LANXESS CORPORATION DEFINED CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the LANXESS Corporation Defined Contribution Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - Effective January 1, 2003, Bayer Corporation in the United States reorganized into independent operating subsidiaries, including Bayer Chemicals Corporation (Bayer). On July 1, 2004, Bayer established a new operating subsidiary, LANXESS Corporation (LANXESS or Company).

LANXESS was spun-off from Bayer on January 28, 2005. In connection with the reorganization, the Plan was created, effective January 1, 2005, for those employees who were previously participants of the Bayer Corporation Defined Contribution Plan and any new eligible employees of the Company. An employee is eligible for participation on the first day of employment if the employee is a regular full-time or part-time employee of the Company and is a U.S. Citizen, a resident alien, or a person legally entitled to work in the U.S. The Plan is a defined contribution savings plan available to these eligible employees. Certain restrictions apply to participants who are participating in other non-U.S. Lanxess retirement plans. Effective April 3, 2012, the assets and participants of the Unitex Chemical Corp. Employees Savings Plus & Profit Sharing Plan were merged into the Plan. Effective October 1, 2012, the assets and participants of the Tire Curing Bladders, LLC Savings Plan and the Tire Curing Bladders, LLC Savings Plan for Hourly Employees were merged into the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is responsible for the administration of the Plan. The Vanguard Fiduciary Trust Company (Vanguard) is the trustee of the Plan.

Contributions - Employees may elect to contribute up to 18% of their compensation in the form of before-tax or after-tax contributions. As defined by the Plan, the Company matches dollar for dollar for the first 2% contributed, and \$0.50 per dollar for the next 4% contributed. Employees who attain age 50 before the end of the plan year generally are eligible to make catch-up contributions to the Plan. The maximum catch-up contribution amount was \$5,500 in 2013. Participant contributions include rollovers from other qualified retirement plans.

The Company also generally contributes an additional 5% of a participant's eligible compensation whether or not the participant is contributing to the Plan, herein referred to as the Employer Retirement Contribution. Certain participants may receive amounts in excess of 5% not to exceed 15% based upon prior service requirements. Additionally, certain restrictions apply to participants who are participating in other Company-sponsored retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching contribution, (b) the Employer Retirement Contributions and (c) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and Company-matching contributions plus actual earnings thereon. Participants become 100% vested in Employer Retirement Contributions only after three years of combined service with the Company or Bayer.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes receivable are collateralized by the balance in the participant's vested account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator (ranging from approximately 3.25% to 10.50% at December 31, 2013). Principal and interest is paid ratably through payroll deductions.

Withdrawals - The Plan provides for withdrawals of after-tax contributions during a participant's employment. A participant may withdraw in cash all, or any portion of, the value and earnings thereon, with certain limitations applying to Company-matching contributions. Such withdrawals may be made only after such contributions have been held in the Plan for 24 months. After-tax contributions that have not been matched by Company contributions may be withdrawn not more than once in any plan year. No withdrawals of Employer Retirement Contributions are allowed by the Plan.

The full value of a participant's account is payable at retirement. There are also provisions for withdrawals caused by a break in service by reason other than retirement, permanent shutdown, total and permanent disability or death.

Forfeited Accounts - The Plan's forfeited accounts are used to reduce future employer contributions. The forfeiture account had a balance of approximately \$47,000 as of December 31, 2013. Forfeitures used to reduce employer contributions were \$272,051 during the year ended December 31, 2013.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the plan. As required within the guidance, the statements of net assets available for benefits present the fair value of the investment contracts.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition - The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Plan Expenses - The Plan pays administrative fees related to certain investment management fees and loan fees. All other administrative expenses are generally paid for by the Company.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Subsequent events are events or transactions that occur after the balance sheet date, but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through September 24, 2014, the date on which the financial statements were available to be issued.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan in certain circumstances to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, all account balances would be distributed to participants, as defined by the Plan, within a reasonable time following Plan termination. In the event of Plan termination, participants would become 100% vested in their account balances.

NOTE 5 - FAIR VALUE MEASUREMENT

Financial Accounting Standards Board Accounting Standards Codification topic Fair Value Measurements and Disclosures provides a framework for measuring fair value under generally accepted accounting principles and, among other things, requires enhanced disclosures about assets and liabilities recognized at fair value.

This topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. This topic requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy is defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Funds - The Vanguard Retirement Savings Trust is a collective trust fund that is valued based upon the units of the collective trust fund held by the Plan at year-end times the respective unit value. The unit value of the collective trust fund is based upon significant observable inputs, although it is not based upon quoted market prices in an active market. The collective trust fund's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve its investment objective, the collective trust fund invests in assets (typically contracts issued by insurance companies and banks, synthetic investment contracts, and short-term investments) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

The underlying investments of the collective trust fund consist of Level 2 inputs, consisting of inputs either directly or indirectly observable for substantially the full term of the asset through corroboration with observable market data. The Plan's investment in the collective trust fund is not subject to any withdrawal or redemption restrictions. The Plan has no unfunded commitments relating to the collective trust fund at December 31, 2013 and 2012.

The valuations of the Plan's investments at December 31 according to the fair value hierarchy are summarized as follows:

NOTE 6 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 31, 2012 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 - INFORMATION CERTIFIED BY THE TRUSTEE

Vanguard, the trustee of the Plan, has certified that certain information is complete and accurate. Such information includes the current value of the investments reported in the statements of net assets available for benefits as of December 31, 2013 and 2012, and related interest and dividends and net appreciation in fair value of investments reported in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

NOTE 9 - RELATED-PARTY TRANSACTIONS

The Plan invests in registered investment companies and a common/collective trust fund managed by the trustee. In addition, the Company may pay certain administrative expenses or perform administrative functions on behalf of the Plan, for which no fees are charged. These transactions qualify as party-in-interest transactions that are allowable under ERISA.
