Ohio Associated Enterprises, LLC 401(k) Savings Plan
Notes to the Financial Statements
December 31, 2013 and 2012

A. PLAN DESCRIPTION

The following description of the Ohio Associated Enterprises, LLC (the "Company" or "Plan Sponsor") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Code ("IRC") Section 401(k) arrangement which allows plan participants to defer current taxation on a portion of their salaries by electing a percentage of their salary to be contributed to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility - The Plan covers substantially all employees of the Company who have six months of service and are age twenty-one or older. A year of service is a twelve consecutive month period during which an employee has at least 1,000 hours of service, as defined in the Plan document and adoption agreement.

Contributions - Participants may voluntarily contribute a minimum of 1% to a maximum of 100%, limited to the IRC 402(g) limit, of their compensation on a pre-tax or post-tax ("Roth") basis. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. The Company, however, may be required to limit contributions of certain employees to comply with the IRC.

The Company may, at its option, match a portion of participants' voluntary contributions. The Plan Sponsor did not elect to match contributions during the year ended December 31, 2013.

The Company may make additional nonelective contributions to the Plan. All eligible employees, as defined, may receive these nonelective contributions but must be actively employed as of December 31. The Company did not make any nonelective contributions during the year ended December 31, 2013.

The Plan also permits rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions, employer matching and nonelective contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may direct their contributions to any or all of the various investment funds provided. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance. The note is secured by the balance in the participant's account. The loan bears interest at rates that range from 4.25% to 6.00%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - A participant or his or her beneficiary, upon termination, death, or retirement, receives his or her vested interest in his or her participant account in the form of a single lump sum payment or in periodic installments. Additionally, the Plan has provisions for an active participant to make withdrawals from his or her account, subject to limitations and restrictions.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and trustee. See Note F for discussion of fair value instruments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses, including third party administrative expenses and investment management fees, are paid by the Company. Fees attributable to loans, distributions and deferred payouts are paid by the participants. Investment related expenses are included in net appreciation of fair value of investments.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

C. INFORMATION CERTIFIED BY THE TRUSTEES

The Plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Capital Bank and ILIAC, the current and former trustees of the Plan.

E. INVESTMENT IN ING FIXED ACCOUNT

The ING Fixed Account, an annuity product issued by ILIAC, is an account credited with a declared rate of interest and valued daily. There were two guaranteed interest rates: 1) an annual effective yield guaranteed between 1% and 3% for each calendar year period within the life of the contract; 2) a calendar year floor interest rate, currently 2.00%, which will never be less than the minimum guaranteed interest rate but which may be adjusted upwards on a quarterly basis. Once credited, the interest becomes part of the principal. The Fixed Account surrender value may bear a market value adjustment should the contract be terminated. The market value adjustment at December 31, 2012 was \$2,264.

Amounts allocated to the Fixed Account are held in the general account of ILIAC, are managed on an aggregate basis, and support the general activities of ILIAC.

The investment in the ING Fixed Account was liquidated on January 1, 2013 as a result of the conversion from ILIAC to American Funds and Capital Bank and Trust Company (see Note K).

F. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The levels of the fair value hierarchy under Financial Accounting Standards Board guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market fund: Valued at the net asset value ("NAV") of shares held by the Plan at year end. The fund's underlying investments are in U.S. Treasury securities and other securities backed by the full faith and credit of the U.S. government, as well as securities issued by U.S. federal agencies. The fund also invests in other high-quality money market instruments.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Ohio Associated Enterprises, LLC 401(k) Savings Plan
Notes to the Financial Statements
December 31, 2013 and 2012

Pooled separate accounts: The Plan's mutual funds are stated at fair value as based on the variable account value of the pooled separate account on the last business day of the Plan year. The value of a participant's interest in a pooled separate account is determined by multiplying the number of accumulation units held for the participant for that variable account by the accumulation unit value for that variable account. The accumulation unit value of a variable account on any valuation date is equal to: (a) the accumulation unit value of that variable account as of the immediately preceding valuation date; multiplied by (b) the net investment factor for the valuation period ending on the valuation date on which the accumulation unit value is being determined.

ING Fixed Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note E).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	<u>Level 2</u>
Mutual funds:	
Growth funds	\$ 493,680

G. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee of the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

H. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant would have a non-forfeitable right to his or her total account balance as of the date of termination.

I. FEDERAL INCOME TAX STATUS

As part of the adoption of the American Funds Distributors, Inc. Defined Contribution Prototype Plan and Trust (see Footnote K) on January 1, 2013, the Internal Revenue Service ("IRS") has determined and informed the prototype sponsor by an Opinion Letter dated March 31, 2008, that the document is designed in accordance with applicable sections of the IRC. Although the Plan has not obtained a determination letter, the Plan Sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Ohio Associated Enterprises, LLC 401(k) Savings Plan
Notes to the Financial Statements
December 31, 2013 and 2012

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the company has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

K. PLAN AMENDMENTS

Effective April 1, 2012, the Plan was amended to define the number of outstanding loans permitted per participant.

Effective January 1, 2013, the Plan document was restated as a result of the merger with Xponet, Inc./Mold-Tech, Inc. The Xponet, Inc./Mold-Tech, Inc. 401(k) Profit Sharing Plan was terminated, and the funds were transferred into the Ohio Associated Enterprises, LLC 401(k) Savings Plan.

Effective January 1, 2013, the Plan document was restated as a result of the conversion from ILIAC to American Funds and Capital Bank and Trust Company.

L. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In 2012, while ING was the Plan administrator, the Plan's investments were recorded as pooled separate accounts on the financial statements but were recorded as mutual funds on the Form 5500. Since ILIAC did not report their separate accounts directly as a Direct Filing Entity, the Plan could not categorize those assets as separate account assets on the Form 5500. The Plan must categorize the assets according to the underlying assets. Because the separate accounts were fully invested in mutual funds, the investments were shown as mutual funds on the Form 5500.
