NOTES TO FINANCIAL STATEMENTS

December 31, 2013

Note 1 – DESCRIPTION OF PLAN

The following description of the Leif Johnson Ford II, LTD ("Company") 401(k) Salary Reduction Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan began operation during 1989.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty and one-half or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan accounting is done by an independent actuarial firm and is overseen by the Plan trustees.

Contributions. Each year, participants may contribute up to $17,500 of pretax annual compensation plus catch-up contributions (as applicable) or up to $17,500 of after-tax salary deferrals plus catch-up contributions commonly known as "Roth" deferral contributions, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in any of the investment options of John Hancock Life Insurance Company. Participants may change their investment options at any time.

Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a life annuity, a period certain and life annuity or a joint and survivor annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

The Plan has evaluated subsequent events through September 10, 2014, the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

As described in FASB *ASC 962*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive if they were to initiate permitted transactions under the terms of the Plan. As required by FASB *ASC 962*, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the Plan.

Note 3 - FAIR VALUE MEASUREMENTS

FASB *ASC 820, Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB *ASC 820* are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.
Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.
Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - FAIR VALUE MEASUREMENTS, continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Note 4 - INVESTMENTS

The Plan's investments are held in a Pooled Separate Account by the custodian of the Plan. The custodian of the Plan was John Hancock Life Insurance Company on December 31, 2013 and 2012. The following presents investments at December 31, 2013 and 2012 that represent 5% or more of the Plan's net assets. Values have been measured by quoted prices in an active market.

During 2013, the Plan's investment in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated <depreciated> in value by $786,829.

Note 5 - INVESTMENT OPTIONS WITH INSURANCE COMPANY

In 2010, the Plan entered into guaranteed interest investment options with John Hancock Life (USA). The guaranteed interest investment options are shown collectively as "John Hancock Investment Options" in Note 3. The investment options include a 3 year investment which guarantees the return of principal plus compound interest earned over a defined 3 year term, less any applicable contract or participant level recordkeeping changes. Interest rates are generally established on the first day of each calendar month. At the end of each reporting year, a "composite rate" of interest is determined for each participant account. The participant's contributions continue to earn the calculated composite interest rate for the duration of the guarantee period.

Note 6 – PLAN TERMINATION

Although it has not expressed an intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The distribution method is one of three as chosen by the employer:

A. The assets to be paid out as soon as possible
B. The assets held and paid out as part the plan regular provisions
C. The participant chooses either A or B.

Note 7 – TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United Sates of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain position taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the custodians.

	2013	2012
Investments at fair value	**$ 6,079,388**	$ 4,796,476
Total Additions	**1,462,370**	1,036,165
Total Deductions	**179,458**	515,397

Note 9 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the custodian as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $994 and $1,378 for the years ended December 31, 2013 and 2012, respectively.

The Plan is required to have an annual audit. Historically, the plan sponsor has paid for the audit fee. However, beginning in 2007 the Plan began paying the audit fee. The sponsor pays the accounting firm the audit fee and then requests reimbursement from the Plan. These transactions qualify as exempt party-in-interest transactions. The accounting firm, Sundberg, Martinelli, Novy & Ward performs the audits on the Plan. For the year ended December 31, 2013, the sponsor paid the auditing fee for the plan.

In addition, the plan has engaged Scholz, Klein and Friends Enlightened Retirement Group, Inc. to provided administrative services. These transactions qualify as exempt party-in-interest transactions. Fees paid by the plan for the administrative services amounted to $16,914 and $12,527 for the years ended December 31, 2013 and 2012, respectively.

Note 10 - RISKS AND UNCERTAINTIES

The Plan invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
