401(k) Profit Sharing Plan
Notes to Financial Statements

1. Description of Plan

The following description of the OneSource Distributors, LLC 401(k) Profit Sharing Plan (the "Plan") provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1987 as a defined contribution plan. The Plan covers all eligible employees of OneSource Distributors, LLC (the "Company") who are 18 years of age or older and have completed at least three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Each year, participants may contribute up to 75% of pre-tax annual compensation, as defined in the Plan and subject to Internal Revenue Service ("IRS") limitations. Participants may also contribute amounts representing distributions from other qualified retirement plans. IRS limitations for employee contributions are \$17,500 for the 2013 plan year. The Company may make matching or discretionary contributions at a rate determined by the Company.

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contributions, Company contributions and allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' non-vested accounts are first allocated to plan expenses and then used to reduce future Company contributions.

The Plan used \$8,564 and \$10,580 of forfeitures to reduce the Company's employer match for the year ended December 31, 2013 and 2012, respectively. Unallocated forfeited amounts at December 31, 2013 and 2012 were \$426 and \$0, respectively.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus actual earnings thereon is based on years of continuous service as follows: 20% vested after two years of service; 40% vested after three years; 60% after four years; 80% after five years; and 100% after six years of service.

Notes Receivable from Participants

The Plan allows participants to borrow against their vested balances. Loans may not exceed the lesser of \$50,000 or 50% of a participant's vested balance at the time of the origination of the loan. The loans are secured by the balance in the participant's account and must be repaid in level payments through payroll deductions over a five-year period, except for the purchase of a principal residence which may be repaid over a period of 10 years. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates were 5.25% to 9.50% at December 31, 2013. Principal and interest are paid ratably through payroll deductions.

OneSource Distributors, LLC
401(k) Profit Sharing Plan
Notes to Financial Statements

Payment of Benefits

A participant's vested account balance is distributed in a lump-sum upon retirement, termination of employment, death, disability, or Plan termination. Participants may withdraw any part of their vested account any time after attaining age 59½. Benefits are automatically paid by the Plan if a participant is terminated and the participant's vested balance is less than \$5,000. Participants may also receive hardship distributions, which are described by the Plan, from their deferral contribution account.

Investment Options

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Trustee" or "Principal") as under a trust agreement holds the assets of the Plan, including all contributions and earnings thereon.

Plan Expenses

The Company sponsors the Plan. Personnel within the Company perform various administrative services for the Plan. The payroll and related overhead costs associated with these services are not included as Plan expenses. Most administrative expenses of the Plan, including record keeping, consulting, investment, legal, and audit fees, are paid by the Company. Investment expenses incurred by the manager of the funds and directly related administrative expenses are deducted from the earnings of the Plan. Expenses paid by the Plan to the Trustee, such as loan initiation and loan maintenance, totaled \$8,109 for the year ended December 31, 2013.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Accounting Standards Codification ("ASC") 962, *Plan Accounting—Defined Contribution Pension Plans*, requires investment contracts held by a defined contribution plan to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in Common Collective Trust ("CCT") investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Accounting Pronouncement to be Adopted

In July 2013, the FASB issued Accounting Standards Update No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04* ("ASU 2013-09") to indefinitely defer the effective date of certain required disclosures in ASU 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity

OneSource Distributors, LLC
401(k) Profit Sharing Plan
Notes to Financial Statements

securities of its plan sponsor's nonpublic affiliated entities. The deferral in this amendment is effective upon issuance for financial statements that have not been issued prior to this amendment. For the Plan, the adoption of ASU 2013-09 did not have an impact on the Plan's financial statements

Accounting Estimates

The Plan administrator uses estimates and assumptions in preparing the Plan's financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported changes in net assets. Actual results could materially vary from the estimates that were used.

Risks and Uncertainties

Investments are exposed to various risks, such as interest rate, market fluctuation and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that change in risks in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The Plan invests in various investment options that invest in securities of foreign companies, which involve special risk and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Investment Valuation and Income Recognition

At December 31, 2013 and 2012, all investments were held by the Trustee of the Plan. The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 8 for discussion of fair value measurements.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Mutual Funds - Mutual funds are stated at fair value based on quoted market prices of their net asset value of shares held by the Plan at year end.

Pooled Separate Accounts - The NAV of each of the separate accounts is calculated in a manner consistent with U.S. GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Most separate accounts are reflected in Level 2. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed

OneSource Distributors, LLC
401(k) Profit Sharing Plan

Notes to Financial Statements

income securities. The fair value of the underlying mutual funds or stock and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly quoted.

Common Collective Trusts - CCTs represent investments with various investment managers. Units held in CCTs are valued at the unit value as reported by the investment managers, with the exception of CCTs holding fully benefit responsive investment contracts. The Plan holds shares of CCTs that have investments in fully benefit-responsive investment contracts. For purposes of the Statements of Net Assets Available for Benefits, these CCTs are stated at fair value with an adjustment to contract value. As provided in ASC 962, an investment contract is generally required to be reported at fair value, rather than contract value, to the extent it is fully benefit responsive. The fair value of such investment contracts held by the CCTs is determined using the market price of the underlying securities and the value of the investment contract as determined by the trustee.

The Plan's CCT Stable Value Fund is valued at fair value which represents contributions, reinvested income, less any withdrawals, plus accrued interest. The Stable Value Fund invests in investment contracts, traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper fee and the contracted wrapper fee. Fair value is adjusted to contract value on the financial statements. The investment contracts are fully benefit responsive because participants may direct withdrawals and transfers at contract value. The fair value of the Stable Value Fund at December 31, 2013 and 2012 was \$1,712,449 and \$2,587,851, respectively. The average yield on contracts was 0.58% and 1.02% for 2013 and 2012, respectively.

The investment strategies for investments that use the NAV practical expedient under ASU 2009-12 are as follows:

CCT-Balanced: to provide a medium for investments in bonds, notes, guaranteed investment contracts and other securities chosen on the basis of having fair market values which historically have not fluctuated to a great extent and have provided returns greater than traditional money market accounts.

CCT-Stable Value: to invest in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The investments of the fund are short-term.

Notes Receivable from Participants

Participant loans are reclassified as notes receivable from participants, and are measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all participant loans with no payments received for 6 months as in default. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the Statement of Changes in Net assets Available for Benefits. During 2013, \$11,282 was recorded as deemed distributions.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes to Financial Statements

3. Income Tax Status

The IRS has determined and informed Principal by a letter dated March 31, 2008, that the Prototype Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Prototype Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

4. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become completely vested accounts.

5. Related Party Transactions

Certain Plan investments are managed by Principal; therefore, these transactions qualify as party-in-interest transactions. Fees paid to Principal were \$8,109 and \$5,692, respectively, for the years ended December 31, 2013 and 2012.

6. Investments

Investments that represent 5% or more of the Plan's net assets at fair value are separately identified in the following table:

<i>December 31,</i>	2013	2012

7. Information Certified by the Trustee

At December 31, 2013 and 2012, the Plan's investments were held by the Trustee. All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The Plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Principal has certified the following financial information included in the accompanying financial statements and supplemental schedules is complete and accurate:

<i>December 31,</i>	2013	2012
Notes receivable from participants	\$ 553,062	\$ 484,292
Mutual funds	5,961,974	4,717,756
Pooled separate accounts	9,535,419	7,328,231
Common collective trusts	7,618,121	6,284,636

<i>Year Ended December 31,</i>	2013
Interest from notes receivable from participants	\$ 24,271
Dividends	71,824
Change in fair value of mutual funds	629,015
Change in fair value of pooled separate accounts	2,154,841
Change in fair value of common collective trusts	763,813

As permitted under such election, information certified by the Plan's trustee, Principal Trust Company, as of December 31, 2013 and 2012 and for the year ended December 31, 2013 was not audited, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule. The information contained in Note 6 and supplemental schedules have also been certified by the Trustee.

The trustee did not certify the adjustments from fair value to contract value of \$10,367 and \$59,430 for the Principal Stable Value Fund in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, respectively.

8. Fair Value Measurements

ASC Topic 820, *Fair Value Measurement* ("ASC Topic 820"), establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

OneSource Distributors, LLC
401(k) Profit Sharing Plan
Notes to Financial Statements

Level 2 - Valuation is based upon quoted prices for similar instruments in active markets or quoted prices for identical assets or similar instruments in markets that are not active.

Level 3 - Valuation is generated from independent appraisals or cash flow techniques that use significant assumptions not observable in the market.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2013 and 2012, as determined by the Trustee. As required by ASC Topic 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. There were no changes in the Company's valuation methodologies for the years ended December 31, 2013 and 2012.
