Note 1 - Description of the Plan

The following description of the Odyssey Industries, LLC 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-leased and non-union employees of Odyssey Industries, LLC (the Company) who have attained age 20. The Plan was established, effective May 1, 1996, to provide deferred compensation benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was terminated effective December 31, 2013 as noted in Note 4.

Administration

The Plan Administrator is Odyssey Industries, LLC. The Plan's Trustee is a member of the Human Resource Department. The Plan Administrator is responsible for oversight of the Plan. The Plan's Custodian is John Hancock Life Insurance Company (John Hancock). The investment Custodian holds all of the Plan's assets and executes all of the Plan's transactions. Great Lakes Pension Associates, Inc. provides participant recordkeeping and administration services.

Contributions to the Plan

The Plan provides for participants to defer up to 100% of their compensation as defined in the plan document, through payroll withholdings. Participants who have attained age 50 before the end of the year are eligible to make additional 'catch-up' contributions. Participants may also contribute amounts representing distributions from other defined benefit or defined contribution plan (rollovers).

The Company may make a discretionary matching contribution to the Plan equal to a percent of each participant's deferred compensation, to be determined annually by the Company. Matching contributions equal 100% of employee contributions for the first 3% elected deferral and 50% of the next 2% elected deferral for the year ended December 31, 2013.

Note 1 - Description of the Plan - Continued

Contributions to the Plan - Continued

The Plan may also make qualified profit sharing contributions by the Company to satisfy various Internal Revenue Service (IRS) compliance tests. There were no such contributions in 2013.

Participants direct the investment of both their individual contributions plus their share of employer matching and profit sharing contributions into the various investment options offered by the Plan. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Contributions are subject to certain IRS limitations.

Vesting

A participant becomes fully vested upon entry into the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Funds contributed by participants are invested at percentages as directed by participants in any one or more of several investment alternatives.

The income, gains or losses in each fund are allocated daily to the applicable participants' accounts in that fund based on the previously reported account balances, adjusted for current period contributions and withdrawals.

Note 1 - Description of the Plan - Continued

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum payment, partial withdrawals or payment in equal installments. The distributable amount is equal to the value of the participant's vested interest in his or her account. Employees who elect to have their benefit payments deferred continue to share in allocations of investment income and losses but do not share in subsequent allocations of discretionary contributions. The Plan also allows the distribution of a portion of a participant's balance in the event of financial hardship or upon reaching the age of 59 1/2.

Participant Notes Receivable

Participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as participant-directed investments. Loan terms range from one to five years. Loan terms may exceed five years only in the event the loan proceeds are used to purchase or construct the participant's principal residence. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing prime rates. Principal and interest is paid ratably through payroll deductions.

Participant Contributions Payable

Contributions in excess of IRS limits were received by some participants. At December 31, 2013, these excess contributions amounted to $10,403. The amounts were refunded back subsequent to year end.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Employer contributions and income from investments are recorded when earned. Employee contributions are recorded when withheld from pay. Expenses are recorded in the accounting period in which they are incurred. Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies - Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment Custodian and investment advisers. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Realized gains and losses on investment transactions are recorded as the difference between sales proceeds and carrying value. Net unrealized appreciation or depreciation in the fair market value of investments is recorded as the change in carrying value of the investment portfolio from the beginning of the year or date of purchase to the end of the year.

Participant Notes Receivable

Participant notes receivable are valued at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the plan document.

Accounting principles generally accepted in the United States of America require the Plan to show participant loans as notes receivable rather than investments. This excludes participant notes receivable from the required fair value disclosures discussed in Note 3.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies - Continued

Fees and Expenses

The Plan's administrative expenses, including salaries, accounting, and legal, are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of loans and benefit payments are charged directly to the participant's accounts and are included in administration expenses. Direct fees for custodian and recordkeeping services are paid by the Plan and are also included in administration expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 30, 2014, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Generally accepted accounting principles (GAAP) establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements - Continued

Due to the transaction described in Note 4 leaving no assets in the Plan, the table below segregates all financial assets only as of December 31, 2012 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on inputs used to determine the fair value at the measurement date:

	As of December 31, 2012			
	Fair Value Based on			
	Assets Measured At Fair Value	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobserv-able Inputs (Level 3)

Note 3 - Fair Value Measurements - Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Level 1 Fair Value Measurements

Money Market Funds are a type of mutual fund invested in low-risk securities that pay dividends that generally reflect short-term interest rates. Mutual funds are valued at daily closing prices as reported by the Fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed actively traded.

The fair value of interest bearing cash is determined by its face value, and therefore the Plan Administrator classifies this as a Level 1 investment.

The Pooled Separate Accounts are measured by utilizing the fair value of the underlying assets in John Hancock Life Insurance Company's Pooled Separate Accounts as of the valuation date multiplied by the ratio of the Plan's investment in those accounts to the balance of all plans participating in John Hancock Life Insurance Company's Pooled Separate Accounts as of the valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Plan Termination

The Company has the right under the Plan to discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA.

Effective December 31, 2013, the Plan was terminated and merged into the AIP Aerospace Holdings, LLC 401(k) Plan. Assets in the amount of $7,846,684 are included in the statement of changes in net assets available for benefits as a transfer out.

Note 5 - Plan Amendment and Tax Status

The Plan is utilizing a non-standardized prototype plan, which has been filed with the Internal Revenue Service (IRS) and has received a favorable opinion letter dated March 31, 2008 from the IRS. The Plan Sponsor has not elected to apply for an individual IRS Determination Letter on the adoption of the Plan nor on any subsequent amendments. However, the Plan Sponsor believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code and, therefore, that the Plan is qualified under Section 401(a) and that the related Trust is tax-exempt as of December 31, 2013.

The Plan was amended effective November 21, 2012 to update the name of the Plan from Odyssey Industries, Inc. 401(k) Savings Plan to Odyssey Industries, LLC 401(k) Savings Plan following the buyout with AIP Aerospace Holdings, LLC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2013, the Plan Administrator believes that the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is currently not being examined. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 6 - Unaudited Information Certified by the Custodian

Odyssey Industries, LLC has engaged John Hancock Life Insurance Company for the years ended December 31, 2013 and 2012 to act as the Plan's Custodian. The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as of and for the years ended December 31, 2013 and 2012, the financial statements have been prepared based on information certified as complete and accurate by the Custodian. This includes the investment information reflected in the accompanying statements of net assets available for benefits and the statement of changes in net assets available for benefits. Additionally, participant notes receivable balances as well as interest income on participant notes receivable have also been certified.

Note 7 - Investments

Investments representing five percent or more of the Plan's net assets are as follows:

	December 31, 2013	December 31, 2012
Lifestyle Aggressive	$ N/A	$ 304,262
Lifestyle Growth	N/A	1,074,873
Lifestyle Balanced	N/A	1,862,582

During 2013, the Plan's investments in Pooled Separate Accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,032,329.

Note 8 - Party-in-Interest Transactions

Certain plan investments are managed by John Hancock Life Insurance Company, who is the Plan's Custodian. Transactions involving these investments are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

During the year ended December 31, 2013, the Plan paid direct compensation to the Custodian of $1,379 and to Great Lakes Pension Associates, Inc. of $7,165 related to recordkeeping and administration services. Additionally, indirect compensation (that is netted against investment income on the statement of changes in net assets available for benefits) was paid to Great Lakes Pension Associates, Inc. from total annual operating expenses charged on the balance of fund investments at a rate of .05%.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Required Schedule Information

The following information pertains to the 2013 financial statement schedules required by the Department of Labor's Rules and Regulations. Those that are not reported are omitted because of the absence of conditions under which they are required.
