1 Description of Plan

The following description of the South Shore Transportation 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began March 2, 1990, is a defined contribution plan covering all non-union employees of South Shore Transportation, Inc. who meet the hour and age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2012, the Plan was restated to include all previous amendments to the Plan.

Eligibility:

All employees of the Companies age 21 and older and who are employed full-time for 60 days are eligible to participate in the Plan on the first day of the month following or coinciding with the date on which the employee has completed 60 days of full-time service.

Contributions:

Cash or Deferred Option 401(k) - Participants may elect a portion of their compensation from 1% to 100% to be contributed to the Plan by the Company.

Employer Contributions - The Company may make contributions to each eligible participant's account by matching a percentage of the participant's elective deferral for the Plan year. The matching percentage is determined annually at the discretion of Company management. For 2013 and 2012, the Company matched 100% of the first 6% contributed by each participant.

Qualified Non-Elective Contributions - The Company may also make a qualified non-elective contribution on a discretionary basis. This additional contribution, if any, will be allocated to only non-highly compensated participants in proportion to each eligible employee's compensation as a ratio of all eligible employees' compensation.

The Company may also make additional profit sharing contributions. Such additional contributions, if any, shall be allocated to each participant in proportion to his or her compensation for the calendar year. For 2013 and 2012, the Company made no such contributions.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting. Pooled separate accounts and guaranteed investment contract are reported at fair market value as of the balance sheet date. Fair market value represents quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

Valuation of Investments:

Investments held in the Plan are stated at fair value. Pooled separate accounts are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. The fair value of the guaranteed investment contract is based on the fair value of the underlying assets of the contract.

NOTES TO FINANCIAL STATEMENTS

South Shore Transportation 401(k) Plan

2 Summary of Significant Accounting Policies, Continued

Valuation of Investments, Continued:

Under current accounting guidance, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by current accounting guidance, the Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's assets include investments in pooled separate accounts and guaranteed investment contract with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 29, 2014, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in ASC 820, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- * Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

3 Fair Value Measurements, Continued

- * Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled Separate Accounts:

The fair value of the pooled separate accounts is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. Participant transactions (purchases and sales) may occur daily. The funds invest directly in the designated registered mutual fund. These fall into the Level 2 category of the valuation hierarchy.

Money Market Fund:

The fair value of the money market fund is based on the fair value of the underlying assets. The fund is classified in the Level 2 category.

Guaranteed Investment Contract:

The fair value of the guaranteed investment contract is based on the underlying assets of the contract. The fair value is expressed in units. The guaranteed investment contract is classified in the Level 3 category of the valuation hierarchy.

Mutual Funds:

The fair value of the mutual funds is based on quoted market prices.

The following table presents the financial instruments carried at fair value, on a recurring basis, as of December 31, 2013, by the valuation hierarchy (as described previously).

4 Tax Status

On March 31, 2008, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2013, there were no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

7 Party-in-Interest Transactions

Usual and customary fees were paid by the mutual funds for the investment management services.

8 Delinquent Contributions

In 2012, employee withholdings amounting to \$5,524 were not remitted by the Company to the Plan within the time period, as defined by ERISA. These transactions constitute prohibited transactions. The Company has remitted the contributions to the Plan and has followed the appropriate self-correction guidelines.

9 Investment Contract with Insurance Company

In 2013, the Plan entered into a benefit-responsive investment contract with ING Institutional Plan Services, LLC ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

9 Investment Contract with Insurance Company, Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the plan for employee contributions, (3) any substantive modification of the plan or the administration of the Plan that is not consented to by the wrap issuer, (4) complete or partial termination of the Plan, (5) any change in law, regulation or administrative ruling applicable to the plan that could have a material adverse effect on a portfolio's cash flow, (6) merger or consolidation of the plan with another plan, the transfer of assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor, (7) any communication given to participants by the plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or transfer assets out of a portfolio, (8) exclusion of a group of previously eligible employees from eligibility in the plan, (9) any early retirement program, group termination, group layoff, facility closing or similar program, and (10) any transfer of assets from a portfolio directly to a competing option. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The issuer may terminate the contract for cause at any time.

The average yield based on actual earnings of the contract was 1.00% as of December 31, 2013. The crediting interest rate was 1.00% as of December 31, 2013.
