Carleton Life Support Systems, Inc.
401(k) Plan
Notes to Financial Statements

1. Description of the Plan

The following brief description of the Carleton Life Support Systems, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established on August 18, 2003 and sponsored by Carleton Life Support Systems, Inc. (the "Plan Sponsor"). The Plan covers substantially all employees of the Plan Sponsor, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may elect to contribute to the Plan amounts equal to a full percentage between 1% and 30% of the participant's eligible compensation, limited by the amount imposed by law. Participants may make Roth contributions into the Plan which are accounted for in separate participant-level subaccounts. Roth contributions made to the Plan amounted to $199,406 and $176,512 during the years ended December 31, 2013 and 2012, respectively.

The Plan Sponsor matches 50% of the first 10% of eligible compensation contributed to the Plan by the employee. Additionally, participants age 50 or older may elect to make a catch-up contribution limited to the amount imposed by law. Contributions received from participants for the years ended December 31, 2013 and 2012 include rollover contributions of $604,211 and $570,611, respectively.

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, Plan Sponsor contributions, and the participant's share of Plan earnings. Participant accounts are decreased by participant distributions and the participant's share of Plan expenses and losses. The allocation of earnings and losses to participant accounts is based on the value of an individual account in relation to the total assets of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their salary deferral and rollover contribution accounts and the earnings thereon. Participants vest ratably in Plan Sponsor contributions at 25% per year of service and become fully vested after four years.

1. Description of the Plan (continued)

Payments of Benefits and Withdrawals – Plan assets allocated to a participant's account will be distributed upon termination of employment, after reaching age 65, or death. Participants may withdraw funds from their rollover account at any time. Participants may withdraw funds from their matching contribution account at any time after they reach 70½. Participants may withdraw funds from their deferral account at any time after they reach 59½. Hardship withdrawals, as defined by the Internal Revenue Code (the "Code"), are available to participants only from their deferral contributions account. If a hardship withdrawal is made, participants' eligibility to make contributions to the Plan is suspended for six months.

Forfeitures – Forfeited Plan Sponsor matching contributions are used to reduce future Plan Sponsor contributions. Forfeited non-vested benefits amounted to $37,402 and $34,464 during the years ended December 31, 2013 and 2012, respectively.

Notes Receivable from Participants – In accordance with Plan provisions, participants are permitted to borrow a minimum of $500 up to a maximum amount equal to the lesser of $50,000, less the highest outstanding previous loan balance, if any, during the one year period ending immediately before the date of any new loan, or 50% of their vested balance as of the date the loan is made. Participants may have only one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates determined by the Plan administrator. Repayment terms may not exceed five years, with the exception of a loan used to purchase a primary residence, in which case repayment terms may not exceed 10 years. Principal and interest is paid ratably through each payroll deduction. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Income Taxes – The Plan Sponsor obtained a favorable determination letter dated July 28, 2011, in which the Internal Revenue Service ("IRS") stated that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"). Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

1. Description of the Plan (continued)

Plan Termination – Although it has not expressed intent to do so, the Plan Sponsor has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in Plan Sponsor contributions and associated earnings thereon.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The accompanying Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The accompanying Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Valuation of Investments – The Plan's investments consist of mutual funds and a common/collective trust. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Units held in the common/collective trust consist of holdings in a fully benefit-responsive investment contract and are reported at fair value and are adjusted to contract value in the accompanying Statements of Net Assets Available for Benefits. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the realized gains and the unrealized appreciation of those investments.

Purchases and sales of securities are recorded on a settlement date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. In the event of death or termination of employment, the entire outstanding principal and accrued interest shall be due and payable within 90 days. Any unpaid balance will be deemed a taxable distribution from the Plan.

Benefit Payments – Benefits are recorded when paid.

Administrative Expenses – Certain accounting and administrative expenses necessary to administer the Plan are paid for by the Plan Sponsor. Expenses relating to investment activity are paid by participants from their respective individual accounts.

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in conformity with the accrual basis of accounting requires the Plan to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Accordingly, actual results may differ from those estimates.

Subsequent Events – The Plan administrator has evaluated the effects of all subsequent events, for recognition or disclosure, through September 30, 2014, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MG Trust has certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate. Individual investment securities that met or exceeded 5% of the Plan's net assets available for benefits at December 31, 2013 or 2012 have been separately identified.

3. Information Certified by the Trustee (Unaudited) (continued)

During 2013 and2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2013	2012
Investment income:		
Dividends	$ 395,913	$ 415,275
Net appreciation (depreciation) in current value of investments:		
Common/collective trust	(101,462)	214,110

	6,396,584	2,965,229
	$ 6,792,497	$ 3,380,504

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.
- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary measure to calculate fair value as of December 31, 2013 and 2012.

4. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	2013	2012
Level 1:		
Mutual funds	$ 37,663,292	$ 29,686,532
Level 2:		
Common collective trust	5,044,710	4,741,647
	$ 42,708,002	$ 34,428,179

5. Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive group annuity contract (the "Contract") with Metropolitan Life Insurance Company ("MetLife"). MetLife maintains the contributions in MetLife separate accounts, which are insulated from MetLife's general creditors. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. The Contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MetLife, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

5. Investment Contract with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on capital market developments, the performance of the separate account assets backing the contract, and the expected and actual contributions and withdrawals of all of the plans participating in the contract. MetLife guarantees that the crediting interest rate will never be less than 0%. Such interest rates are reviewed quarterly for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1.) amendments to the Plan documents (including complete or partial plan termination or merger with another plan; 2.) changes to the Plan's prohibition on competing investment options; 3.) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan; or 4.) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

MetLife can terminate the Contract upon the event of default by the Plan if MetLife determines in its reasonable discretion, such event has had, or is likely to have, a material adverse effect on its interest with respect to the Contract.

	2013	2012
Average yields:		
Based on actual earnings	-1.58%	6.84%
Based on interest rate credited to participants	3.34%	3.90%
