Notes to Financial Statements

NOTE 1 - DESCRIPTION OF PLAN:

The following description of the Blythe Development Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Annually, participants may contribute a portion of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company contributes 10% of the first 10% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (1) the Company's contribution, and (2) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of service.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

Upon death, disability, retirement, or termination of employment, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeitures:

Forfeited non-vested amounts can be used to reduce administrative expenses and then to reduce employer contributions. No forfeitures were used in 2013 to reduce employer contributions, and there were no significant forfeited nonvested balances at December 31, 2013.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Date of management's review:

Subsequent events were evaluated through September 4, 2014, which is the date the financial statements were available to be issued.

Use of estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts and, if applicable, an adjustment of the fully benefit-responsive investment contracts from fair value to contract value (for 2013 and 2012, fair value approximated contract value, so no adjustment was required). The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Operating expenses:

Most expenses of maintaining the Plan are paid by the Company.

NOTE 5 - FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 and Level 2 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs would only be used when Level 1 or Level 2 inputs were not available. At December 31, 2013 and 2012, the fair value of all investments was measured using Level 2 inputs.

Blythe Development Company

401(k) Profit Sharing Plan

Notes to Financial Statements

Level 2 fair value measurements

The fair value of pooled separate accounts are based on the underlying assets, such as quoted net asset value for mutual funds and quoted market prices for common stock, corporate bonds, and U.S. government securities. The guaranteed investment account fund is valued based on information provided by the custodian using its net asset value.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	2013	2012
Level 2		
Pooled separate accounts with insurance company:		
Large US equity	\$ 2,697,636	\$ 1,888,034
Fixed income	1,023,791	971,565
Small/Mid US equity	936,602	697,300
International equity	764,926	581,271
Balanced/Asset allocation	194,273	117,108
Insurance company guaranteed return account	<u>130,343</u>	<u>110,412</u>
Total	<u>\$ 5,747,571</u>	<u>\$ 4,365,690</u>

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has entered into a benefit-responsive investment contract with Minnesota Life Insurance Company. Minn. Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value (if applicable) in arriving at net assets available for benefits. For the year ended December 31, 2013 contract value approximated fair value, so no such adjustment is presented. Contract value, as reported to the Plan by Minn. Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value with Minn. Life. Such events include the following: amendments to the Plan documents (including complete or partial plan termination or merger with another plan); changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan; or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Blythe Development Company
401(k) Profit Sharing Plan
Notes to Financial Statements

NOTE 7 - RELATED PARTY TRANSACTIONS:

Certain plan investments are shares of investment accounts managed by affiliates of Minnesota Life Insurance Company, the Plan custodian, and thereby qualify as allowable party-in-interest transactions.

NOTE 8 - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

	2013	2012
Net assets available for benefits per financial statements	\$ 6,124,302	\$ 4,788,218

Contributions receivable - end of year	(55,082)	
Contributions receivable - beginning of year	<u>52,168</u>	
Total contributions per Form 5500	<u>\$ 583,095</u>	

NOTE 10 - FEDERAL INCOME TAX STATUS:

The Plan administrator believes that the Plan, as amended, and the trust established and maintained under the Plan are qualified pursuant to the appropriate sections of the Internal Revenue Code (IRC). The form of the Plan is a prototype non-standardized plan. The sponsor of the prototype document has received a favorable notification letter from the Internal Revenue Service. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 11 - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
