INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Advanced Concepts Enterprises, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3, 4 and 5, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplementary schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule of assets held for investment purposes, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplementary schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations
The form and content of the information included in the financial statements and supplementary schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Advanced Concepts Enterprises, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the summary plan description of the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a voluntary defined contribution plan available to all employees of Advanced Concepts Enterprises, Inc. (the Company), except for union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining and certain other excluded employees. There is no minimum age requirement for employees to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a minimum of 1% and up to a maximum of 86% of pre-tax and after-tax annual compensation, as defined in the Plan, not to exceed the maximum allowed under IRS Code 415(d). Participants are automatically enrolled at a 1% contribution rate unless they elect to enroll at a different rate or decline enrollment. The Company may elect to make discretionary profit sharing contributions. The profit sharing contribution is allocated among all participants based on the ratio which each participant's annual compensation bears to the total compensation for all eligible participants. In 2013, the Company did not make a discretionary profit sharing contribution.

Contributions are limited by federal tax legislation. The limits for 2013 and 2012 401(k) employee contributions are $17,500 and $17,000, respectively, per participant.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, if any, and (b) Plan net earnings. Allocations are based on participant contributions, compensation, or account balances, as applicable and pursuant to the terms of the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, the Company's contributions, any discretionary profit sharing contribution, as well as earnings on those contributions.

Participant Investment Options

Participants must direct their salary deferred contributions from several investment options offered through Plan Custodian, Wells Fargo Bank, N.A., as made available and determined

1. DESCRIPTION OF THE PLAN - CONTINUED

Participant Investment Options-continued
by the Plan Administrator. Those investment options consist of value of interest in registered investment companies and common/collective trusts. Value of interest in registered investment companies are units of participation that the Plan has in the underlying assets of the mutual fund. The plan's interest in the value of interest in common/collective trusts are valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year- end.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment account and the Participant Loans account. Loan terms may range from one to five years, except those loans used to acquire or construct any dwelling unit to be used as a primary residence. The participant may only have up to two loans outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at Wells Fargo's prime lending rate plus 2.00% (5.25% at December 31, 2013 and 2012). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
Upon termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution or partial withdrawals. A participant may choose to leave the vested interest in the plan if such amounts exceed $5,000. Participants with vested account balances below $5,000 but above $1,000 will be given a 90 day grace period prior to funds being automatically distributed. Vested account balances below $1,000 will be automatically distributed without the consent of the participant. Funds may also be accessed prior to the date they become distributable by way of a financial hardship withdrawal. Hardship withdrawals are allowable in accordance with current Internal Revenue Service guidelines.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with the accounting principles generally accepted in the United States of America.

Certain provisions of the Accounting Standards Codification (the “ASC”) require investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. One of the investment options in which participants may direct the investment of their accounts, the Wells Fargo Stable Value Fund N60, is a collective investment trust and holds fully benefit-responsive investment contracts

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Basis of Presentation-continued
subject to the provisions of the ASC. As required by the guidance, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Dividends are recorded on the ex- dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Contributions
Contributions from participants and Company-matching contributions are recorded in the period in which the Company makes the deductions from the employees’ payroll. Rollover contributions are recorded as Plan contributions during the period in which the funds are received by the Plan.

Payment of Benefits
Benefits to participants are recorded when paid.

Administrative Expenses
Administrative expenses are paid by the Company, rather than the participants.

Subsequent Events
The Company has evaluated events and transactions that occurred between December 31, 2013, and September 4, 2014, which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012.

- *Value of interest in registered investment companies*: The fair value of values of interest in registered investment companies is based on the net asset value per unit as determined by the Custodian. The net asset value per unit is derived using the market approach by determining the market value of the underlying investments.

- *Value of interest in common/collective trusts (excluding the Stable Value Fund):* Valued at the net asset value (NAV) of shares held by the Plan at year end. Others are valued at the closing NAV (or unit value) of the units held by the Plan at year end based on information reported by the investment advisor using the audited financial statement of the collective trust at year-end.

- *Stable Value Fund*: Valued at the NAV of units held by the Plan based on the fair value of underlying investments. The fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide

3. FAIR VALUE MEASUREMENTS - CONTINUED

a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of a fixed-income security or portfolio of fixed-income securities and a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. When available, the fair value of securities is based on quoted prices of identical assets in active markets. When quoted prices are not available, the priority is to obtain prices from third-party pricing methodologies and to confirm they are utilizing observable market information. The methodologies vary by asset class and include inputs, such as estimated cash flows, benchmark yield, reported trades, broker quotes, credit quality, industry events and economic events. Several factors are considered in determining the fair value of the guaranteed investment contracts, including the benefit responsiveness of the contracts, the ability of the parties to the investment contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of any underlying securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

4. INVESTMENT CONTRACTS

The Plan invests in the Wells Fargo Stable Value Fund N60, a collective trust fund which invests in investment contracts and security-backed contracts, that is fully benefit-responsive. As described in Note 2, because the collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The collective trust fund is included in the financial statements at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013, was $223,142 ($68,819 at December 31, 2012). The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

The average yield based on actual earnings represents the annualized earnings of all investments in the Wells Fargo Stable Value Fund N60, including the earnings recorded in the underlying collective trust funds divided by the fair value of all investments in the Fund at December 31, 2013 and 2012. The average yield based on interest rate credited to participants represents the annualized earnings credited to participants in the Wells Fargo Stable Value Fund N60, divided by the fair value of all investments in the Fund at December 31, 2013 and 2012. The average yields for the years ended December 31, 2013 and 2012, are as follows:

Average Yields	2013	2012
Based on actual earnings	1.36%	0.94%
Based on interest rate credited to participants	1.52%	1.95%

5. INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements and supplementary schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee of the Plan.

The plan administrator has obtained certifications from Wells Fargo Bank, N.A. that the information provided by the trustee related to the above investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's

5. INVESTMENT INFORMATION - CONTINUED

Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in this note and the supplementary schedule.

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	2013	2012
Balanced Fund (Class R3)	$ 199,708	$ 168,797
Overseas Fund Class S	-	157,445
Total Return Fund (Class A)	393,503	563,673

Advantage Growth Adm	177,017	207,970
Stable Return Fund N60	223,141	-

During the year ended December 31, 2013, the Plan’s investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Value of interest in registered investment companies	$ 284,039
Value of interest in common/collective trusts	40,142
Net appreciation in fair value of investments	$ 324,181

6. RELATED PARTY TRANSACTIONS

Certain Plan registered investments funds are managed by Wells Fargo Bank, N.A. as of and for the years ended December 31, 2013 and 2012. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amount to $10,830 for the year ended December 31, 2013.

7. TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan’s tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

7. TAX STATUS - CONTINUED

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts in accordance with the terms and provisions of the Plan**.**

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2013 and 2012, to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 3,034,618	$ 2,917,617

1. DESCRIPTION OF THE PLAN

The following description of the Advanced Concepts Enterprises, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the summary plan description of the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a voluntary defined contribution plan available to all employees of Advanced Concepts Enterprises, Inc. (the Company), except for union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining and certain other excluded employees. There is no minimum age requirement for employees to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a minimum of 1% and up to a maximum of 86% of pre-tax and after-tax annual compensation, as defined in the Plan, not to exceed the maximum allowed under IRS Code 415(d). Participants are automatically enrolled at a 1% contribution rate unless they elect to enroll at a different rate or decline enrollment. The Company may elect to make discretionary profit sharing contributions. The profit sharing contribution is allocated among all participants based on the ratio which each participant's annual compensation bears to the total compensation for all eligible participants. In 2013, the Company did not make a discretionary profit sharing contribution.

Contributions are limited by federal tax legislation. The limits for 2013 and 2012 401(k) employee contributions are $17,500 and $17,000, respectively, per participant.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, if any, and (b) Plan net earnings. Allocations are based on participant contributions, compensation, or account balances, as applicable and pursuant to the terms of the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, the Company's contributions, any discretionary profit sharing contribution, as well as earnings on those contributions.

Participant Investment Options

Participants must direct their salary deferred contributions from several investment options offered through Plan Custodian, Wells Fargo Bank, N.A., as made available and determined

1. DESCRIPTION OF THE PLAN - CONTINUED

Participant Investment Options-continued
by the Plan Administrator. Those investment options consist of value of interest in registered investment companies and common/collective trusts. Value of interest in registered investment companies are units of participation that the Plan has in the underlying assets of the mutual fund. The plan's interest in the value of interest in common/collective trusts are valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year- end.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment account and the Participant Loans account. Loan terms may range from one to five years, except those loans used to acquire or construct any dwelling unit to be used as a primary residence. The participant may only have up to two loans outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at Wells Fargo's prime lending rate plus 2.00% (5.25% at December 31, 2013 and 2012). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
Upon termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution or partial withdrawals. A participant may choose to leave the vested interest in the plan if such amounts exceed $5,000. Participants with vested account balances below $5,000 but above $1,000 will be given a 90 day grace period prior to funds being automatically distributed. Vested account balances below $1,000 will be automatically distributed without the consent of the participant. Funds may also be accessed prior to the date they become distributable by way of a financial hardship withdrawal. Hardship withdrawals are allowable in accordance with current Internal Revenue Service guidelines.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with the accounting principles generally accepted in the United States of America.

Certain provisions of the Accounting Standards Codification (the “ASC”) require investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. One of the investment options in which participants may direct the investment of their accounts, the Wells Fargo Stable Value Fund N60, is a collective investment trust and holds fully benefit-responsive investment contracts

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Basis of Presentation-continued
subject to the provisions of the ASC. As required by the guidance, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Dividends are recorded on the ex- dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Contributions
Contributions from participants and Company-matching contributions are recorded in the period in which the Company makes the deductions from the employees’ payroll. Rollover contributions are recorded as Plan contributions during the period in which the funds are received by the Plan.

Payment of Benefits
Benefits to participants are recorded when paid.

Administrative Expenses
Administrative expenses are paid by the Company, rather than the participants.

Subsequent Events
The Company has evaluated events and transactions that occurred between December 31, 2013, and September 4, 2014, which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012.

- *Value of interest in registered investment companies*: The fair value of values of interest in registered investment companies is based on the net asset value per unit as determined by the Custodian. The net asset value per unit is derived using the market approach by determining the market value of the underlying investments.

- *Value of interest in common/collective trusts (excluding the Stable Value Fund):* Valued at the net asset value (NAV) of shares held by the Plan at year end. Others are valued at the closing NAV (or unit value) of the units held by the Plan at year end based on information reported by the investment advisor using the audited financial statement of the collective trust at year-end.

- *Stable Value Fund*: Valued at the NAV of units held by the Plan based on the fair value of underlying investments. The fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide

3. FAIR VALUE MEASUREMENTS - CONTINUED

a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of a fixed-income security or portfolio of fixed-income securities and a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. When available, the fair value of securities is based on quoted prices of identical assets in active markets. When quoted prices are not available, the priority is to obtain prices from third-party pricing methodologies and to confirm they are utilizing observable market information. The methodologies vary by asset class and include inputs, such as estimated cash flows, benchmark yield, reported trades, broker quotes, credit quality, industry events and economic events. Several factors are considered in determining the fair value of the guaranteed investment contracts, including the benefit responsiveness of the contracts, the ability of the parties to the investment contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of any underlying securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – CONTINUED

4. INVESTMENT CONTRACTS

The Plan invests in the Wells Fargo Stable Value Fund N60, a collective trust fund which invests in investment contracts and security-backed contracts, that is fully benefit-responsive. As described in Note 2, because the collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The collective trust fund is included in the financial statements at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013, was $223,142 ($68,819 at December 31, 2012). The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

The average yield based on actual earnings represents the annualized earnings of all investments in the Wells Fargo Stable Value Fund N60, including the earnings recorded in the underlying collective trust funds divided by the fair value of all investments in the Fund at December 31, 2013 and 2012. The average yield based on interest rate credited to participants represents the annualized earnings credited to participants in the Wells Fargo Stable Value Fund N60, divided by the fair value of all investments in the Fund at December 31, 2013 and 2012. The average yields for the years ended December 31, 2013 and 2012, are as follows:

Average Yields	2013	2012
Based on actual earnings	1.36%	0.94%
Based on interest rate credited to participants	1.52%	1.95%

5. INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements and supplementary schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee of the Plan.

The plan administrator has obtained certifications from Wells Fargo Bank, N.A. that the information provided by the trustee related to the above investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's

5. INVESTMENT INFORMATION - CONTINUED

Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in this note and the supplementary schedule.

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	2013	2012
Balanced Fund (Class R3)	$ 199,708	$ 168,797
Overseas Fund Class S	-	157,445
Total Return Fund (Class A)	393,503	563,673

Advantage DJ Target 2030 Adm	244,955	267,595
Advantage Growth Adm	177,017	207,970
Stable Return Fund N60	223,141	-

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Value of interest in registered investment companies	$ 284,039
Value of interest in common/collective trusts	40,142
Net appreciation in fair value of investments	$ 324,181

6. RELATED PARTY TRANSACTIONS

Certain Plan registered investments funds are managed by Wells Fargo Bank, N.A. as of and for the years ended December 31, 2013 and 2012. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amount to $10,830 for the year ended December 31, 2013.

7. TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. TAX STATUS - CONTINUED

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts in accordance with the terms and provisions of the Plan**.**

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2013 and 2012, to Form 5500:
