediting interest rate as of December 31, 2013 and 2012 was 3.75%.

The MassMutual Retirement Plan Group Contract – This is a common/collective trust which invests primarily in a diversified portfolio of insurance company contracts. The contract is as follows:

- For insurance contract #HL082212 fixed account, the average yield was 4.00% for 2013 and 2012 and the crediting interest rate as of December 31, 2013 and 2012 was 4.00%.

Crediting interest rates are determined by dividing earned income for the day by the new contract value. On December 31, 2013 and 2012, fair value approximates contract value and there are no valuation reserves.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include plan termination. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. INVESTMENTS

Investments that represent five percent or more of the Plan's net assets available for benefit are separately identified and presented in the following table:

	2013	2012

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

The Plan has investments at AUL and MassMutual (the trustees) whereby contributions are remitted and invested. The accounts are credited with actual earnings on the underlying investments and charged for plan withdrawals. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from AUL and MassMutual that the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments, interest income, net appreciation (depreciation) in investments and information in the supplemental schedule is presented in reliance solely upon those certifications.

5. TAX STATUS

The Internal Revenue Service (IRS) intends to establish its determination letter program for 403(b) plans. As the program has yet to be established, the Plan has not submitted its plan document to the IRS to obtain a determination letter. However, the plan administrator believes that the Plan document currently satisfies the “good faith document requirement” and will submit its plan document when the program is developed by the IRS. Furthermore, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan investments are managed by American United Life (AUL) and Massachusetts Mutual Life Insurance Company (MassMutual). Blue & Co., LLC serves as the Plan’s auditors. These transactions qualify as party-in-interest transactions.

KNOX COMMUNITY HOSPITAL TAX DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
