Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation on the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Personal Touch Home Care Employee Stock Ownership Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Note 1 - DESCRIPTION OF PLAN

The following description of the Personal Touch Home Care Employee Stock Ownership Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was effective as of January 1, 2010 as a leveraged Employee Stock Ownership Plan (ESOP) and is designed to comply with section 4975(e)(7) and the regulations under the Internal Revenue Code, of 1986, as amended and is subject to the Applicable Provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and includes the employees of Personal Touch Holding Corp., and subsidiaries (the "Sponsor"). The trust department of an independent third-party bank is the Plan's trustee.

General

The Plan purchased common shares of the sponsor using borrowings from the sponsor and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a period of thirty years by income earned and sponsor contributions.

The Plan is a defined contribution plan covering all employees of Personal Touch Holding Corp., and subsidiaries.

Contributions

The Plan Sponsor will make contributions to the Plan as determined by the Board of Directors. Any contributions to the Plan shall be allocated based on participant's compensation to all participant compensation. The contribution rate is discretionary, and can change from time to time. Participants do not make contributions to this Plan.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year and not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such a year. Employees covered by a collective Bargaining Agreement are generally not eligible to participate in the Plan.

Vesting

Participants must have 1,000 hours of service during the year. Participants with less than 6 years of service since the plans inception with the company will vest at a rate of 20% per year between year two and year six. If participants are partially non-vested in their benefits resulting from the Sponsor's contributions and the participants have five consecutive years of "Breaks in Service", all the service the participants earned before the 5 year period no longer counts. Participants will be 100% vested upon their normal retirement age or upon death.

Note 1 - DESCRIPTION OF PLAN - CONTINUED

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Participant accounts and forfeitures

Sponsor's common stock released by the trustee from the unallocated account and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account bases on the ratio of the participant's beginning of the year balance to all participants' beginning of the year account balances. Only those participants who are eligible employees of the sponsor as of the last day of the Plan year will receive an allocation.

Payment of Benefits

All distributions from the Plan will be made in one lump sum payment in cash. Distributions are required to be made not later than April 1st following the year in which you reach age 70 ½ or retire in accordance with Internal Revenue Service regulations.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The mutual fund is valued at its quoted market price. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. The common shares of the company are valued at fair value on December 31, 2013. Fair value is determined by annual independent appraisers.

Operating Expenses

All administrative expenses of maintaining the Plan are all paid by the sponsor.

Note 3 – TAX STATUS OF PLAN

The Internal Revenue Service has determined that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not, wouldn't be sustained upon examination by the applicable authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosures in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, the Plan is currently being audited by the Department of Labor for 2010. The Plan Administrator believes it is no longer subject to income examination for years prior to 2009.

Note 4 – ADMINISTRATION OF PLAN ASSETS

The Plan assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan which are reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by an officer or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 5 – INVESTMENTS

The Plan's investments in the Company's common shares at December 31, 2013 are as follows:

Note 6 – FAIR VALUE MEASUREMENT

The Financial Accounting Standards Board's Accounting Standards Codification ("FASB ASC") defines fair value as the price that would be received upon sale of an asset or paid upon transfer of liability in orderly transaction between market participants at the measurement date and in the principal or most advantageous market for the asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The FASB ASC specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with the codification under GAAP, the following summarizes the fair value hierarchy:

Level 1 Inputs - Unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Inputs - Inputs, other than the quoted prices in active markets that are observable either directly or indirectly.

Level 3 Inputs - Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

The purchase was paid for by the issuance of notes from the trust to the stockholders. The company subsequently issued its' notes to the stockholders in exchange for the notes issued by the trust. The proceeds of the loan were used to purchase the company's outstanding common stock. The agreement provides for the notes to be repaid over thirty years in equal annual principal installments of $2,000,000 each commencing December 9, 2011 through December 9, 2040. Prepayment of the notes may be made without penalty. The outstanding notes bear interest at an annual rate equal of 6.25% per annum.
