NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Automotive Services Network, Inc. Salary Deferral 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all employees of the Holler Automotive Group (a group of companies related through common ownership) (the Group or the Company) who have completed one year of service and have reached age 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a maximum of 75% of their gross wages, and upon eligibility, participants are automatically enrolled to contribute 3%, unless enrollment is declined. The Group matches 25% of the participant's contributions up to a maximum of 4% of the participant's compensation. The Group may also make a discretionary contribution at the end of each year which is allocated based on compensation and to participants who were employed on the last day of the plan year. No discretionary contribution was made during the year ended December 31, 2013.

All employees are automatically enrolled in the Plan upon eligibility but can decline entry electronically via the member services line or the member web site.

Investment Options: Participants may change their investment options daily and may direct contributions among various investment options.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, early retirement, death or disability. A participant is eligible for normal retirement upon reaching age 65 and early retirement upon reaching age 55 with five years of service.

Payment of Benefits: On termination of service, a participant may elect to receive either a lump sum amount or periodic installment payments equal to the value of their vested account.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 20% per year and are fully vested at the end of five years.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures: The non-vested portions of terminated participants' accounts are forfeitures. Forfeitures stay under the Plan and are used to offset future employer contributions and plan expenses. During 2013, $9,537 of the forfeited balances were used to reduce employer contributions. The remaining balance of forfeitures available to offset future matching contributions and administrative expenses as of December 31, 2013 and 2012 were $8,291 and $881, respectively.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms may not exceed five years unless it is being used to acquire a principal residence of the borrower, in which case the loan terms are limited to the lesser of 15 years or the repayment period of the principal residence loan. The loans are secured by the balance in the participant's account and bear interest. Principal and interest is repaid in equal installments through payroll deductions.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Risk and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefit.

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Investment Contract: Investments in separate account guaranteed interest contract ("SAGIC") are reported at contract value, which approximates fair value. The contract value equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals. As these investments are contract-based, they are not transferable and observable prices for identical or similar investments do not exist. Accordingly, these investments are valued using unobservable inputs (Level 3). Plan management evaluates the terms of the SAGIC held by the Plan, the fair value information as of the Plan's financial statement dates provided to the Plan by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) applicable to this contract, and the creditworthiness of Principal in assessing the fair values of the contract on an annual basis for financial reporting purposes. Based upon Principal's recent credit ratings, Plan management has determined that no adjustment to contract value is required related to the credit quality of the issuer of these contracts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2013 Using

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

The table below presents a reconciliation of all investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the year ended December 31, 2013, including the reporting classifications for the applicable gains and losses included in the 2013 statement of changes in net assets available for benefits.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
	Investment Contract
Balance, January 1, 2013	$ 2,346,764
Interest income	46,746
Purchases	441,267
Settlements	(817,642)
Balance, December 31, 2013	$ 2,017,135

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustment from fair value to contract value is presented in the statement of net assets available for benefits, as the amount of the adjustment has been determined to be immaterial.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

The fair values of investments which represent 5% or more of the Plan's net assets available for benefit are summarized as follows:

PIMCO Total Return A Fund	$ 2,083,623	$ 2,290,859

Group Annuity Contract		
Principal Life SAGIC, no stated maturity date, 2.00% crediting rate at December 31, 2013	$ 2,017,135	$ 2,346,764

During 2013, the Plan's investments in mutual funds (including investments bought, sold and held during the year) appreciated in fair value by $1,446,891.

NOTE 4 - TAX STATUS

The Plan sponsor has adopted a non-standardized prototype 401(k). The non-standardized prototype document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). Although the Plan has not been issued an individual determination letter and the Plan has been amended, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds mutual funds and holds units of participation in group annuity contract managed by Principal Life Insurance Company. Principal Life Insurance Company is an affiliate of the Plan trustee, Delaware Charter and Trust Company d/b/a Principal Trust Company, and, therefore, these transactions and the Plan's payment of record keeping fees and investment management fees qualify as party-in-interest transactions. Notes receivable from participants held by the Plan are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

(Continued)

NOTE 6 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in a contract with Principal Life Insurance Company, an affiliate of the trustee, via an investment in a separate account guaranteed interest contract ("SAGIC"). The SAGIC provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the SAGIC group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance in the SAGIC investment option at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract includes the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The average yield earned is calculated by dividing the annual interest credited to the Plan during the Plan year by the average annual fair value. The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the Plan year by the average annual fair value. No adjustment is required to differentiate between the average yield earned by the Plan and the average interest rate credited to participants.

	2013	2012
Average yields:		
Based on annualized earnings [1]	2.00%	2.10%
Based on interest rate credited to participants [2]	2.00%	2.10%

[1] Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investment on the same date.

[2] Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investment on the same date.

However, the average yield earned by the Plan and the average interest rate credited to participants reported above may differ from the crediting rate on participant balances due to interest being credited based on contract values, the timing of cash flows, the process by which rates may be reset during the Plan year (i.e. three month intervals) and simplified assumptions used in the calculations noted above. The minimum crediting interest rate under the contract is 1.00%.

NOTE 7 - SUBSEQUENT EVENT

Plan management has evaluated subsequent events for recognition and disclosure through October 1, 2014, which is the date the financial statements were available to be issued.
