INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Stangenes Industries, Inc. Profit Sharing Plan, which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Transamerica Retirement Services', the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 1 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedule 1 (modified cash basis) Schedule H Part IV Line 4 (I) Schedule of Assets (Held at Year End) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Summary of the Plan and its significant accounting policies

The following description of the Stangenes Industries, Inc., Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Stangenes Industries, Inc., (the Company) who are twenty-one years of age or older and complete one year of service (as defined in the Plan). Employees who are twenty-one or older become eligible for the employer discretionary profit sharing contribution after a minimum of one year of service and 1,000 hours on an annual basis.

The Plan is intended to qualify under Section 401(k) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration -

Under the terms of the Plan, two designated employees of the Company act as the administrator and trustee. The trustees have contracted with Transamerica Retirement Services (Transamerica or TRS) to act as the custodian of the Plan. Transamerica, as custodian, holds the Plan's assets, executes investments and performs recordkeeping for the Plan.

Vesting -

Participants are immediately vested in their voluntary contributions and earnings. Vesting in the employer discretionary profit sharing contribution is as follows:

20% vested after 2 years of service
40% vested after 3 years of service
60% vested after 4 years of service
80% vested after 5 years of service
100% vested after 6 years of service

Years of service are defined in the Plan.

(1) Summary of the Plan and its significant accounting policies - continued

Use of estimates -

The preparation of financial statements requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of accounting -

The financial statements and supplemental schedules of the Plan are prepared using the modified cash basis of accounting, consequently, certain income and contributions are recognized when received, and certain expenses and payments are recognized when disbursed.

Investments -

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts form fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis (see note 3, contract value is fair value).

All investments of the Plan are held by Transamerica and invested in various funds as directed by the participant. Plan assets are valued at fair market value as of the last day of the Plan year, as measured by quoted market prices, or contract value based on the terms of the contract.

The fair value or the guaranteed investment contract is valued daily using publicly available quoted market prices.

Notes to Financial Statements

December 31, 2013 and 2012

(1) Summary of the Plan and its significant accounting policies - continued

Income taxes -

The Plan has received a favorable tax determination letter from the Internal Revenue Service. The Plan administrator believes the Plan is exempt from federal income and state franchise taxes.

Subsequent Events -

The Plan has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued.

Notes Receivable from Participants -

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses -

Substantially all administrative expenses are paid by the Company.

(2) Participation and benefits

Employee contributions -

Participants may elect to contribute a percentage, from 1% to 65%, of their pre-tax compensation up to the amount allowable under current income tax regulations.

Employer contributions -

The Company is allowed to make discretionary matching or non-matching contributions as defined in the Plan and as approved by the Board of Directors of the Company. The Company made discretionary non-matching profit sharing contributions to the Plan that amounted to $913,689 (net of forfeitures) and $842,824 for the years ended December 31, 2013 and 2012, respectively.

(2) Participation and benefits - continued

Participant accounts -

Each participant's account is credited with the participant's contribution and allocation of: a) A pro-rata portion, based upon annual compensation to total compensation of all eligible employees, of the discretionary profit sharing contribution by the Company, if any, b) the Plan earnings, and c) the forfeitures of terminated participants' nonvested accounts, and d) Plan expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement.

Payment of benefits -

Upon termination and election of the participant, benefits are paid in full in a lump-sum amount equal to the value of participant's account.

Notes Receivable from Participants -

The Plan provides a hardship provision, which allows a participant to borrow a maximum of $50,000 (minimum $1,000) or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the Federal prime rate plus 1% and typically have a 5 year term. The Plan administrator establishes the specific terms and conditions of such hardship loans.

Forfeitures -

At December 31, 2013 and 2012, there were approximately $43,000 and $19,000, respectively, of forfeited nonvested employer profit sharing contributions which can be used first to pay plan expenses and then allocated to the remaining eligible employees based upon the pro-rata portion of their eligible compensation to total eligible employee compensation.

(3) Investment contract with Insurance Company

In 2007, the Plan entered into a benefit-responsive investment contract with Transamerica Retirement Services' (TRS). The stable value fund option of Transamerica Retirement Services' Group Annuity Contract changed its name effective January 29, 2007 from the Transamerica Stable Value Fund to the Transamerica Stable Value Option. Characteristics of the contract are as follows:

(3) Investment contract with Insurance Company – continued

- The Stable Value Option is a non-tradable obligation of Transamerica Retirement Services. The investment's contract or proceeds cannot nor will not be assigned or sold to another party without the consent of Transamerica.

- The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable (for example, a significant decline in creditworthiness of Transamerica), the Stable Value Option investment choice may no longer be considered fully benefit-responsive.

- The terms of Transamerica's Group Annuity Contract require all permitted participant initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans or transfers to other investment choices within the Plan.

- Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable.

- The Stable Value Option investment choice allows a participant reasonable access to their assets.

The Transamerica Stable Value Option investment choices are backed by the general account of Transamerica Life Insurance Company (TLIC) or Transamerica Financial Life Insurance Company (TFLIC). While TLIC or TFLIC declare rates periodically and back the principal and interest of these investment choices, any guarantees are subject to the claims paying ability of the insurance company. This investment choice is not guaranteed by the FDIC or any other government agency. Although plan participants generally may with draw assets from the Stable Value Option investment choice without restrictions, TLIC or TFLIC may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance.

(3) Investment contract with Insurance Company – continued

These investment choices seek to protect against any loss of principal while providing returns in excess of money market funds and one-year U.S. Treasury bills. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis, and with no set maturity. The effective guaranteed credited interest rate is set on a semi-annual basis and announced at least 45 days in advance of the date the new rate becomes effective. The guaranteed rate of interest shall not change during the six month period for which it is effective. The Stable Value Option investment choices are not considered a Guaranteed Interest Contract (GIC) and there is no stated minimum or maximum interest rate. Contract charges may reduce this return. In accordance with FAS 107 (#12) and SOP 94-4-1, this type of investment is considered fairly valued at contract value.

Assets held in Stable Value Option investment choices are commingled with assets in the general account. There is no specific portfolio of assets in which the Stable Value Option investment choices invest. The credited interest rate is backed by the income received from assets held in the general account.

The Stable Value Option performance for 2013 and 2012 was:

	2013	2012
Minimum rate	1.45%	1.65%
Average rate	1.45%	1.75%
Rate credited to participants	1.45%	1.65%

(4) Plan termination

The Company intends to continue the Plan indefinitely for the benefit of its employees; however, it reserves the right to terminate the plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. Upon termination of the Plan, participants will become fully vested in their accounts.

(5) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

(8) Fair Value Measurements-continued

Level 1 Fair Value Measurements

The fair value of mutual funds are based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liabilities; inputs tat are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

The value of the investment contract (Stable Value) are invested in the general account of the insurance company issuing the contract that offers the particular Stable Value Option investment choice. All assets in the Stable value Option investment choices are credited with interest using a declared monthly rate determined by Transamerica and stated in advance.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

Fair value measurements using significant unobservable inputs (Level 3):

	Participant Receivable	Total
December 31, 2013		
Beginning Balance	$ 14,893	$ 14,893
Total gains and losses (realized and unrealized) included in net assets available for benefits	-	-

Total gains and losses (realized and unrealized) included in net assets available for benefits	-	-
Purchases, sales, issuances, and settlements (net)	(6,201)	(6,201)
	$ 14,893	$ 14,893

During 2013 the participants transferred from Level 1 investments to the Stable Value fund (Level 2) approximately $ 238,000 ($379,000 2012) and transferred from the Stable Value fund (Level 2) into Mutual Funds (Level 1) approximately $ 300,000 ($258,000 in 2012). Additionally, net transfers from Level 1 investments into the Level 2 Bond Funds for 2013 approximated $ 129,000 ($64,000 in 2012).
