Notes to Financial Statements

December 31, 2013

NOTE 1 - ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The change in the difference between current value and the cost of investments together with realized gains and losses on investments sold and interest income earned during the year is reflected in the statement of changes in net assets available for Plan benefits. See Note 3.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution, Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in Common Collective Trust (CCT) investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - DESCRIPTION OF THE PLAN

The following is a brief description of the Plan and is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan covering substantially all employees of Lord & Sons, Inc. (Lord & Sons). Employees of Lord & Sons who have one year of service, worked 1,000 hours and are age twenty-one or older are eligible to participate in the Plan. The primary purpose of the Plan is to provide participants with the opportunity to accumulate funds for their retirement, and to provide benefits in the event of disability or death. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

NOTE 2 - DESCRIPTION OF THE PLAN (continued)

Administration: The Plan is sponsored and administered by Lord & Sons. The appointed trustees are officers or employees of Lord & Sons. Lord & Sons has retained the services of Ameritas as the Plan's contract administrator. Costs of administering the Plan are paid by the Plan.

Contributions: The Plan is designed to qualify as a "Safe Harbor 401(k) Plan". As a Safe Harbor 401(k) Plan, Lord & Sons will provide a special Safe Harbor matching contribution to the Plan for those participants who satisfy the eligibility requirements applicable to such Safe Harbor matching contributions. Participants may contribute to the Plan through salary deferrals up to an annual maximum as defined by law. Lord & Sons may also make discretionary or non-elective contributions from time to time. During the year ended December 31, 2013, Lord & Sons made total contributions of $108,006.

Vesting: Participants are immediately vested 100% for their elective contributions. Any Safe Harbor or discretionary contributions by Lord & Sons become vested as follows:

Years of Vesting Service	Vested Percentage
0-1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Distributions: In the event of death, disability, retirement or termination of service, a participant's vested interest in the Plan will be distributed to the participant or their beneficiary in the form of a lump sum payment.

Investments: Each participant is allowed to direct their contributions and any Safe Harbor or discretionary contributions by Lord & Sons into any of the various investment options offered by the Plan. Participants may change their investment options once per calendar quarter. These options consist of various mutual funds and insurance company general accounts with various degrees of risk.

Termination: Although termination of the Plan is not presently contemplated, Lord & Sons has the right to terminate the Plan at any time. In the event of Plan termination, each participant affected by the termination shall become 100% vested in their respective investments, including all employer contributions.

NOTE 2 - DESCRIPTION OF THE PLAN (continued)

Ameritas is a party-in-interest to the Plan under the ERISA. A party-in-interest is broadly defined under ERISA to include a fiduciary, any employer, or any person providing services to the Plan, and any officer, director or 10% or more shareholder of any such employer.

Investment securities, such as the mutual funds listed above, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

NOTE 4 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2012, net appreciation or depreciation in fair value of investments, and interest and dividend income for the year then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Ameritas, the trustee of the Plan.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date of the Independent Auditor’s Report, which is the date the financial statements were available to be issued.

NOTE 7 - FAIR VALUE MEASUREMENTS

FASB Statement No. 157, Fair Value Measurements provides a framework for measuring fair value under U.S. generally accepted accounting principles. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

NOTE 7 - FAIR VALUE MEASUREMENTS (continued)

The following provides a general description of the three levels of inputs that may be used to measure fair value under FASB 157:

> Level 1 - Inputs to the valuation methodology are based on quoted prices available in active markets for identical assets or liabilities on the reporting date.
>
> Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 - Inputs to the valuation methodology include significant inputs that are generally unobservable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value including assumptions regarding risk. Level 3 instruments include those that may be more structured or otherwise tailored to the Plan's needs.

As required by FASB No. 157, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value.

> Mutual funds and insurance company general accounts are valued at the market value of shares held by the Plan at year-end.
>
> Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies for assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
