UPMC 401(a) Retirement Savings Plan
Pittsburgh, Pennsylvania

We have audited the accompanying financial statements of UPMC 401(a) Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of UPMC 401(a) Retirement Savings Plan at December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of the Plan

The primary purpose of the UPMC 401(a) Retirement Savings Plan (the Plan) is to accept matching contributions made by UPMC (the Employer) with respect to certain employees who have elected salary deferrals under the UPMC 403(b) Retirement Savings Plan or under the Plan. The Plan is a profit-sharing plan, intended to satisfy all of the requirements of Internal Revenue Code Section 401(a). The Plan also allows for elective employee pretax contributions under the Internal Revenue Code (the Code) Section 401(k), as well as after-tax deferrals, of participant's eligible compensation up to the Code's limitations.

The Plan is a contributory pension plan offered to a significant number of employees of UPMC and its subsidiary corporations and affiliates. Periodically, UPMC subsidiary corporations and/or affiliates adopt the Plan and, in certain circumstances, the assets of a plan sponsored by the subsidiary or affiliated corporation may also be transferred to the Plan.

This description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. Additional information about the vesting and benefit provisions of the plan document is contained in the Community or Urban Summary Plan Descriptions, which are available from UPMC's Retirement Line or online through AON Hewitt's participant website, Your Benefit Resources™.

Contributions

The Plan provides for an employer matching contribution formula each pay period that is equal to 50% of the employee's contribution up to a maximum of 4% of eligible pay (Community Design) or 6% of eligible pay (Urban Design), depending on which design was adopted by the respective employer (Match Account).

Participant Accounts

An individual account is maintained for each participating employee by the Plan's administrator/record-keeper, AON Hewitt. Each participant may elect to have his or her contributions and the employer matching contributions invested in any of the funds in multiples of 1.0% or as flat dollar amounts.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Vesting

A participant becomes fully vested in his or her Match Account upon and after his or her attainment of normal retirement age or in the event of death (while actively employed), permanent disability (while actively employed), or termination of employment for any reason prior to attainment of normal retirement age upon completion of three years of service. Distributions from the Match Account are permitted after the participant has vested and upon separation of service, or, if eligible and approved by the plan administrator for an in-service or hardship withdrawal. Participants are always fully vested in their pretax and after-tax contributions.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. At December 31, 2013 and 2012, there were no forfeited nonvested accounts. In 2013, employer contributions were reduced by \$1,008,368 from forfeited nonvested accounts.

Payment of Benefits

The benefit to which a participant is entitled is the balance in the participant's account.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from six months to five years, except for loans for the purchase of a primary residence, which must be repaid within fifteen years. The loans are secured by the balance in the participant's account and bear interest at rates between 4.25% and 10.50% at December 31, 2013. Principal and interest are paid ratably through regular payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, UPMC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of plan termination, participants will become 100% vested in their accounts.

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) (see Note 4).

The Plan's investments consist of an interest in the UPMC 401(a)/403(b) Master Trust (Master Trust) held by BNY Mellon Bank, N.A. (see Note 3) and other investments trustee by the Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF).

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

Management evaluated subsequent events for the Plan through October 7, 2014, the date the financial statements were available to be issued.

3. Investments

There were no individual investments that represented 5% or more of the fair value of the Plan's net assets at December 31, 2013 or 2012.

Certain of the Plan's investments are held in a Master Trust, which was established for the investment of assets of the Plan and another UPMC-sponsored retirement plan. Each participating retirement plan's interest in the investment funds of the Master Trust is based on account balances of the participants and their elected investment funds. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to the fair value of the assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the Master Trust. The Plan's interest in the net assets of the Master Trust was approximately 54% at both December 31, 2013 and 2012.

The following table presents the fair value of the investments of the Master Trust:

	December 31	
	2013	2012
Master Trust investments, at fair value:		
Registered investment companies	\$ 2,559,118,529	\$ 2,000,615,906

3. Investments (continued)

Net investment income for the Master Trust for the year ended December 31, 2013, is summarized as follows:

Net appreciation in fair value of investments:	
Registered investment companies	<u>\$ 429,531,182</u>
Total Master Trust net investment appreciation	<u>\$ 429,531,182</u>

4. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value:

Cash is valued at amortized cost which approximates fair value.

Registered Investment Companies are trustee by BNY Mellon Bank, N.A. and are valued based on quoted market prices which represent the net asset value (NAV) of shares held by the Plan at year-end. The NAV is a quoted price in an active market.

Variable Annuities (CREF Accounts) consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market Accounts (individually referred to as the “Account” or collectively referred to as the “Accounts”). CREF is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company; however, the CREF Accounts themselves are not traded on an exchange in an active market. These Accounts are variable annuities which are primarily valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing, except for the Money Market Account which is generally valued at amortized cost. Each Account determines its NAV on a daily basis and is redeemable at NAV on the valuation date.

Pooled Separate Account (PSA) (TIAA Real Estate Account) is a non-fully benefit-responsive investment valued principally from the market value of the underlying real estate holdings or real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional’s opinion. The PSA also sometimes holds securities which are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and the fund is redeemable at NAV daily. The PSA itself is not traded on an exchange in an active market.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Guaranteed Annuity Contract (TIAA Traditional fund) is offered to participants of the Plan through Retirement Annuity (RA) and Group Retirement Annuity (GRA) contracts, which are not fully benefit-responsive. The TIAA Traditional fund is valued at contract value, which approximates fair value. The contract value of the fund equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals. Since the investment is not available for sale or transfer on any securities exchange, transactions in similar investment instruments are not observable. As a guaranteed annuity backed by TIAA's claims paying ability, the TIAA Traditional fund guarantees principal and a guaranteed minimum rate of interest, plus the opportunity for additional amounts in excess of the guaranteed rate. The guaranteed minimum interest rate during the accumulation phase is generally 3%. These guarantees of principal and minimum interest rates assure that each participant's accumulation is protected from loss and will always increase in value. These additional amounts, when declared by the TIAA Board of Trustees, are determined on a year-by-year basis and remain in effect for the "declaration year." The declaration year begins each March 1 for accumulating annuities and each January 1 for lifetime payout annuities. Together, the guaranteed minimum and additional amounts make up the "crediting rate" in the accumulation phase of the account. TIAA uses a "vintage" method of crediting interest for funds in the TIAA Traditional fund. Because the yields available on new long-term investments tend to vary over time, TIAA groups the funds received over discrete time periods into vintages. The interest credited to each vintage reflects the investment returns initially obtained on TIAA's investments during each period. When the accumulation in the TIAA Traditional fund is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation.

In determining the reasonableness of the methodology, the plan sponsor evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data.

- (a) The investment objective of this Account is to achieve a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.
- (b) The investment objective of this Account is to achieve high current income consistent with maintaining liquidity and preserving capital. Substantially all of the Account's assets are invested in securities maturing in 397 days or less including commercial paper, obligations of commercial banks, U.S. government securities and other foreign and domestic debt obligations.
- (c) The investment objective of this Account is to achieve a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The Account invests in a diversified set of domestic and foreign stocks and other equity securities, bonds and other fixed-income securities, as well as money market instruments and other short-term debt instruments.
- (d) The investment objective of this Account is to achieve a favorable long-term rate of return through high current income consistent with preserving capital. The majority of the Account's assets are invested in U.S. treasury and agency securities, corporate bonds and mortgage-backed or other asset-backed securities.
- (e) The investment objective of this Account is to achieve a favorable long-term rate of return through capital appreciation and investment income from a broadly diversified portfolio that consists of foreign and domestic stocks.
- (f) The investment objective of this Account is to achieve a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.
- (g) The investment objective of this Account is to achieve a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The Account is designed to track the U.S. stock market as a whole and invests in stocks in its benchmark index, the Russell 3000 Index.
- (h) The investment objective of this Account is to achieve a favorable long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds – fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond.
- (i) The investment objective for this fund is to achieve long-term returns primarily through rental income and appreciation of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties or cover other expense needs. There are currently no redemption restrictions on this investment. Liquidity is guaranteed since the fund is backed by the TIAA general account.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables presents the Plan's Level 3 investments, the valuation techniques used to measure the fair value and the significant unobservable inputs and the ranges of values for those inputs.

December 31, 2013				
Investment (by Class)	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
Guaranteed Annuity Contract	\$ 19,637,683	Discounted Cash Flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied*	RA – 3.00%–5.00% GRA – 3.00%–5.00%

December 31, 2012				
Investment (by Class)	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
Guaranteed Annuity Contract	\$ 20,148,189	Discounted Cash Flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied*	RA – 3.00%–5.00% GRA – 3.00%–5.00%

* Unobservable inputs include discount rate applied.

TIAA Traditional fund's account balances are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional fund's historical crediting rates.

4. Fair Value Measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013.

	Guaranteed Annuity Contract
Balance, beginning of year	\$ 20,148,189
Realized gains	297,930
Unrealized gains relating to instruments still held at the reporting date	304,714
Purchases	198,451
Sales	(1,311,601)
Balance, end of year	<u><u>\$ 19,637,683</u></u>

5. Administrative Expenses

Effective July 1, 2002, UPMC initiated a ten-basis-point administrative fee that is netted against the respective fund's investment income and is calculated based on the daily net asset value of each fund. Effective July 1, 2011, UPMC reduced this administrative fee to five basis points. Effective January 1, 2013, UPMC increased the administrative fee to eleven basis points. Starting in the fourth quarter of 2004, a quarterly administrative fee of \$7.50 was charged to the accounts of terminated participants who elect to retain an account balance in the Plan. The amount of administrative fees charged in 2013 was \$73,914.

These fees are used to offset a portion of the Plan's administrative expenses. The plan sponsor as well as the Plan pay the administrative expenses of the Plan. Investment fees are netted against the respective fund's investment income.

6. Related-Party Transactions

Certain of the Plan's investments are managed by TIAA-CREF. These transactions qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA.

Notes to Financial Statements (continued)

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 15, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
