NOTE A - DESCRIPTION OF PLAN

The following description of the FASTSIGNS International, Inc. 401k Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

FASTSIGNS International, Inc. (the "Company," "Employer," or "Sponsor") established the Plan for the purpose of encouraging savings for retirement and to provide a tax-qualified facility for accumulation of funds to be used to provide benefits payable to an employee upon retirement, death, disability, termination of employment, or on certain other occasions.

The Plan is a defined contribution plan pursuant to Section 401(k) of the Internal Revenue Code ("IRC"), and covers all eligible employees of the Company. Any employee of the Company who is older than 18 years of age is eligible to participate in the Plan. The Plan was established effective June 1, 1992 and has been amended several times, the most recent being effective June 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participants can defer up to 60% of their eligible compensation on a pre-tax basis, subject to the IRC's contribution limitation, which is adjusted annually for cost of living fluctuations. The maximum allowable participant deferral was $17,500 and $17,000 for 2013 and 2012, respectively.

The Plan permits participants 50 years of age or older to make an additional "catch-up" contribution. These participants could contribute an additional $5,500 per year for both 2013 and 2012. Catch-up contributions are subject to Company matching contributions. Participants may also rollover funds from other qualified plans into the Plan.

The Plan permits the Company to make discretionary matching contributions, the amount of which is determined annually by the Board of Directors. The Company makes matching contributions equal to 25% of the participant elective deferral that does not exceed 6% of the employees' annual salary.

Profit Sharing

The Company may also elect to make a discretionary profit sharing contribution to the plan. For the 2013 and 2012 plan years, no such contributions were made. To be eligible to receive matching employer contributions, the employee must provide six months of service to the Company.

Participant Accounts

Each participant's account is credited with the participant's contribution and withdrawals, an allocation of Plan earnings and expenses, and any Employer contributions. Participants are entitled to the benefit of their vested balance.

NOTE A - DESCRIPTION OF PLAN - Continued

The participant determines the investment fund allocation of elective and matching contributions. Contributions may be allocated entirely to one fund or to a combination of funds or accounts. Participants may change their investment options daily.

Vesting

All participant contributions are 100% vested when made. A participant who terminates service due to death or permanent disability is fully vested in his or her account. All participants are fully vested upon reaching the age of 60. Participants vest in employer matching and profit-sharing contributions according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Benefits Paid to Participants

Upon retirement, death, disability, or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive either a lump sum amount, installment payments, or if the account balance is greater than $5,000, defer payment until normal retirement date. A participant may also choose to roll over their vested account balance into another qualified plan.

Notes Receivable from Participants

The Plan permits participants to borrow from their vested account balance. These borrowings are required to be for an amount not greater than the lesser of 50% of the participant's vested account balance or $50,000, but not less than $1,000. Additionally, a participant may only have two loans outstanding at a given time. All loans bear interest at rates established by the Plan administrator. Notes receivable from participants bear interest at a rate of 6.75% at December 31, 2013 and 2012. The notes receivable have repayment terms of up to five years unless the proceeds are used to acquire the participant's principal residence, in which case the note receivable repayment period may not extend beyond ten years from the date of the loan. All notes receivable are secured by participants' rights, title and interest in vested account balances. Principal and interest are paid ratably through payroll deductions. The costs associated with the processing and administration of notes receivable from participants are assessed to the participants receiving loans.

NOTE A - DESCRIPTION OF PLAN - Continued

Forfeitures

Forfeiture amounts were approximately $78,000 and $80,000 as of December 31, 2013 and 2012, respectively. Forfeitures are used to reduce the Employer matching contributions or reduce plan expenses, as permitted by the Plan document. There were no forfeitures used to reduce Employer matching contributions or plan expenses during 2013 or 2012.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

Expenses of Administering the Plan

Certain costs and expenses incurred by the Plan are paid directly by the Employer. Plan expenses paid directly by the Employer include service fees (additional contribution services fee, return of excess contributions fee, on-site group enrollment meetings fee) as well as recordkeeping and trustee service fees (annual base fee, annual per participant fee, annual trustee fee).

NOTE D - FAIR VALUE MEASUREMENTS

The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Level 2 - Inputs to the valuation methodology included quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from other corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Accounts - Investments in money market funds are treated as cash equivalents, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTE F - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company, the Trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. In addition, certain fees and expenses of the Plan are paid by the Sponsor.

NOTE G - PLAN TERMINATION

While the Employer has not expressed any intent to terminate the Plan, it has the right to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants will become fully vested.

NOTE H - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants accounts and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. The Plan does not obtain or require collateral for these investment securities.

NOTE I - TAX STATUS

The Internal Revenue Service ("IRS") has issued an opinion letter dated March 31, 2008 to the Trustee stating that the Prototype Plan (upon which the Plan is based) constitutes a qualified plan under Section 401(a) of the IRC and, accordingly, the Plan is exempt from federal income taxes under the provisions of Section 401(a). Subsequent to this determination by the IRS, the Plan was amended. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and continues to be tax exempt.

NOTE I - TAX STATUS - Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
