Note A – Description of Plan

The following description of the DDi Global Corp. 401(k) Plan (the "Plan") provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of DDi Global Corp. and subsidiaries (the "Company") who meet eligibility requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

On March 1, 2013, Bank of America, N.A. ("BOA") became the new recordkeeper and trustee for the Plan. Prior to this date, Great-West Life & Annuity Insurance Company ("Great West") acted as the Plan's recordkeeper and trustee.

On December 31, 2013, the Plan was merged into the Viasystems Retirement Savings Plan. See Note J for a discussion of the merger and related transfer.

Eligibility

All full and part-time employees who are residents of the United States are eligible to participate in the Plan once they have attained age 18 and completed one hour of service. Employees may enter the Plan on the date coinciding with or next following the date eligibility requirements have been satisfied.

Contributions

Each year, participants may contribute up to 50% of annual compensation, as defined in the Plan, not to exceed certain dollar limits established by the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Any eligible employee who fails to file a salary deferral agreement with the Plan Administrator is deemed to have entered into a salary deferral agreement for the Plan year which authorizes the employer to withhold 3% of his or her compensation as an elective deferral.

Note A – Description of Plan (Continued)

Contributions (Continued)

During the year ended December 31, 2012, the Company could elect to make a discretionary matching contribution for the Plan year or other contribution period. The discretionary matching contribution could be made in a specific dollar amount and/or any specific percentage of elective deferrals, as determined by the Company. During 2012, the Company did not elect to make a discretionary matching contribution.

Effective March 1, 2013, as part of the switch to BOA, the Plan was amended to allow for a Company matching contribution of 50% of a participant's contribution on their first 3% of eligible compensation that a participant contributes to the Plan. Additionally, the Company may make a discretionary profit sharing contribution at the option of the Company's board of directors.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest ratably over a three year period. Participants become 100% vested in all employer contributions if they become totally disabled, die or reach normal or early retirement age prior to termination of employment.

Forfeited Accounts

Benefits forfeited by participants are used to defray any expenses associated with the Plan or to reduce future Company contributions to the Plan. Forfeitures utilized during the years ended December 31, 2013 and 2012 amounted to $36,075 and $15,335, respectively. As of December 31, 2013, forfeited non-vested accounts totaled $57,750. These amounts were included in the Plan transfer-out. At December 31, 2012, forfeited non-vested accounts totaled $54,612.

Note A – Description of Plan (Continued)

Payments of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, or annual installments.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates based upon prevailing market rates for loans of similar purpose and duration as determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Administrative Expenses

The Plan's administrative expenses such as trustee, custodial, audit, and legal fees are paid from the assets of the Plan to the extent not paid by the Plan Sponsor. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation in fair value of investments.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B – Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator and management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued.

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Great West for the year ended December 31, 2012 and for the period through February 28, 2013, and from BOA for the period March 1, 2013 through December 31, 2013 that all the information provided by Great West and BOA included in the accompanying financial statements is complete and accurate. Information as to the investments in the accounts of Great West and BOA, investment income, and all investment information appearing in the accompanying statements are presented in reliance solely upon these certifications.

Note C – Investments (Continued)

The following investments represent 5% or more of the Plan's net assets at December 31:

	2013	2012
American Funds American Balanced R4 Fund	**$** -	$ 2,071,361
American Funds Capital World G/I R4 Fund	-	2,739,664
American Funds Fundamental Investors R4 Fund	-	1,814,637
Columbia Mid Cap Value Opportunity K Fund	-	1,585,087
Great West Key Guaranteed Portfolio Fund	-	4,204,718
Vanguard Small Cap Index Inv Fund	-	1,681,605

During the years ended December 31, 2013 and 2012, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $3,154,191 and $2,129,376, respectively.

Note D – Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note D – Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments considering the credit-worthiness of the issuer (See Note E).

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As a result of the Plan merger (See Note J), there were no investments in the Plan as of December 31, 2013.

Note D – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

Investments at Fair Value

Note E – Guaranteed Interest Account

At December 31, 2012, the Plan had an investment in a fully benefit-responsive investment contract noted in the financial statements as the Key Guaranteed Portfolio Fund, with Great West. Great West maintained the contributions in a general account, which was credited with earnings and charged for participant withdrawals and administrative expenses. The investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The investment contract was included in the financial statements at fair value which approximates contract value.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. The Plan Administrator did not believe that the occurrence of any such event, which would have limited the Plan's ability to transact at contract value with participants, was probable. The contract was terminated during the Plan year ended December 31, 2013.

Note E – Guaranteed Interest Account (Continued)

The credited interest rate was based on a formula agreed upon with Great West. Such interest rate was reviewed on a quarterly basis for resetting. The crediting rate of the product was established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The average yield earned by the Plan for the investment contract was derived by averaging the quarterly gross interest rates for the fund over the year. The average yield and crediting interest rate was 1.45% for the year ended December 31, 2012.

Note F – Tax Status

The IRS has determined and informed the Company by a letter dated July 8, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note G – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur.

Note H – Transactions With Parties-in-Interest

During the year ended December 31, 2012 and part of 2013, the Plan had an investment in a guaranteed interest account which was part of the general assets of Great West. Great West was the trustee, as defined by the Plan. These transactions qualified as party-in-interest transactions. Fees paid by the Plan for services during 2013 and 2012 amounted to $4,800 and $22,637, respectively.

During 2013, certain Plan investments were shares of mutual funds and a collective trust management by BOA. BOA is the trustee, as defined by the Plan and, therefore these transactions qualify as party-in-interest transactions.

Note I – Late Deposits

Lost earnings for late deposits totaling $5,212 were deposited to the trust prior to December 31, 2013.

Note J – Plan Merger

On December 31, 2013, the DDi Global Corp. 401(k) Plan was merged into the Viasystems Retirement Savings Plan. The total amount transferred was $28,714,526.
