FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REPORT
DECEMBER 31, 2013 AND 2012

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees and Participants of Ash Grove Cement Company
Employee Stock Ownership Plan
Overland Park, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the Ash Grove Cement Company Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3, the financial statements include investments in Ash Grove Cement Company common stock valued at \$16,863,837 (96% of total assets), whose fair value has been estimated based upon an independent appraisal in the absence of readily determinable fair values. Our opinion is not modified with respect to that matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets as of December 31, 2013 and Schedule of Reportable Transactions for the year ended December 31, 2013, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

ASH GROVE CEMENT COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following brief description of the Ash Grove Cement Company Employee Stock Ownership Plan (the "Plan") is provided for general information only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – Ash Grove Cement Company (the "Company") established the Plan on January 1, 1978. The Plan operates, in relevant part, as a nonleveraged employee stock ownership plan (ESOP), is designed to comply with section 401(a) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides all eligible nonunion employees of the Company, and any of its subsidiaries which adopt the Plan, who have completed one year of service, 1000 hours, and are age 21 or older, with an equity interest in the Company.

The Plan is administered by the Company and advised by a committee (Administrative Committee), whose members are appointed by the board of directors of the Company. The assets of the Plan are held and invested by U.S. Bank (the "Trustee").

Contributions – The Company may make discretionary contributions, in cash or stock, to the Plan. The amount is at the discretion of the Company's board of directors. For the 2013 Plan year, the Company contributed \$537,992 in both cash and shares of Company stock to the Plan.

The annual Company contribution is allocated among participants of the Plan based upon a percentage of each employee's eligible compensation during the Plan year, as defined by the Plan Document, to the total eligible compensation. Employees who are included in this allocation are (a) those who were participants at the end of the plan year or (b) those employees who retired, died, or terminated employment due to disability during the plan year, who share on the basis of the eligible compensation earned prior to their retirement, disability, or death.

Participant Accounts – A separate account is maintained for each participant of the Plan.

Diversification – The Plan gives certain participants a limited right to diversify a portion of their accounts once the following three conditions are met:

- 1) The participant must be age 55 and a participant in the Plan for at least 10 years.
- 2) A participant can only diversify with respect to Company stock acquired by the Plan after December 31, 1986.
- 3) The value of the participant's share of stock acquired after December 31, 1986 has a value on the immediate preceding valuation date of more than \$500.

Vesting and Benefit Payments – The distribution of benefits will occur in the plan year following the plan year in which termination occurred. ESOP benefits vest as follows:

<u>Years of service</u>	<u>Percentage</u>
Less than 3 years	0%
3 years or more	100%

Shares of common stock are credited to a participant's account upon normal retirement, permanent disability, or death for the vested portion of their account. Distributions shall be made no later than one year after the close of the plan year in which the participant terminates employment. Distributions are made in cash, at the Administrative Committee's direction, unless the participant specifically requests common stock and/or Class B common stock. Cash payments are made for the cash equivalent of fractional shares and other investments. If a participant requests a payment for the shares owned, the Company and the trust have an irrevocable option to purchase all or any portion of the shares owned by the participant. The participant must notify the Administrative Committee in writing within 30 days after receiving notification of the distribution of their common stock election. The Administrative Committee has 14 days after the written notice to exercise their right. Once the 14 days have expired, the participant has the option to sell his or her shares to those other than the Company or the trust. If the participant does not sell his shares within 60 days, the Administrative Committee's rights are reinstated to purchase the shares.

The purchase price of the shares sold shall be the fair value of the shares. The fair value is determined as of the most recent valuation date under the Plan and is determined by an independent appraiser. The price will be paid in cash or the election of the employer to purchase the shares in equal annual installments (not exceeding 10 years) upon delivery of the shares.

Forfeitures – Forfeitures arise when participants leave the Plan before becoming fully vested in their account. Forfeitures are allocated to remaining participants in the same ratio as Company contributions. During 2013, approximately \$651 in cash forfeitures was reallocated to participants, and 0 shares of Company stock were reallocated to participants.

Transfers to Other Plan – Assets in the amount of \$58,615 were transferred to the Ash Grove Cement Company 401(k) Savings Plan as a result of diversification.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investment in the money market fund is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the Company stock is stated at estimated fair value, as determined by an independent appraiser. See Note 3 for more information. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions – Employer contributions are reported in the year services are rendered to the Company by the Plan participants.

Payment of Benefits – Benefit payments are reported in the year paid.

Administrative Expenses – The Company, on behalf of the Plan, pays the majority of administrative costs of the Plan.

Date of Management's Review – Subsequent events have been evaluated through September 29, 2014, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Common Stock of the Company – The Company Stock is valued at estimated fair value by an independent appraiser using the Market Approach – *Guideline Public Company Method* and the *Income Approach – Discounted Future Returns Method*. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities.

Money Market Funds – Money market funds are valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows:

	Fair Value	Fair Value Measurements Using:		
		Level 1	Level 2	Level 3
December 31, 2013:				
Common Stock of the Company	\$ 16,863,837			\$ 16,863,837
Money Market Account	<u>236,638</u>	<u>\$ 236,638</u>	<u></u>	<u></u>
	<u>\$ 17,100,475</u>	<u>\$ 236,638</u>	<u>\$ -</u>	<u>\$ 16,863,837</u>
December 31, 2012:				
Common Stock of the Company	\$ 14,458,640			\$ 14,458,640
Money Market Account	<u>205,627</u>	<u>\$ 205,627</u>	<u></u>	<u></u>
	<u>\$ 14,664,267</u>	<u>\$ 205,627</u>	<u>\$ -</u>	<u>\$ 14,458,640</u>

The following table provides further details of Level 3 fair value measurements for the year ended December 31, 2013:

	Common Stock of the Company
Beginning Balance	\$ 14,458,640
Realized losses	-
Net unrealized gains relating to investments still held at the reporting date	2,973,314
Purchases	-
Sales	<u>(568,117)</u>
Ending Balance	<u>\$ 16,863,837</u>

The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date

\$ 2,973,314

The following table represents the quantitative information about significant unobservable inputs used in level 3 fair value measurements, including the valuation techniques used to measure the fair value, and the significant unobservable inputs.

Investment	Fair Value 12/31/2013	Valuation Technique	Significant Unobservable Inputs
Company Stock	\$ 16,863,837	Market Approach <i>Guideline Public Company Method</i>	- Liquidity, Coverage & Leverage Ratios - Profitability & Return Ratios - Growth rates - Market Pricing Multiples - Premium for Control - Discount for lack of marketability
		Income Approach <i>Discounted Future Returns Method</i>	- Earnings Stream - Discount Rate - Terminal Value - Sustainable Long-Term Growth Rate - Premium for Control - Discount for lack of marketability

The valuation process involves plan management's selection of an independent appraiser under contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

4. INVESTMENTS

The Plan's investment in the common stock of the Company exceeds 5% of net assets available for benefits at December 31, 2013 and 2012. The value of the common stock increased from \$140 per share at December 31, 2012, to \$169.60 per share at December 31, 2013, resulting in net appreciation of \$2,973,314.

5. TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service (IRS) dated May 7, 2013, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the date of the determination letter, however; the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, no provision for income taxes is included in these financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there

are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. TERMINATION OF THE PLAN

Although the Company has not expressed any intent to do so, the Company, at its option, may terminate the Plan. If the Plan is terminated, the trust may be continued to pay benefits upon retirement, death, or termination from employment. At the sole discretion of the Company, the trust may be terminated seven years or more after the last year for which any contribution was made under the PAYSOP portion of the Plan. Under these circumstances, the common stock, class B common stock, and cash held in the trust will be distributed to each of the remaining participants. Upon termination of the Plan, all participants would be fully vested in their account balances.

7. CONCENTRATION OF CREDIT RISK

Financial instruments, which could potentially subject the Plan to significant concentrations of credit risk, consist of the investment in common stock of the Company. The investment in the common stock of the Company accounts for approximately 98.6% of the total Plan investments at December 31, 2013 and 2012. The value of this investment is dependent upon the future operations of the Company.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plans' investments consist primarily of shares of common stock in the Company. Transactions related to these investments qualify as exempt party-in-interest transactions.
