Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements, referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. General

The Plan is a defined contribution plan covering regular employees and apprentices, as defined in the Plan, of the Baldwinsville Brewery of Anheuser-Busch, LLC (the "Company") who are covered by the Union 1149 Collective Bargaining Agreement (the "Union"). Employees become eligible for participation in the Plan upon expiration of the applicable probationary period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) Section 404(c).

Plan Administration

The Plan is administered by six Plan Trustees; three Company Trustees appointed by the Company and three Union Trustees appointed by the Union. The Sponsor of the Plan is the Company and the Union. The Vanguard Group, Inc. (Vanguard) serves as the custodian and record keeper of the Plan.

Contributions

Employer and Union contributions are made and allocated to participants in accordance with the terms and provisions of the Collective Bargaining Agreement. Participants are also permitted to make voluntary after-tax contributions to their accounts.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations of expenses are made on a pro-rata basis, taking into account each participant's balance as compared to all participant balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested upon entering the Plan and obtain a nonforfeitable interest in 100% of their accounts.

Investment Options

Participants may direct contributions to selected investments as made available and determined by the Plan Administrator. All contributions are invested in assets as determined by the participant. Participants may change their investment options at their discretion.

Notes to Financial Statements

1. Description of Plan (continued)

Payment of Benefits

Distributions of a participant's account may be made as soon as practicable following the participant's termination of employment at the participant's election. Distributions shall commence no later than sixty days following the close of the calendar quarter in which the later of termination of employment or attainment of age 65 occurs, unless the participant or beneficiary consents to a later distribution. In any event, distributions of benefits must commence no later than the first day of April following the calendar year in which the later of termination of employment or age 70-1/2 occurs.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Based on the participant's options, the retirement benefit is payable in a lump sum; by payment in a series of substantially equal installments over a period of years, which period may be elected by the participant but may not exceed 10 years or the actuarial life expectancy of the participant, if less; or in the form of a qualified joint and survivor annuity. Benefits are recorded when paid.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with these investments, and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's mutual fund investments are stated at fair market value. Shares of mutual funds are valued at quoted market prices at the end of the plan year. The investment in common collective trusts represents investments in the Vanguard Retirement Savings Trust. The Vanguard Retirement Savings Trust is a collective investment trust fund that invests solely in the Vanguard Retirement Savings Master Trust (the "Master Trust"). The underlying investments of the Master Trust are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts and bond mutual funds. Investment contracts include traditional Guaranteed Investments Contracts (GICs), Synthetic Investment Contracts (SICs) and wrapper contracts. GICs are valued based on estimated fair value, computed using discounted cash flows. SICs are valued based on the aggregate market value of the applicable bond trusts, mutual funds and other investments. Wrapper contracts are valued at estimated fair value based on a replacement cost approach.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to the fair value of the assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately .01%.

The following table presents the fair values of investments in the Master Trust at December 31, 2013 and 2012:

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The following table presents the net investment gain for the Master Trust for the year ended December 31, 2013 (\$000):

Interest	\$ 411,805
Dividends	130
Wrap fee	(38,499)
Investment management fee	(1,978)
Net investment income	<u>\$ 371,458</u>

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Vanguard Retirement Savings Trust at contract value. In determining the net assets available for benefits, the Vanguard Retirement Savings Trust is included in the financial statements at fair value and then adjusted to contract value. Contract value represents contributions made under the contracts, plus earnings, less withdrawals. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

As described in Financial Accounting Standards Board Accounting Standards Codification Topic 946 (ASC 946), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

As required by the ASC 946, the statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The average yield earned by the Plan for the common collective trust during 2013 and 2012 were as follows:

	<u>2013</u>	<u>2012</u>
Average yields:		
Based on actual earnings	1.98%	2.22%
Based on interest credited to participants	1.56%	1.82%

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The Plan includes on the statement of changes in net assets available for benefits, the net appreciation of investments, which consists of realized gains and losses and unrealized appreciation and depreciation of investment fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements:

The fair values of mutual funds are based on the closing price reported in the active market where the individual securities are traded, when available.

Level 2 Fair Value Measurements:

The underlying investments of the common collective trusts are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts and bond mutual funds. Guaranteed investment contracts are valued based on estimated fair value, computed using discounted cash flows. Synthetic investment contracts are valued based on the aggregate market value of the applicable bond trusts, mutual funds and other investments. Wrapper contracts are valued at estimated fair value based on a replacement cost approach.

5. Plan Termination

While the Company and the Union have not expressed any intent to do so, the Company and the Union have the right, by joint action, to discontinue contributions or terminate the Plan at any time subject to the provisions of ERISA.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Sponsor has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements at December 31, 2013.

TEAMSTER LOCAL UNION 1149 PENSION PLAN**

Notes to Financial Statements

6. Tax Status (continued)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2010.

7. Related Party Transactions

Plan investments are shares of mutual funds and common collective trusts managed by The Vanguard Group, Inc. Vanguard is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

8. Reconciliation to Form 5500

The statement of changes in net assets available for benefits in the financial statements is prepared on the contract value basis, as discussed in Note 2. The income and expense statement on the Form 5500 was prepared on the current or fair value basis for the year ended December 31, 2013. The following is a reconciliation of the net income per the Form 5500 to the change in net assets per the statement of changes in net assets for the year ended December 31, 2013:
