KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following brief description of the Knox Community Hospital Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more information.

General

The Plan is a defined contribution money purchase pension plan covering employees of Knox Community Hospital (the "Hospital"), including employees of Bert W. Martin Memorial Hospital and Mercy Hospital, or any other successor corporation by merger, purchase or otherwise.

Eligibility

Employees are eligible to participate after attaining the age of 21 and completing one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Hospital contributes 3% of eligible participants' compensation to the Plan. On behalf of each participant's elective deferral contribution made under the Tax Deferred Annuity Plan, the Hospital contributed a matching contribution equal to 50% of such participants' elective deferral contribution up to 6% of participants' compensation. Effective January 15, 2013, the Hospital no longer contributes a matching contribution under this Plan. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant Accounts

The American United Life Insurance Company maintains individual accounts for each participant. Each participant's account is credited with an allocation of:

- a. The Hospital's contribution
- b. Plan earnings

Allocations are based on participant compensation or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Vesting

Vesting is based on years of service. A participant is 100 percent vested after six years of credited service.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Plan.

Benefit Payments

Upon retirement, a participant shall receive an annuity, lump sum, or installment as described in the Plan agreement. If a participant terminates employment, he or she shall be entitled to a retirement benefit beginning on his or her normal retirement date.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$96,707 and \$99,079 respectively. These accounts are used to reduce employer contributions.

Insurance Contracts

In 1980, the Plan entered into two benefit-responsive investment contracts with AUL. AUL maintains the investments in the fixed account and alternate fixed fund contracts. These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value which is equal to fair market value as reported to the Plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

American United Life Insurance Contracts – This is a common/collective trust which invests primarily in a diversified portfolio of insurance company contracts. The contracts are as follows:

- For insurance contract #62142 fixed account, the average yield was 4.00% for both 2013 and 2012, and the crediting interest rate as of December 31, 2013 and 2012 was 4.00%.

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

- For insurance contract #62142 alternate fixed fund, the average yield was 3.75% for both 2013 and 2012, and the crediting interest rate as of December 31, 2013 and 2012 was 3.75%.

Crediting interest rates are determined daily by dividing earned income for the day by the new contract value. The insurance contracts are valued at contract value because they are fully benefit-responsive. On December 31, 2013 and 2012, there are no valuation reserves.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Insurance Contracts

A single premium to purchase an annuity for a retiring participant is withdrawn from the Plan's assets. Purchased annuities are contracts under which the insurance company is obligated to pay benefits to named participants or their beneficiaries. The insurance contracts are excluded from the Plan's assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments

Investments in registered investment companies are carried at fair value as determined by quoted market prices. Shares of pooled separate accounts are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Gains and losses realized upon the sale of a security are calculated by the average cost method. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) in fair value of investments include the Plan's gains and losses on investments bought and sold as well as held during the year.

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain 2012 amounts have been reclassified to conform to the 2013 presentation in the accompanying financial statements. Such reclassifications did not impact the 2012 change in net assets available for benefits.

Subsequent Events

The Plan has evaluated events or transactions occurring subsequent to the statement of net assets available for benefits date for recognition and disclosure in the accompanying financial statements through the date the financial statements are issued, which is September 30, 2014.

3. PLAN TERMINATION

Although it has not expressed intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

4. TAX STATUS

The Internal Revenue Service has determined and informed the Plan, by letter, dated July 6, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes it is no longer subject to income tax examinations for years prior to 2010.

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

All Plan investments are maintained by American United Life under a deposit contract with the Plan. Certain administrative expenses, including costs to prepare the annual IRS Form 5500 and the audit of the annual financial statements, are paid by the Plan's sponsor. Blue & Co. is the Plan Auditor.

6. INVESTMENTS

The Plan has investments managed by the American United Life Insurance Company (Custodian) whereby all the Hospital contributions are remitted to the custodian and invested. The accounts are credited with actual earnings on the underlying investments and charged for plan withdrawals. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certification from the Custodian of the Plan that all the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments, interest and dividend income, net appreciation/ (depreciation) in fair value of investments and all information in the supplemental schedule is presented in reliance solely upon those certifications.

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Investments that represent five percent or more of the Plan's net assets available for benefit are separately identified and presented in the following table:

		2013	2012
American United Life	Fixed Account (G62142)	\$ 3,060,683	\$ 3,239,573
American United Life	Alternate Fixed Fund (G62142)	3,145,425	3,577,262
American United Life	State Street Equity 500 Index	1,533,855	1,235,917
American United Life	Fidelity VIP Contra Fund	2,071,288	1,642,526

American United Life	PIMCO Total Return	*	1,733,993
American United Life	Goldman Sachs Small Cap Value Fund	1,388,257	*
American United Life	Goldman Sachs Mid Value Fund	1,936,789	*

* Less than 5% of net assets available for benefits.

The Plan has a benefit-responsive investment contract with American United Life Insurance Company ("AUL"). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 1, because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than 4% as of December 31, 2013. Such interest rates are reviewed on an annual basis for resetting.

The investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates.

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

The frame work for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value *measurement*.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There were no transfers between hierarchy levels during 2013 or 2012. The Plan's policy is to recognize transfers, if any, between levels as of the actual date of the event or change in circumstances.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2013 and 2012:

Pooled separate accounts: Represents accumulation units and the value is based on the underlying share values adjusted for dividends, distributions and the daily equivalent of any fee charged by the trustee. The value of each accumulation unit is published each day. Each investment account is exclusively invested in shares of a specific mutual fund as directed by the participant (Level 2).

KNOX COMMUNITY HOSPITAL EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Insurance contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments which comparable durations considering the credit-worthiness of the issuer (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013	Level 1	Level 2	Level 3	Total

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
