NOTE 1 - Description of the Plan

The following description of the Country Life, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan covers employees of KI NutriCare, Inc., whose subsidiaries include Country Life, LLC and Allergy Research Group, LLC (collectively, the "Company").

General

The Plan was adopted on February 1, 1998 and is a defined contribution plan under Section 401(k) of the Internal Revenue Code ("IRC") covering all employees of the Company upon entry date who are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Each year, participants may contribute up to 92% of their annual compensation, as defined in the Plan, or the applicable dollar amount up to the annual IRC dollar limit of $17,500. Participants may also transfer to their accounts amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan. Under the Plan, the Company may elect to make a matching contribution of an employee's elective deferral. The Company made contributions to the Plan of $118,567 for the year ended December 31, 2013.

A participant age 50 or older, who has reached the annual IRC limit or the Plan's maximum contribution for the year, can make an additional salary deferral catch-up contribution. The additional amount for 2013 was $5,500.

Participant Accounts

Each participant's account is credited with the participant's contribution, rollover contributions and an allocation of the Company's contributions, if any, for that individual, and an allocation of the Plan's earnings. Investment income by fund is allocated to individual accounts based on the proportion each account bears to the total of all account balances with the fund which earned the income. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions and rollover accounts plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon is 20% per year. A participant is 100% vested after five years of credited service.

Investment Options

The custodian and trustee of the Plan, Fidelity Management Trust Company, is responsible for maintaining Plan assets and disbursing funds in accordance with the provisions of the Plan. Recordkeeping is also performed by Fidelity Management Trust Company.

Participants may direct their accounts to be invested in one or more funds permitted by the Plan, with the Plan's investment options consisting of 12 equity security funds, 11 debt and equity security funds, 3 bond funds, and a stable asset fund.

NOTE 1 - Description of the Plan (cont.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance minus a participant's highest loan amount during the prior 12 months. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans. Loan terms range from one to five years for regular loans and the Plan administrator can extend a loan term beyond five years for loans used to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% - 8.25%, which are commensurate with prevailing rates as determined by the Plan administrator. The annual interest rate on the loans is based on the prime rate with principal and interest paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive, based on the account balance, as defined by the Plan, a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeitures

Forfeitures of terminated participants' nonvested accounts, as defined by the Plan, are retained by the trustee and are used to pay any administrative expenses and any remaining amounts are used to reduce Company contributions. Forfeitures totaled $10,313 during 2013 which, including the prior year balance of $12,509 and earnings of $539, amounted to $23,361 available to pay administrative expenses. Of that amount, $18,875 of forfeitures was used to pay administrative expenses of the Plan in 2013. Forfeitures and earnings thereon available to reduce Company contributions totaled $4,486 and $12,509 as of December 31, 2013 and 2012, respectively.

Amendment to the Plan

On June 13, 2014, subsequent to the year end, a discretionary amendment to the Plan ("Amendment") was adopted by the Plan sponsor. The Amendment provides for a compensation exclusion of gross up earnings for long-term disability benefits.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Security Transactions

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Principally all Plan expenses are paid by the Company, except with respect to investment charges, which are allocated directly to participants.

Stable Value Asset Fund

As described in the authoritative guidance, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2014, the date the financial statements were available to be issued, for inclusion or disclosure in the financial statements.

NOTE 3 - Certified Financial Information

At December 31, 2013 and 2012, Plan investments totaling $7,779,558 and $7,342,117, respectively, were held and certified by Fidelity Management Trust Company as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The related investment income (loss) (including interest and dividends, realized gains (losses) on investments and net gain (loss) in quoted market value of registered investment companies) during the year ended December 31, 2013 was also certified by Fidelity Management Trust Company.

Net Unrealized Appreciation in Fair Value of Investments	$ 666,566

The realized gain on sales of the Plan assets for the year ended December 31, 2013 was as follows:

Level 1	
Mutual Funds	$ 112,710
Level 2	
Group Annuity Contract	3,238
Realized Gain on Investments	$ 115,948

NOTE 4 - Investments (cont.)

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 5 - Fair Value Measurements

The authoritative provisions of fair value measurements establishes a framework for measuring fair value for the Plan's financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The following table presents information about the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2013 and 2012, and indicates the fair value hierarchy of the valuation techniques the Plan utilized to determine such fair value:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets.

Level 2 Observable market based inputs or inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology that are unobservable and not corroborated by market data and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual funds - Valued at the net asset value ("NAV") of shares held by the Plan at year end, which are based on the fair market value of the underlying securities or investments in the funds.

Stable value asset fund - Valued at the contracts' proportionate share of the fair value of the underlying separate accounts, which are invested in various bond funds comprised of varying yields, investment grades and maturity dates, all of which are valued at the fair market value of the underlying securities or investments in the funds.

NOTE 5 - Fair Value Measurements (cont.)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	2013			
	Total	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total	$ 7,342,117	$ 5,563,039	$ 1,779,078	$ -

NOTE 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 7 - Tax Status

The prototype plan sponsor obtained its latest opinion letter on June 5, 2002, in which the Internal Revenue Service stated that the restated prototype plan document was in compliance with the applicable sections of the IRC. The Plan has since been amended. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

NOTE 8 - Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - Investment Contract with Insurance Company

The Plan has an investment in a stable value asset fund that is a benefit-responsive investment contract with Wells Fargo. Wells Fargo maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Wells Fargo, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 9 - Investment Contract with Insurance Company (cont.)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,658,355 and $1,779,078, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) material amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract permits the insurance company to terminate the agreement prior to the scheduled maturity date, with the payment equal to the lesser of the guaranteed value or the fair value at that point in time.

	Average Yields	
	2013	2012
Based on Actual Earnings	1.36%	0.94%
Based on Interest Rate Credited to Participants	1.52%	1.95%

NOTE 10 - Parties in Interest

Certain Plan investments are shares of registered investment company funds managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are with the trustee and are party-in-interest transactions. These fees are netted against investment income.

The Plan's investments consist of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these funds are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder.
