Contributions

Participants may make voluntary 401(k) contributions up to 100% of their compensation, as defined, subject to the maximum permitted by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company makes Safe Harbor matching (Safe Harbor) contributions and discretionary profit-sharing contributions to the Plan. Safe Harbor contributions are equal to 100% of the first 3% of compensation, as defined, that participants contribute to the Plan, plus 50% of contributions that exceed 3% of compensation but do not exceed 5%. The Company did not authorize any profit-sharing contributions for the year ended December 31, 2013. Contributions are subject to certain IRS limitations.

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's voluntary contributions and allocations of the Company's contributions, and plan earnings or losses as defined by the Plan agreement. Allocations of the Company's profit-sharing contributions are given only to participants who have completed at least 1,000 hours of service during the plan year, and are based on participants' compensation for the Plan year relating to the contribution. Plan earnings are allocated daily based on each participant's account balance. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

Vesting

Participants are immediately vested in their contributions and the Company's Safe Harbor contributions, plus actual earnings or losses thereon. Vesting in the profit-sharing contributions is subject to a vesting schedule with the participant being fully vested after six years of credited service.

Notes Receivable From Participants

The Plan allows participants to borrow money within certain limits from their individual accounts. The loans are secured by the balance in the participant's account. Such loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money. Principal and interest are paid ratably through payroll deductions.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the participant's account balance is less than \$1,000, the plan administrator directs the custodian to make a lump-sum distribution. Participants terminated for other reasons are entitled to receive their benefits as soon as administratively feasible.

Forfeitures

Forfeitures are maintained within the ING Fixed Account. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$1,460 and \$1,454, respectively. During 2013, no funds were transferred to the forfeitures account. No forfeitures were used to reduce Company contributions or Plan expenses in 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value as reported by ING Life Insurance and Annuity Company (ING), the custodian of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 4 for discussion of fair value measurements.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Assets of the Plan are held in separate accounts of a trust administered by ING as of December 31, 2013 and 2012, representing investments in pooled separate accounts and a general insurance contract.

Investments of participant's contributions and the Company's contributions into these funds are at the direction of each participant.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2013 and 2012, and for the year ended December 31, 2013, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2010.

Subsequent Events

Management has evaluated subsequent events through September 22, 2014, the date the financial statements were available to be issued.

NOTES TO THE FINANCIAL STATEMENTS

3. INFORMATION CERTIFIED BY THE CUSTODIAN

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by ING, the custodian.

ING has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from investment activity, and the schedule of assets held at end of year as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access
- Level 2 Other significant observable inputs including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 Inputs are significant and unobservable (including the Plan's own assumptions used to determine value)

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2013 and 2012.

General insurance contract: Valued by multiplying the contract value by a formula which approximates the change in market value of a bond given a change in the rate environment times a duration estimate. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the investment committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (the seven year treasury bond rate). The general insurance contract is not actively traded.

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS (Continued)

Pooled separate accounts: Valued using quoted market prices of the securities included in the underlying funds, which includes a mix of mutual funds, collective trusts and managed accounts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2013:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Pooled separate accounts			
Asset allocation fund		\$ 44,317

	<u>\$</u>	<u>\$4,456,992</u>	<u>\$</u>

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2012:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Pooled separate accounts			
Asset allocation fund		\$ 11,278

The Plan did not hold any Level 3 assets during the year.

NOTES TO THE FINANCIAL STATEMENTS

5. INVESTMENTS

The Plan's investments which exceed 5% of the Plan's net assets available for benefits as of December 31, 2013 and 2012, are as follows:

	<u>2013</u>	<u>2012</u>
ING Fixed Account	<u>\$ 1,887,652</u>	<u>\$ 2,704,103</u>
American Funds Fundamental Investors (SM) Class R3	<u>\$ 369,224</u>	<u>\$ 223,629</u>
American Funds The Growth Fund of America Class R3	<u>\$ 317,194</u>	
ING Index Solution 2035 Portfolio - Service 2 Class	<u>\$ 456,191</u>	
RidgeWorth Large Cap Value Equity Fund - Class A Shares	<u>\$ 322,564</u>	

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The general insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the general insurance contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the general insurance contract. The general insurance contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than one percent. Such interest rates are reviewed on an annual basis for resetting. The crediting interest rate and net actual earnings rate were 1.00% at December 31, 2013 and 1.30% at December 31, 2012.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The general insurance contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTES TO THE FINANCIAL STATEMENTS

7. TAX STATUS

The Plan received its latest opinion letter on March 31, 2008, in which the IRS stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended subsequent to the latest opinion letter. The Company believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by ING. ING is the custodian as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions.

9. PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all participants would become fully vested in their accounts.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. SUBSEQUENT EVENTS

The Company has amended the Plan with an effective date of January 1, 2014, to include provisions that allow participants to make post-tax contributions, changed the Plan's definition of compensation, enabled participants to modify, stop, or suspend activity at the beginning of a new month rather than the start of each quarter, changed participation eligibility from one year to three months of service, as defined, and changed the provisions for the involuntary cash out of participant accounts.
