DAIFUKU WEBB GROUP EMPLOYEES' RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan

The following description of the Daifuku Webb Group Employees' Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, which was established as of January 1, 1985. Employee participation in the Plan is voluntary. The Plan's investments are managed by the Trustee, Merrill Lynch Bank & Trust Company (Merrill Lynch), a subsidiary of Bank of America, N.A., and disbursed to specific investments in proportions directed by each participant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute a percentage of their compensation, subject to limitations as defined in the Plan document. Participants may also contribute amounts representing distributions from other qualified plans ("rollover contributions"). The Daifuku Webb Group (the "Company") may make a matching contribution to the Plan in an amount equal to 100% of the first 3% of employee contributions for salaried employees other than former Elite Line Services employees. Former Elite Line Services salaried employees receive an employer match of 50% of the first 4% of employee contributions. For hourly employees, the Company participates in an employer match as dictated by the collective bargaining agreement reached between management and individual unions of each participating location.

Vesting

Participants' contributions and related earnings are fully vested at all times and are not subject to forfeiture for any reason. All active participants in the Plan as of December 31, 2010 continue to be 100% vested in employer matching contributions. New participants on or after January 1, 2011 are subject to a 5-year graded vesting schedule for employer matching contributions. Company contributions for hourly employees are subject to a 7-year graded vesting schedule.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

DAIFUKU WEBB GROUP EMPLOYEES' RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Notes Receivable from Participants

Participants may borrow from their accounts a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Furthermore, no loan may be less than \$1,000. The participant may have two loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%. Interest rates are determined based on the prime rate plus 1 percent on the date the loan is issued.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 65 and early retirement on or after attaining age 55. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event the Company discontinues the Plan, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in accordance with the terms set forth in the Plan agreement.

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses.

Reclassification

For comparability, certain 2012 amounts have been reclassified to conform with classifications adopted in 2013.

Excess Contributions

Elective wage deferrals in excess of allowable statutory amounts that were contributed to the Plan, and were refunded to the participants within 2 1/2 months following the Plan year-end as corrective distributions, are reflected herein as excess contributions payable to participants.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

DAIFUKU WEBB GROUP EMPLOYEES' RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation (depreciation) of investments included in the accompanying statements of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

The plan invests in collective trust funds that determine their fair value using the net asset value (NAV) of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. The balance of forfeited nonvested account balances at December 31, 2013 and December 31, 2012 were \$88,883 and \$53,643, respectively. These amounts will be used to fund future administrative expenses or to reduce future employer contributions.

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited

Net appreciation in fair value of investments	\$ 9,160,522
Dividends and interest	2,057,393
Common Collective Trusts	
Dividends	95,721
Participant Notes Receivable	
Interest	<u>47,090</u>
Net Investment Income Certified by Trustee	<u>\$11,360,726</u>

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting standards which provide a framework for measuring, reporting, and disclosing fair value under GAAP. These regulations apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 4 - Fair Value of Financial Instruments (cont.)

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Common/Collective trust - The Stable Value Fund's investment objective is to preserve invested capital while providing a competitive rate of return. The net asset value (NAV) of \$1 per unit is based on the underlying assets in the fund. The underlying assets are composed of Level 1 and Level 2 investments and therefore since the net asset value (NAV) of the fund is not publicly quoted, management believes it is appropriate to classify this as a Level 2 investment.

The plan's investments include a common/collective trust which is a stable value retirement fund categorized as Level 2. The trust's primary investment objectives are to seek preservation of principal and provide interest income reasonably obtained prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

The net unit values of the tiers of the Trust are determined as of the close of each business day. In accordance with the terms of the Trust Agreement, participant units are issued and redeemed only at the end of each day and at the net unit value at contract value, provided that redeeming participant plans comply with a required one-year notice provision. Effective May 1, 2013, the required one-year notice provision was changed to a two-year provision. When the market value of units is less than their contract value, participant plans may also elect to withdraw units at their fair market value upon 10 days' notice.

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 5 - Tax Status

The prototype plan upon which this Plan is based obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 6 - Parties-In-Interest

Certain Plan investments are shares of mutual funds managed by the Trustee; therefore, these transactions qualify as party-in-interest transactions. These transactions are not prohibited by the Employee Retirement Income Security Act of 1974. Fees paid by the Plan for investment management services to the trustee were netted against investment income during the year-ended December 31, 2013.

NOTE 7 - Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's Form 5500 has been prepared on the modified cash-basis method of accounting. The reconciliation between the financial statements and Form 5500 is as follows:

	<u>2013</u>	<u>2012</u>
Total net assets per Form 5500, Schedule H	\$ 70,215,502	\$ 56,838,530

NOTE 8 - Stable Value Fund

A portion of the Plan's investments are maintained in a common/collective trust, as follows:

Invesco Stable Value Trust

The common/collective trust investments in this fund are trustee by Invesco National Trust Company ("Invesco"). Investments include fixed income securities, as well as security investment contracts ('wrap agreements') issued by banks and insurance companies. The investment contracts provide that the adjustments to the income crediting rate (which is the rate earned by investors in the fund) will not result in a rate less than zero. In addition to the current primary strategy of combining an actively managed fixed income portfolio with investment contracts, the fund may also invest in guaranteed investment contracts (GIC's). The fund's assets are valued and reported pursuant to standards of financial accounting and reporting applicable to reporting for fully benefit-responsive investment contracts. The fund's primary investment objectives are to seek preservation of principal and provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

The value of Plan assets is reflected in the accompanying financial statements at contract value, which approximates fair value, as reported to the Plan by Invesco. Certain events may limit the ability of the Plan to transact at Plan value with Invesco; however, the Plan administration believes it is probable that the Plan will be able to transact at contract value with participants.

Invesco is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are typically reviewed on a monthly or quarterly basis for resetting according to each contract.

The fund's yields were as follows:

	<u>2013</u>	<u>2012</u>
Based on actual earnings (1)	1.28%	1.51%
Based on interest rate credited to participants (2)	1.27%	1.69%

(1) Computed by dividing the annualized earnings of all investments of the contract by the fair market value of all investments of the contract.

(2) Computed by dividing the annualized earnings credited to participants of the contract by the fair value of all investments of the contract.

NOTE 9 - Delinquent Transmittals

During 2013, the Plan sponsor failed to remit all employee contributions and loan repayments to the Plan on a timely basis. The Plan sponsor has calculated the lost earnings to the participants of approximately \$1,600 and contributed that amount to the plan in September 2014.
