NOTE 1 – DESCRIPTION OF PLAN

The following description of Koeller, Nebeker, Carlson & Haluck, LLP ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company. Employees are eligible to participate in the salary reduction portion of the plan immediately upon their hire. For discretionary profit sharing contributions, employees are eligible after they have completed one year of service and have worked 1,000 hours during that year. In addition, they must be employed at year end. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was amended effective January 1, 2008 to incorporate the final regulations under IRC section 415 that update the definition of the term 'compensation' as it relates to various provisions affecting employer benefit plans.

Plan Administration

The Plan assets are held by City National Bank, NA, ("City National"), the trustee of the Plan, which invests cash receipts, interest and dividend income and makes distributions to participants. City National also administers the payment of interest and principal on the notes receivable from participants.

Contributions

Each year, participants may elect to have a portion of their compensation contributed to the Plan on a pre-tax basis pursuant to Code Section 401(k). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary employer contributions at the option of the Company's partners. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty-nine mutual funds and ten predetermined models combining such mutual funds as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution, discretionary employer contributions and allocations of Plan earnings. Plan earnings are based on the investment of the individual participant accounts. The Company pays the administrative expenses of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their contributions to the Plan, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contributions, are based on years of continuous service as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
2	20%
3	40%
4	60%
5	80%
6	100%

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their account balance or $50,000, whichever is less. The note receivable from participants are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 7.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions. At December 31, 2013 and 2012, the notes receivable from participants were $343,988 and $322,569, respectively.

Payment of Benefits
On termination of service due to death, disability or retirement, a participant receives a lump-sum amount equal to the 100% value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts
Discretionary employer contributions that are forfeited are used to offset administrative expenses, and any remaining forfeitures will reduce future discretionary employer contributions. During 2013, $1,562 was used to offset the Plan expenses. At December 31, 2013, forfeited discretionary employer contributions totaled $0.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risk and Uncertainties
Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices on a daily basis. Purchases and sales of securities are recorded on a trade-date basis, and interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

Reclassification for Consistent Presentation
Certain prior year amounts in the statements of net assets available for benefits for the year ended December 31, 2012 have been reclassified to conform to the current year presentation.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Change in Fair Value of Investments
Net change in fair value of investments includes realized and unrealized gains and losses on investments sold or held during the year.

Notes Receivable from Participants
The notes receivable from participants are reported at their unpaid principal balance. Interest income on notes receivable from participants are recorded when received.

NOTE 3 – INVESTMENTS

During the year ended December 31, 2013, the Plan's investments (including interest, dividends and gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by $1,797,506.

NOTE 4 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their discretionary employer contributions.

NOTE 5 – TAX STATUS

The Internal Revenue Service has provided a master determination letter dated March 31, 2008 as reviewed under the volume submitter program. The Plan and related trust have reliance on this master letter in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with GAAP, Plan management is required to identify uncertain tax positions taken by the Plan. The financial statement affects of a tax position are recognized when the position is more likely than not, based on the technical merits to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded, as of December 31, 2013, there are no uncertain positions taken or expected to be taken. As a result, the Plan has recognized no interest or penalties related to uncertain tax positions.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 – FAIR VALUE MEASUREMENTS

In determining fair value, the Company uses various valuation approaches. ASC Topic 820 establishes fair value measurement framework, provides a single definition of fair value, and requires expanded disclosure summarizing fair value measurement. The statement establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimized the use of unobservable inputs by requiring that the most observable input be used when available. Observable inputs are inputs that he market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is measured in three levels based on the reliability of inputs:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 instruments.

Level 2 – Valuations based on quoted prices in less active, dealer or broker markets. Fair values are primarily obtained from third party pricing services for identical or comparable assets or liabilities.

Level 3 – Valuations derived from other valuation methodologies, including pricing models, discounted cash flow models and similar techniques, and not based on market, exchange, or broker-traded transactions. Level 3 valuations are "unobservable" and incorporate certain assumptions that are not observable in the market and require significant professional judgment in determining the fair value assigned to such assets or liabilities.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The following are the major categories of assets and liabilities measured at fair value during the year then ended December 31, 2013, using unadjusted quoted prices in active markets for identical assets (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3):

Description/ Asset Category	Level Inputs	Fair Value December 31, 2013	Fair Value December 31, 2012
Mutual Funds	1	$ 10,257,428	$ 7,839,707
Common Stock	1	29,215	50,178
Common Stock	3	52,439	50,000
Preferred Stock	1	5,305	6,813
Total		$ 10,344,387	$7,946,698

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

NOTE 7 – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.
