DYNAMIC HUMAN RESOURCES, INC.
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1 - Description of the Plan

The following description of the Dynamic Human Resources, Inc. 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a multiple employer defined contribution plan established by Dynamic Human Resources, Inc. (Plan Sponsor) to encourage and facilitate systematic savings and investments by participating employers. The Plan is available to all Dynamic Human Resources, Inc.’s clients who retain Dynamic Human Resources, Inc. to provide human resource service.

Each participating employer retains the right to terminate their participation in the Plan, in whole or in part, to temporarily or permanently suspend its liability to make contributions to the Plan, to the extent that it relates to that participating employer and its employees.

All participating employers of this multiple employer plan have signed participation agreements that enable them to accept or modify the elections of a master plan document to meet their needs. Each Company’s adopted plan agreement should be referenced by the participants for additional information regarding plan specifications.

Employers can elect to adopt participation or terminate participation at any time. This activity is represented by the adopting employers transferred into the Plan on the statement of changes in net assets available for benefits.

The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

Dynamic Human Resources, Inc. is the Plan Sponsor and named Plan Administrator. The Plan Administrator is responsible for oversight of the Plan. Management of the Plan Sponsor determines the appropriateness of the Plan’s investment offerings, monitors investment performance and oversees the reasonableness of expenses and fees. The Plan’s Discretionary Trustee is an officer of the Company. The Plan’s Directed Trustee and investment Custodian is John Hancock Life Insurance Company (John Hancock). The investment Custodian holds all of the Plan’s assets and executes all of the Plan’s transactions. The Plan Administrator has retained Applied Plan Administrators LLC to provide participant recordkeeping and administration services.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1 - Description of the Plan - Continued

Contributions to the Plan

Each year, participants may contribute a portion of their eligible compensation, as defined in the plan documents. Participants who have attained age 50 before the end of the year are eligible to make additional 'catch-up' contributions. Participants may also contribute amounts representing distributions from other defined benefit or defined contribution plans.

The Companies may make discretionary matching contributions equal to a percentage, to be determined by each Company, of participating employees' contributions. The Companies may also make a discretionary profit sharing contribution determined each year by each Company.

Participants direct the investment of both their individual contributions plus their share of employer matching and profit sharing contributions into various investment options offered by the Plan. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Contributions are subject to IRS limitations.

Payment of Benefits

On termination of service, participants with account balances greater than \$5,000 may elect to receive a lump-sum distribution of their account balance. Alternatively, they may elect to rollover their account balance to another qualified account. The distributable amount is equal to the value of the participant's vested interest in his or her account. Those participants whose account balances exceed \$5,000 may also elect to defer the contribution of their plan balance. Participants who elect to have their benefit payments deferred continue to share in allocations of investment income and losses but do not share in subsequent allocations of discretionary contributions. Special rules apply to distributions due to death, disability and retirement. Participants should refer to the full plan document for details.

Participants who attain the age of 59 ½, have become a participant in the Plan for at least 5 years or have balances below distributions that have accumulated in the Plan for at least 2 years may elect to make an in-service distribution from the vested portion of their plan account balance which represents their employee 401(k) elective contributions, employer matching contributions and earnings thereon.

DYNAMIC HUMAN RESOURCES, INC.
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1 - Description of the Plan - Continued

Vesting

The balance in each participant's salary deferral and rollover accounts is 100% vested at all times. Participants also become 100% vested upon death or disability.

Each plan provides vesting of employer contributions; see specific participation agreements for service criteria, vesting percentages, and the policies regarding vesting upon termination.

Forfeitures

Forfeitures attributable to terminated participants' nonvested accounts are allocated to a forfeiture account and are used to offset plan expenses and to fund employer contributions. These forfeitures are maintained and reallocated in the respective employer accounts. Forfeitures in the amount of \$6,941 were used to offset plan expenses and to fund employer contributions for the year ended December 31, 2013. The balance in the forfeiture account at December 31, 2013 and 2012 amounted to approximately \$91,000 and \$28,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Funds contributed by participants are invested at percentages as directed by participants in any one or more of several investment alternatives.

The income, gains or losses in each fund are allocated daily to the applicable participants' accounts in that fund based on the previously reported account balances, adjusted for current period contributions and withdrawals.

Participant Notes Receivable

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as participant-directed investments. Loan terms range from one to five years. Loan terms may exceed five years only in the event the loan proceeds are used to purchase or construct the participant's principal residence. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing prime rates. Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Income from investments are recorded when they are earned. Employee contributions are recorded when withheld from pay. Employer contributions are recorded in the period to which they pertain. Expenses are recorded in the accounting period in which they are incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of an investment entity attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits represents the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net Assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment custodian and investment advisers. See Note 3 for a description of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Realized gains and losses on investment transactions are recorded as the difference between proceeds received and carrying value. Net unrealized appreciation or depreciation in the fair market value of investments is recorded as the change in carrying value of the investment portfolio from the beginning of the year or date of purchase to the end of the year.

Participant Notes Receivable

Participant notes receivable are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the plan document.

DYNAMIC HUMAN RESOURCES, INC.
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 2 - Summary of Significant Accounting Policies - Continued

Participant Notes Receivable - Continued

Accounting principles generally accepted in the United States of America require the Plan to show participant loans as notes receivable rather than investments. This excludes participant notes receivable from the required fair value disclosures discussed in Note 3.

Payments of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Fees and Expenses

The Plan's administrative expenses, including salaries, accounting, and legal fees incurred to operate the Plan, such as attorney and audit fees are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of loans and benefit payments are charged directly to the participant's accounts and are included in administration expenses. Direct fees for custodian and recordkeeping services are paid by the Plan and are also included in administration expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 30, 2014, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Generally accepted accounting principles (GAAP) establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

- Level 1** - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2** - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Level 1 Fair Value Measurements

The fair values of the Pooled Separate Accounts that are actively managed are determined by reference to quoted market prices and other relevant information generated by market transactions of the underlying investments. The fair values of the Pooled Separate Accounts that are at the direction of variable annuity contract owners are determined by the net asset values of the underlying assets owned by the fund.

Note 3 - Fair Value Measurements - Continued

Level 2 Fair Value Measurements

For the Stable Value Fund, the fair value is determined by the stated net assets value in the fund's audited financial statements.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fully Benefit-Responsive Investment Contracts

The Plan has entered into a fully benefit-responsive investment contract with John Hancock. John Hancock maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administration expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals, and administration expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$113,472 and \$134,821, respectively. The fair value is the amount which is payable on demand on the reporting date. If all participants were eligible for a distribution of their full accounts from the Plan on the reporting date, the amount payable on demand on the reporting date would be the "contract value".

401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 4 - Fully Benefit-Responsive Investment Contracts - Continued

Investment contracts are valued at contract value principally because participants are able to transact at contract value when initiating benefit-responsive withdrawals, taking loans or making investment option transfers permitted by the participating plan. A benefit-responsive withdrawal includes a payment to a participant arising from retirement, termination of employment, disability or death. In the normal course, participant events are predictable (for participants as a group) such that the economic integrity of investment contracts is largely unaffected by participant withdrawals.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include: 1) amendments to the plan document including complete or partial termination or merger of the Plan, 2) activity such as bankruptcy that causes significant withdrawals from the Plan or contract, and 3) the failure of the Plan to continue to qualify for tax-exempt status. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value are remote.

The Plan's investment in the fully benefit-responsive investment contracts earn a return expected to equal the Gross Crediting Rate. The Gross Crediting Rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The Gross Crediting Rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. Depending on the change in duration from each reset period, the magnitude of the impact to the Crediting Rate of the contract to market difference is heightened or lessened. The Gross Crediting Rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the Gross Crediting Rate less than zero. The Gross Crediting Rate may be impacted amongst other things, by volatility and illiquidity in the fixed-income securities market. If the market value of the underlying investments is lower than their contract value, the Gross Crediting Rate may be lower than the return on the underlying investments.

Accordingly, the average portfolio credit rating related to the Plan was approximately 2.27% and 2.62% for 2013 and 2012, respectively, and the average current market interest rate was approximately 1.91% and 1.65% for 2013 and 2012, respectively.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Although they have not expressed any intent to do so, the individual Companies also have the right under the Plan to terminate their participation in the Plan. In this event, the participants of the employer would become 100% vested in their accounts.

Note 6 - Tax Status

The Plan uses a volume submitter plan sponsored by Applied Plan Administrators LLC. That document received a favorable opinion letter from the Internal Revenue Service (IRS), dated June 8, 2010. The Plan Sponsor believes that the Plan and respective multiple employer participation agreements are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, that the Plan is qualified under Section 401(a) and that the related Trust is tax-exempt as of December 31, 2013.

Accounting principles generally accepted in the United States of America require the Plan's Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. As of December 31, 2013, the Plan Administrator believes that the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is currently not being examined. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Transfer of Assets

During 2013, certain employers entered into and terminated from the Plan. Approximately \$1,954,714 was transferred in from unrelated plans including approximately \$143,200 in participant notes receivable transferred into the Plan. The Plan also transferred out approximately \$475,375 to unrelated plans during 2013 which is netted with transfers into the Plan on the statement of changes in net assets available for benefits for the year ended December 31, 2013. These amounts represent the balances of the participant's accounts when transferred. These transfers occurred due to a participating employer management election, not as an election at the participant level.

Note 8 - Unaudited Information Certified by the Custodian

The Plan Administrator has engaged John Hancock to act as Directed Trustee and Custodian of the Plan. The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as of December 31, 2013 and 2012, and for years then ended, the financial statements have been prepared based on information certified as complete and accurate by the Custodian. This includes the investment information reflected in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the schedule of assets (held at end of year). Additionally, participant notes receivable balances as well as interest income on participant notes receivable have also been certified.

Note 10 - Party-in-Interest Transactions

Certain plan investments are managed by John Hancock, who is the Plan's Directed Trustee and investment Custodian. Transactions involving these investments are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

During the year ended December 31, 2013, the Plan paid direct compensation to its investment Custodian in the amount of \$1,832 and direct compensation to Applied Plan Administrators LLC of \$25,295. Indirect compensation (that is netted against investment income on the statement of changes in net assets available for benefits) was paid to the investment Custodian from total annual operating expenses charged on the balance of fund investments ranging from 0.90% to 2.72% depending on the particular fund.

Note 12 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
